Collaborative Spaces at Work Fabrizio Montanari,Elisa Mattarelli,Anna Chiara Scapolan,2020-12-28 Collaborative spaces are more than physical locations of work and production. They present strong identities centered on collaboration, exchange, sense of community, and co-creation, which are expected to create a physical and social atmosphere that facilitates positive social interaction, knowledge sharing, and information exchange. This book explores the complex experiences and social dynamics that emerge within and between collaborative spaces and how they impact, sometimes unexpectedly, on creativity and innovation. Collaborative Spaces at Work is timely and relevant: it will address the gap in critical understandings of the role and outcomes of collaborative spaces. Advancing the debate beyond regional development rhetoric, the book will investigate, through various empirical studies, if and how collaborative spaces do actually support innovation and the generation of new ideas, products, and processes. The book is intended as a primary reference in creativity and innovation, workspaces, knowledge and creative workers, and urban studies. Given its short chapters and strong empirical

orientation, it will also appeal to policy makers interested in urban regeneration, sustaining innovation, and social and economic development, and to managers of both collaborative spaces and companies who want to foster creativity within larger organizations. It can also serve as a textbook in master's degrees and PhD courses on innovation and creativity, public management, urban studies, management of work, and labor relations.

Factors Behind the Ukrainian Evangelical Missionary Surge from 1989 to 1999 John Edward White,2020-03-16 Throughout its history, the Soviet Union was one of the most closed places in the world to missionary work. As perestroika came in the late 1980s and the Soviet Union fell in 1991, a spiritual vacuum formed as massive numbers of people became interested in Christianity. An unprecedented freedom allowed evangelicals to engage in missionary work. Much has been written about foreign evangelical missionary work during this period, but virtually nothing has been written about nationals doing ministry. This book examines the remarkable surge in Ukrainian evangelical missionary work from 1989 to 1999. Both Baptists and Pentecostals engaged in a wave of

missions, flowing from Ukraine to the end of the earth: Siberia. What were these pioneering missionaries like? What motivated them? What enabled them to do what had been forbidden for so long? What legacy did they leave for us today? What can we learn from their example for future missions? This book also looks at how a surge in missions takes place, analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change. Here we consider: what steps can we take to help bring about new missionary surges?
