Hugh Morgan

Hunters in the Sky ,2004

Aces Bill Yenne,2020-10-13 Aces is an illustrated history of the brave World War II fighter pilots who earned the title of ace, with archival and modern photos of their aircraft.

Pusher Aces of World War 1 Jon Guttman,2009-07-21 The quest for an effective fighter airplane to achieve air superiority during World War 1 resulted in a series of pusher fighter planes, designed with the engine at the rear and the machine gun at the front. These ungainly, heavy looking fighters did surprisingly well and they were able to hold their own against their German counterparts - including the Fokker Eindeckers with their synchronized machine guns - until 1917. By then, however, the drag-producing design rendered the pusher fighter unable to match the performance of tractor-engined machines. This is the story of the unusual pusher and its many aces, including Lanoe Hawker VC, who formed and led Britain's first fighter squadron before dying in a ten-minute duel with Manfred von Richtofen, American 'cowboy' ace Frederick Libby, third-ranking French ace Charles Nungesser and the aggressive Belgian ace Fernand Jacquet. Packed with colorful artwork of a variety of pusher designs, paint schemes, and camouflage from many different nationalities, this book guides you through the twists and turns of this bizarre yet surprisingly successful fighter during World War 1.

Aces High Bill Yenne,2009-02-03 Capturing the hearts of a beleaguered nation, the fighter pilots of World War II engaged in a kind of battle that became the stuff of legend. They cut through the sky in their P-38s to go one-on-one against the enemy—and those who survived the deadly showdowns with enough courage and skill earned the right to be called aces. But two men in particular rose to become something more. They became icons of aerial combat, in a heroic rivalry that inspired a weary nation to fight on. Richard “Dick” Bong was the bashful, pink-faced farm boy from the Midwest. Thomas “Tommy” McGuire was the wise-cracking, fast-talking kid from New Jersey. What they shared was an unparalleled gallantry under fire which won them both the Medal of Honor—and remains the subject of hushed and reverent conversation wherever aerial warfare is admired. What they had between them was a closely watched rivalry to see who would emerge as the top-scoring American ace of the war. What they left behind is a legacy of pride we will never forget, and a record of aerial victories that has yet to be surpassed anywhere in the world.

P-36 Hawk Aces of World War 2 Lionel Persyn,Kari Stenman,Andrew Thomas,2012-12-20 The Curtiss P-36 was considered a revolution in performance design in comparison to other US fighters. Yet by the time of the Japanese attack on Pearl Harbor the P-40 was increasingly supplanting the P-36, which the US then exported to France under the guise of the Hawk 75. Flown by the French, captured by the Germans, sold to the Finns, transferred to India and Africa, and even incorporated into the RAF, the Hawk 75 saw service in every theatre of operations and in a variety of combat environments. This book depicts the fascinating life of a plane that fought on both sides in the war, with colour artwork, photographs and first-hand accounts.

SE 5/5a Aces of World War I Norman Franks,2013-02-20 The Royal Aircraft Factory SE 5/5a was, along with the Sopwith Camel, the major British fighting scout of the last 18 months of the war in France. It equipped several major squadrons, the first being No 56 Sqn in April 1917. This unit became famous for the number of aces it had among its pilots, including Albert Ball, James McCudden, Geoffrey Bowman, Richard Maybery, Leonard Barlow, Hank Burden and Cyril Crowe. In all, 26 aces flew the aircraft with No 56 Sqn alone. Other well-known units were Nos 1, 24, 29, 32, 40, 41, 60, 64, 2 AFC, 74, 84, 85 and 92 Sqns. A number of Victoria Cross winners also flew SE 5/5as, namely Ball, Mannock, McCudden, Beauchamp Proctor and Bishop. Among the aces, no fewer than 20 scored more than 20 victories. In all, there were almost 100 SE 5/5a aces, and a large number of them are profiled in this volume. Supporting the text are more than 110 photographs, 37 brand new colour artworks and detailed appendices listing every

pilot who 'made ace' on the SE 5/5a.

