Major Labels Kelefa Sanneh,2022-10-04 One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year "One of the best books of its kind in decades." —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In Major Labels, Sanneh distills a career's worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, Major Labels pays in full.

The Greening of Everyday Life John M. Meyer,Jens Kersten,2016 The Greening of Everyday Life develops a distinctive new way of talking about environmental concerns in post-industrial society. It brings together several conceptual frameworks with a diversity of case studies and practical examples of efforts to orient everyday material practices toward greater sustainability. The volume builds upon internal criticisms of dominant strands of contemporary environmentalism in post-industrial societies, and develops a new approach which emerges from a number of disciplines, but is unified by a normative concern for the material objects and practices familiar to members of societies in their everyday lives. In exploring alternatives, the chapter authors utilize conceptual frameworks rooted in environmental justice, new materialism, and social practice theory and apply it to the everyday; attention to urban biodiversity, infrastructure for storm water run-off, green home remodelling, household toxicity, community gardens and farmers markets, bicycling and automobility, alternative technologies, and more. With contributions from leading international and emerging scholars, this volume critically explores specific strategies and actions taken to generate homes, communities, and livelihoods that might be scaled-up to promote more sustainable societies.
