**Dynamics of Governing IT Innovation in Singapore** Gary Pan, 2013 Focusing on issues in the management and governance of IT innovation, this book links concepts and theories of academic learning to actual real-life scenarios from the successful experiences of public and private sector organisations in Singapore. While there is little disagreement that innovation is the fundamental source of value creation and competitive advantage, investment in IT to support and foster innovation by no means guarantees success. There are various issues to be considered, such as the question of processes and structures that need to be in place in order to maximise value, how to leverage IT innovation to formulate constantly evolving strategies so as to seize emergent opportunities, and how to overcome challenges faced in implementation, amongst others. Suitable as a complement to main texts for academic courses on accounting information systems and management information systems, as well as a guide for business professionals in this field, the book provides a concise introduction on the subject through the use of case studies and teaching notes, affording a broad perspective on the most important issues.

**Product-Led SEO** Eli Schwartz,2021-03-30 Nothing can take your business to the next level like great search engine optimization (SEO). Unfortunately, it's not always easy to know what will successfully drive traffic,

leads, and sales. If you want to stand out from your competition, your SEO needs a distinctive blend of creativity and logic. Maybe you're a marketing manager or executive who is responsible for SEO growth but do not fully understand how it works. Or maybe you are a seasoned SEO pro looking to optimize further. Either way, this book is your behind-the-scenes guide to online visibility. When it comes to SEO, success often depends not on what you do but on how you do it. That is why Product-Led SEO digs deep into the logic and theory of SEO instead of offering step-by-step guidelines and techniques. You will learn to develop your own best practices and see where most SEO strategies go astray. If your main goal is driving traffic, you are leaving sales on the table.

Case Based Research in Tourism, Travel, Hospitality and Events Marianna Sigala,Anastasia Yeark,Rajka Presbury,Marcela Fang,Karen A. Smith,2022-01-05 This book consolidates international, contemporary and topical case study based research in tourism, travel, hospitality and events. Case studies can make learning more attractive and interesting as well as enable students to understand the theory better and develop their analytical and problem-solving skills. Using industry as an open living lab, case study based research infuses scholars into real-world industry challenges and inspires them to theorise and advance our knowledge frontiers. The book includes international case studies that can help tourism scholars build and advance (new) theories and enrich their educational practices. Case studies are accompanied with a teaching note guiding scholars to integrate case studies into instruction. Dr Kirsten Holmes, Chair, Council for Australasian Tourism and Hospitality Education (CAUTHE) There is a vital need for contemporary and well-structured case studies for use in tourism teaching. By including case studies from Australasia and key destination regions in Asia, Europe, and the Caribbean, the book is helpful for tertiary teachers globally. Professor Xander Lub, President, EuroCHRIE The book inspires educators and students. The cases provide context to students' learning and demonstrate the richness and variation of the industry. The book also clearly demonstrates how research can inform our teaching. Professor Brian King, Chair, THE-ICE Assessment Panel The book includes cases under five themes: experiences, operations, technologies, strategy and marketing, and destinations. The book provides subject lecturers with a structure to guide students of applying theory into practice. Dr Paul Whitelaw, Academic Director, Southern Cross University This book marks a

significant contribution to hospitality, tourism and events pedagogy at undergraduate and postgraduate level. At a time when the industry is demanding that our graduates have a strong grasp of “real world issues”, the case study approach provides an accessible, meaningful and relatable means by which students can engage in real world issues.
