The School Library Manager Blanche Woolls,Sharon Coatney,2017-11-27 This sixth edition of Library Unlimited's classic school library management text describes new approaches to management and addresses the realities that school librarians face in today's quickly evolving information-based world. In recent years, nearly all school libraries and school librarians have been targeted for having their funding or staffing cut as a result of reductions in school budgets. How does a newly graduated LIS professional prepare for a career in this volatile environment? How do established librarians and administrators prove their value and necessity to decision makers? This freshly updated edition of *The School Library Manager* is an invaluable textbook that leads readers through the many essential management tasks and skills required to administer the successful school library program and beyond.

It promotes the leadership role of the school librarian in the school and addresses the need for school librarians to provide students with equal access to information. The information presented will not only enable librarians to keep their jobs but also supply specific guidance and inspiration that gives readers the ability to make their positions and libraries undeniably relevant and valuable—and to ensure a path of upward mobility in their LIS careers.

Your Home Library Kathie Coblentz, 2003-10-22 For the general book lover, someone whose ardor for the printed word has led to stacks of yet-to-be-read volumes on floors and other surfaces, here's a great, enjoyable way to keep track of them all. This comprehensive kit draws upon the expertise of one of the world's greatest libraries, the only facility of its kind with both world-class research and circulating collections. It includes a CD containing custom software to organize and record your book collection by title, author, subject, location on your bookshelf, and numerous additional useful categories. Also included are beautiful bookplates, an instruction manual, and an instructive volume on creating and organizing home libraries, written by an experience librarian. The 96-page book

celebrates the myriad of joys of being a book lover, and addresses such issues as evaluating and organizing a collection, and keeping it in place with bookends and shelves; caring for books, and the art of loaning books that are actually returned.
