Multi-Agent Systems and Applications IV Michal Pechoucek,Paolo Petta,Laszlo Zsolt Varga,2005-10-03 The aim of the CEEMAS conference series is to provide a biennial forum for the presentation of multi-agent research and development results. With its particular geographicalorientation towards Central and Eastern Europe, CEEMAS has become an internationally recognised event with participants from all over the world. After the successful CEEMAS conferences in St. Petersburg (1999), Cracow (2001) and Prague (2003), the 2005 CEEMAS conference takes place in Budapest. The programme committee of the conference series consists of established researchers from the region and renowned international colleagues, sharing the prominent rank of CEEMAS among the leading events in multi-agent systems. In the very competitive field of agent oriented conferences and workshops nowadays(suchasAAMAS,WI/IAT,EUMAS,CIA,MATES)thespecialprofile of CEEMAS is that it is trying to bridge the gap between applied research achievements and theoretical research activities. Our ambition is to provide a forum for presenting theoretical research with an evident application potential, implemented application prototypes and their properties, as well as industrial case studies of successful (but also unsuccessful) agent technology deployments. This is why the CEEMAS proceedings volume provides a collection of research and application papers. The technical research paper section of the proceedings (see pages 11-499) contains pure research papers as well as research results in application settings while the application papers section (see pages 500-530) contains papers focused on application aspects. The goal is to demonstrate the real life value and commercial reality of multi-agent systems as well as to foster communication between academia and industry in this field.

The Seeker and the Monk Scott Sophronia,Taylor Brown, Barbara,2021-03-16 What if we truly belong to each other? What if we are all walking around shining like the sun? Mystic, monk, and activist Thomas Merton asked those questions in the twentieth century. Writer Sophronia Scott is asking them today. In The Seeker and the Monk, Scott mines the extensive private journals of one of the most influential contemplative thinkers of the past for guidance on how to live in these fraught times. As a Black woman who is not Catholic, Scott both learns from and pushes back against Merton, holding spirited, and intimate conversations on race, ambition, faith, activism, nature, prayer, friendship, and love. She asks: What is the connection between contemplation and action? Is there ever such a thing as a wrong answer to a spiritual question? How do we care about the brutality in the world while not becoming overwhelmed by it? By engaging in this lively discourse, readers will gain a steady sense of how to dwell more deeply within--and even to love--this despairing and radiant world.
