**Introductory Grammar of Amharic** Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's Traite de langue amharique (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language.The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

**A European Unemployment Benefit Scheme** Bertelsmann Stiftung,2014-03-01 The recent euro crisis and the dramatic increase of unemployment in some euro countries have triggered a renewed interest in a fiscal capacity for the European Union to stabilize the economy of its member states. One of the proposed instruments is a common European unemployment insurance. In this book Sebastian Dullien from the HTW Berlin provides and evaluates a blueprint for such a scheme. Building on lessons from the unemployment insurance in the United States of America, he outlines how a European unemployment benefit scheme could be constructed to provide significant stabilization to national business cycles, yet without strongly extending social protection in Europe.