Russian Aces of World War 1 Victor Kulikov, 2013-04-20 Although the Russian Imperial Army Air Service consisted of no more than four BAGs (Boevaya Aviatsionniy Gruppa - battle aviation groups), each controlling three or four smaller AOIs (Aviatsionniy Otryad Istrebitelei - fighter aviation detachments) equipped with a variety of aircraft types, its fighter pilots nevertheless gave a good account of themselves. Indeed, during three years of war they claimed more than 200 Austro-Hungarian and German aircraft shot down, creating 13 aces - these elite aviators accounted for around half of the victories claimed on the Eastern Front. Pilots flew a variety of fighter types, with French Nieuport scouts and SPAD VIIs proving to be the most popular, and effective, aeroplanes to see service on this front. The exploits of these aces are detailed here, with information based on material newly sourced by the author from Russian military and private archives. Many previously unpublished photographs are used to illustrate this book, supported by full-colour profiles that reveal how striking some of the aces' fighters were in this often-forgotten theatre of World War 1.

American Aces in Great Fighter Battles of World War II Edward Sims, 2007-03-01 Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Race of Aces John R Bruning, 2020-01-14 The astonishing untold story of the WWII airmen who risked it all in the deadly race to become the greatest American fighter pilot. In 1942, America's deadliest fighter pilot, or ace of aces -- the legendary Eddie Rickenbacker -- offered a bottle of bourbon to the first U.S. fighter pilot to break his record of twenty-six enemy planes shot down. Seizing on the challenge to motivate his men, General George Kenney promoted what they would come to call the race of aces as a way of boosting the spirits of his war-weary command. What developed was a wild three-year sprint for fame and glory, and the chance to be called America's greatest fighter pilot. The story has never been told until now. Based on new research and full of revelations, John Bruning's brilliant, original book tells the story of how five American pilots contended for personal glory in the Pacific while leading Kenney's resurgent air force against the most formidable enemy America ever faced. The pilots -- Richard Bong, Tommy McGuire, Neel Kearby, Charles MacDonald and Gerald Johnson -- riveted the nation as they contended for Rickenbacker's crown. As their scores mounted, they transformed themselves from farm boys and aspiring dentists into artists of the modern dogfight. But as the

race reached its climax, some of the pilots began to see how the spotlight warped their sense of duty. They emerged as leaders, beloved by their men as they chose selfless devotion over national accolades. Teeming with action all across the vast Pacific theater, *Race of Aces* is a fascinating exploration of the boundary between honorable duty, personal glory, and the complex landscape of the human heart. Brings you into the cockpit of the lethal, fast-paced world of fighter pilots . . . Fascinating. -- Sara VladoExtraordinary . . . a must-read. -- US Navy Captain Dan PedersenA heart-pounding narrative of the courage, sacrifice, and tragedy of America's elite fighter pilots. -- James M. ScottVivid and gripping . . . Confirms Bruning's status as the premier war historian of the air. -- Saul David

Allied Fighter Aces Mike Spick, 2004 Many thousands of fighter pilots, of many nations - British, American, Australian, Canadian, Polish and many more - flew, fought and died in Allied aircraft. A few became famous. About five percent of fighter pilots accounted for some forty percent of all air victories, and these were the aces. Mike Spick, author of the excellent *Luftwaffe Fighter Aces*, examines in detail every major theatre of the air war, compares the aircraft and operational conditions, and highlights individual tactics and methods of the best of the aces.

Soviet Aces of World War 2 Hugh Morgan, 2013-01-20 No single volume in English has ever appeared in the West dealing with this intriguing subject area, but now that restrictions have relaxed in the former Soviet Union, records of the deeds of the elite pilots of the various Soviet Air Forces are coming to light. Although initially equipped with very poor aircraft, and robbed of effective leadership thanks as much to Stalin's purges in the late 1930s as to the efforts of the Luftwaffe, Soviet fighter pilots soon turned the tables through the use of both lend-lease aircraft like the Hurricane, Spitfire, P-39 and P-40, and home-grown machines like the MiG-3, LaGG-3/5, Lavochkin La-5/7/9 and the Yak-1/3.

