It’s 1997, and the United States is locked in a struggle with Nazi Germany that has lasted more than fifty years. Sky Raider James Axler,2014-01-15 OUT OF THE ASHES Raw courage and knowledge of the arcane secrets of preDark technology have enabled Ryan Cawdor and his warrior companions to live and roam a land tortured—but not destroyed—by apocalyptic madness. In a world where the price of living is paid in flesh and blood, nothing is ever free, not even death. DEATH FROM THE SKIES In Deathlands, power brings more power to those able to command it by means fair or foul. Yet few among the most tyrannical barons can rival the ruthlessness of Sandra Tregart, whose despotic visions are being realized by resurrected technology: air power. With her restored biplane, she delivers death from the skies to all who defy her supremacy—a virulent ambition that challenges Ryan Cawdor and his band in unfathomable new ways.

People of the Sky Clare Bell,1990 Marooned on a strange planet far from home, Kesbe Temiya's only hope for rescue lies with the Hopi Indians who have formed a symbiotic relationship with the flying creatures indigenous to the planet

But the man he becomes is so affected by the injustice he sees, in allcountries, that his true quest is renegade - he must abandon all he knows and seek out the fabulous and terrifying dragons of the north, in order to end centuries-old, brutal war. Ravishingly cinematic and a thumping good read -- a British fantasy master at his best.

Nothing But Sky Amy Trueblood,2018-03-27 Grace Lafferty, an eighteen-year-old wing-walker, thrills crowds with barrel rolls and loop-the-loops in hopes of making enough money to get to the 1922 World Aviation Expo.

Sabotage in the Sky L. Ron Hubbard,2009-07-16 Bill Trevillian is as ruggedly handsome as he is bold and brave. Kip Lee is as strikingly beautiful as she is fiery and fearless. And they’ve got something in common. They’re both test pilots . . . for rival aviation companies. Put them together and, like a young Tracy and Hepburn, sparks are bound to fly. The Second World War is raging in Europe, and England and France are looking to America for a fighter plane to match up with the superior Nazi Messerschmitt. The competition between Bill and Kip is fierce, and the stakes are stratospheric. Because there’s an added element in the mix: a deadly saboteur. People say all’s fair in love and war, but when there’s Sabotage in the Sky, the flight path from heated rivalry to heated romance could lead Bill and Kip to crash and burn. “If you crave air adventure written by an airman who knows what a hot plane can do, don’t miss Sabotage in the Sky,” wrote the editor introducing the story in 1940. And Hubbard’s knowledge proved prophetic—unknown to the FBI, the German intelligence service, the Abwehr, was actively gathering intelligence about American military aircraft designs and manufacturing. The author also had personal aviation experience, earning a reputation as a daredevil pilot barnstorming across the United States, landing in farmer’s fields and skimming over the top of telephone wires—experiences he put to good use as a well-known aviation correspondent and one of the most accomplished writers of aviation adventure.

Conquerors of the Sky Thomas Fleming,2004-06-14 A novel that crowns Thomas Fleming's forty-year career, Conquerors of the Sky takes readers on a gripping insider's journey into the lives and loves, the hopes and heartbreaks of the men and women who make America's planes. When Adrian Van Ness, the enigmatic chairman of Buchanan Aircraft, dies of a heart attack, a struggle for control of the aerospace giant erupts between burly Dick Stone, the tough-talking money man from New York, and Californian Cliff Morris, CEO and supersalesman. Sarah Morris, Cliff's estranged English-born wife, knows all the company's secrets. With her at the controls, Conquerors of the Sky becomes a time trip to the early years of the twentieth century, when flight was seen as spiritual ascent and idealistic Frank Buchanan began designing planes. New York aristocrat Adrian Van Ness is equally fascinated by these new machines--as a financial bonanza. In 1930, Adrian's amoral business genius and Frank's visions of ever swifter sleeker planes form a precarious alliance. Soon Buchanan Aircraft is competing with Lockheed and Boeing and Northrop for contracts to build airliners and bombers and fighters. As corrupt connections between generals and congressmen and presidents multiply, Frank sees some of his greatest planes scuttled by dirty political deals. He watches Adrian grow rich and powerful preaching the gospel of air power in the century's wars. When Dick Stone joins Buchanan he

sees Adrian as his American father. But he soon shifts his spiritual allegiance to Frank Buchanan. Cliff Morris's flamboyant style conceals a ruinous moral collapse in the deadly skies over World War II Germany. His fear of discovery is worsened by the sardonic shadow of his stepbrother, Billy McCall, the supreme pilot Cliff will never become. Sarah loves all three men and ultimately has to choose between them, knowing that in the macho world of Buchanan Aircraft, women are objects to be enjoyed -- or used to sell the latest bomber or airliner. For women like Amanda Van Ness, Adrian's wife (and Frank Buchanan's lover), this leads to madness. For Sarah it leads to power -- at a terrible price. Spanning the history of flight from the clumsy fabric planes of 1911 to the whizzing stealth fighters of today, *Conquerors of the Sky* is a page-turning drama of the struggle to mesh aerodynamic visions with the harsh realities of cashflow and profits -- and with the desires and dreams of the men and women who inhabit this unique world. Told by a master of the historical imagination, it is a must-read book that will launch America into the celebration of the hundredth anniversary of flight. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sky High Eric Hodgins, 2018-03-06 Excerpt from *Sky High: The Story of Aviation* Our indebtednesses are few but deep. To Mr. Edward Weeks of the Atlantic Monthly Press and Mr. Theodore Morrison of the Atlantic Monthly we owe the original idea from which this book stemmed. Professor William N. Seaver, Librarian, and Mrs. Katherine Maynard, Vail Librarian, of Massachusetts Institute of Technology, graciously threw open the Treasure Room of the Library, which yielded information on the obscure early days of aviation and aerostation. We cannot be sufficiently grateful to Mr. Edward P. Warner, the first holder of the portfolio of Assistant Secretary Of the Navy for Aeronautics, and now Editor of Aviation, who read the proofs with painstaking care. To Mr. Carl H. Claudy of Washington, D. C., we owe a debt as great for the thoroughness with which he examined the proof for every type of error which an author can make. And without the supersecretarial services of Mrs. Harriet Rodgers this book could not have been written at all. The Wrong Side of the Sky Gavin Lyall,1966 A chance encounter in an Athens bar with war-time flying buddy sets Jack Clay on the trail of the Nawab of Tungabhadra's missing fortune, hi-jacked out of India years before at the time of partition. Maybe there would be nothing much in it for him at the end of the day, but it sure beat the hell out of growing old and obsolete together with the dilapidated Dakota in which he flew everything anywhere on a wing and a prayer and a bottle of Scotch. Clay badly needed out. This might be his last chance. But there were others whose needs were as great as Clay's. Men and women who were prepared to lie and cheat, murder and maim, to get to the diamonds first.
