**Jennie Lee** Patricia Hollis, 2014-09-18 First published in 1997, Patricia Hollis's biography of the pioneering Labour MP Jennie Lee (1904-1988) won both the Wolfson History Prize and the Orwell Prize. It is the definitive study of this remarkable woman, her stormy political career, and her marriage to Aneurin Bevan. In a new preface to this edition Hollis adds insights into Lee's life which emerged subsequent to first publication, and also draws on her own experience as a Labour Minister from 1997-2005. 'Lee's lives and loves, passions and drives are beautifully and frankly explored in Patricia Hollis's compelling book.' THES 'Superbly researched, engrossingly written, scrupulously honest.' Gerald Kaufman, Daily Telegraph 'What makes it particularly fascinating is the author's own first-hand knowledge of politics and of the Labour movement.' TLS 'One of the best political biographies of recent years' Alan Watkins, New Statesman

**Vienna and the New Wohnkultur, 1918-1938** Michelle Jackson-Beckett,2024-03-20 While the domestic sphere might seem tangential to the dire political situation and humanitarian crises of interwar Europe, it was nevertheless at the forefront of debates about cultural identity and economic policy in the Viennese press, culture, and arts. *Vienna and the New Wohnkultur, 1918-1938* explores why and how the Viennese design landscape was set apart--aesthetically and theoretically--from other European explorations of modern design. Jackson-Beckett examines interior design exhibitions, press, and debates about modern living in interwar Vienna, an overlooked area of modern European architecture and design history, arguing for a reconsideration of the contours of European modernism. The text analyses varied interpretations of modern domestic culture (Wohnkultur) in Vienna, and explores why these interpretations were distinct from other strands of European modernism. *Vienna and the New Wohnkultur* introduces new research and translation of primary sources on flexible, adaptable, and affordable design by architects, designers, and retailers. Vienna's design discourse also prefigured important postmodern and contemporary discussions on historicism, eclecticism, empathy, and user experience. Through extensive new research in archival and period sources, Jackson-Beckett illustrates how design ideas, taste, and portrayals of domestic culture of fin-de-si?cle Viennese Modernism (Wiener Moderne) were also deployed as forms of cultural and national identity both during the early years of the Social Democratic government in Vienna (1918-1934) and later under the fascist state (1934-1938).

*The Mandolin in America* Walter Carter, 2016-12-01 When large numbers of students from Spain arrived in New York in 1880, they introduced the American public to a new instrument – the mandolin. Spanning more than a century, this book chronicles the national mandolin craze that swept across the nation and the evolution of the instrument in America to the present day. Eclipsing the banjo and guitar as the most popular fretted instrument in the late 19th century, the mandolin inspired the formation of the Gibson company. After World War I, the mandolin went into a long period of decline, during which it found sanctuary in rural string bands and bluegrass music. By the 1980s, a revival was underway, with adventurous players using mandolins in all types of musical settings, including symphonic, semi-classical ensembles, jazz, klezmer, Irish, choro, and all the branches emanating from bluegrass. *The Mandolin in America* profiles all the significant makers, including Bigsby, Epiphone, Fender, Flatiron, Giacomel, Gibson, Gilchrist, Lyon & Healy, Martin, Monteleone, National, Nugget, Vega, Vinaccia, and Washburn. Lavishly illustrated with color photos throughout, this is a must-have volume for collectors and music enthusiasts alike.

*Give and Take* Shirley Tillotson, 2017-11-15 A book about tax history that's a real page-turner? *Give and Take* is full of surprises. A Canadian millionaire who embraced the new federal income tax in 1917. A socialist hero who deplored the burden of big government. Most surprising, twentieth-century taxes have made us richer, in political engagement and more. Taxes make the power of the state obvious, and Canadians often resisted that

power. But this is not simply a tale of tax rebels. Tillotson argues that Canadians also made real contributions to democracy when they taxed wisely and paid willingly.

A Bibliography of Female Economic Thought up to 1940 Kirsten Madden,Michele Pujol,Janet Seiz,2004-03-01 Contributions to female economic thought have come from prolific scholars, leading social reformers, economic journalists and government officials along with many other women who contributed only one or two works to the field. It is perhaps for this reason that a

comprehensive bibliographic collection has failed to appear, until now. This innovative book brings together the most comprehensive collection to date of references to women's economic writing from the 1770s to 1940. It includes thousands of contributions from more than 1,700 women from the UK, the US and many other countries. This bibliography is an important reference work for systematic inquiry into questions of gender and the history of economic thought. This volume is a valuable resource and will interest researchers on women's contributions to economic thought, the sociology of economics, and the lives of female social scientists and activist-authors. With a comprehensive editorial introduction, it fills a long-standing gap and will be greeted warmly by scholars of the history of economic thought and those involved in feminist economics.