Hunters in the Sky James R. Whelan, 1991 The companion volume to a Discovery channel series features interviews with pilots of the Luftwaffe, British aces, American flyers, Japanese kamikaze fighters, and Russian pilots

The German Aces Speak Colin D. Heaton, Anne-Marie Lewis, Brig. Gen. Robin Olds, USAF (Ret.), Oberleutnant Kurt Schulze, 2011-11-15 DIVDIVFor the first time, four German WWII pilots share their side of the story./divDIV/divDIVFew perspectives epitomize the sheer drama and sacrifice of combat more perfectly than those of the fighter pilots of World War II. As romanticized as any soldier in history, the WWII fighter pilot was viewed as larger than life: a dashing soul waging war amongst the clouds. In the sixty-five-plus years since the Allied victory, stories of these pilots' heroics have never been in short supply. But what about their adversaries' the highly skilled German aviators who pushed the Allies to the very brink of defeat?/divDIV/divDIVOf all of the Luftwaffe's fighter aces, the stories of Walter Krupinski, Adolf Galland, Eduard Neumann, and Wolfgang Falck shine particularly bright. In *The German Aces Speak*, for the first time in any book, these four prominent and influential Luftwaffe fighter pilots reminisce candidly about their service in World War II. Personally interviewed by author and military historian Colin Heaton, they bring the past to life as they tell their stories about the war, their battles, their lives, and, perhaps most importantly, how they felt about serving under the Nazi leadership of Hermann Göring and Adolf Hitler. From thrilling air battles to conflicts on the ground with their own commanders, the aces' memories disclose a side of World War II that has gone largely unseen by the American public: the experience of the German pilot./div/div

Death was Their Co-pilot Michael Dörflinger, 2017 It was in the First World War that the skies first became a battlefield, with nations seeking to decide military outcomes off the ground. This volume introduces the fighter pilots of World War I, including the infamous 'Red Baron' Manfred von Richthofen. In addition to this iconic flying ace, the author presents the thrilling biographies of numerous others and recounts their exploits and the tragedies they suffered. Likewise, the book illustrates the Great War's historical background and documents the increasing sophistication of aviation technology and warfare.

Dolphin and Snipe Aces of World War 1 Norman Franks, 2012-11-20 This book focuses on the combat careers of the last of the famous Sopwith

fighters to enter service during World War 1, the Dolphin and the Snipe, both of which were built on the strong scouting heritage of the Pup and Camel. The Dolphin featured the unique negative-staggered biplane wing arrangement, which provided the pilot with the best possible tactical view forward for seeking out his enemy. Used extensively on the Western Front, the Dolphin proved very effective in combat, with a substantial number of British aces scoring kills with the fighter. The Snipe was built as the successor of the highly successful Camel, and entered service with the fledgling Royal Air Force in the summer of 1918. Although seeing just a few months of action before the Armistice, the Snipe nevertheless proved its superiority over virtually all other fighters.

Albatros Aces of World War 1 Part 2 Greg VanWyngarden, 2007-06-19 Nearly every German ace who flew before the summer of 1918 scored victories in Albatros fighters, whose introduction coincided with the development of the famous and highly successful Jagdstaffeln, the first true German fighter formations, which became a critical German air tactic and helped to wrest back air superiority from the Allies. After wreaking havoc in the skies over Arras the Albatros was eventually outclassed by succeeding generations of Allied aircraft, but still remained the most numerous and ubiquitous of all German fighters in World War I, with Albatros biplanes contributing almost two-thirds of the German fighters at the front during the Spring Offensive of 1918. This book, with its 32 color profiles, charts the unique markings and design of one of the most menacingly beautiful fighters of the war. Featuring famous and unsung aces, a multitude of first-hand accounts and original photographs, this book offers a fresh view into the experiences of the German pilots who endured a very different kind of war from the troops on the ground. While the soldiers confronted the dangers of No-Man's Land and faceless slaughter, the pilots endured deadly games of cat and mouse in the skies above the trenches.
