Foseco Non-Ferrous Foundryman's Handbook John

Brown,1999-09-17 The Non-Ferrous Foundryman's Handbook provides a practical reference book for all those concerned with dealing with aluminium, copper and magnesium casting alloys. International SI units are used throughout, but in almost all cases conversions to the more familiar Metric and Imperial units are given. Wherever possible, Casting Alloy Specifications include equivalent specifications for several countries as well as international specifications. Individual chapters cover the casting of all types of non-ferrous metals. For each group of alloys, specifications, and typical applications are described, together with details of melting practice, metal treatment and casting practice. Sand moulding materials, including green sand and chemically bonded sands are also included. Recently there have been many major technical developments including new sand binders, the adoption of metal filtration of castings and widespread use of computers for the optimisation of feeder design.

Strengthening Bolivian Competitiveness Yaye Sakho,Oscar Calvo- Gonzalez,2009-07-20 The government of Bolivia seeks to reinvigorate the nontraditional export sector as part of its national development strategy. This Country Study investigates the role that trade should play in Bolivia s development strategy, given the country s rich resource endowment, and examines the lessons of Bolivia s integration into the global

economy. Considering the past links between trade and Bolivia's economy, the study analyzes the impact of different scenarios on growth, employment, trade flows, and poverty; it also evaluates barriers to higher export competitiveness and constraints on exporting firms. The study concludes that preferential access to world markets is necessary but not sufficient for success in nontraditional exports. Efficient services are necessary to reduce exporters' costs, and the government should be more proactive in laying the foundation for export diversification, increasing the effectiveness of institutions, and addressing impediments to crossborder trade.
