Cat Jarman

Sleipnir Linda Evans,1994 Only one angry and determined G.I. stands between the fiery death of the world and the survival of the human race. Our hero begins a quest, not for gold nor glory, but for vengeance . . . vengeance against the gods themselves. But in the end, he must save the gods from Ragnarok.

Sleipnir, le vrai cerf-volant de maman Galliane Bertin, Hubert Clerget, Monique Corbel, Reine Dupeyron, Jules Ferran, Irène Lombard, Elisabeth Lorda et Lucie Montolieu,2016-05-11 Une maman débordée par son quotidien, deux enfants en demande d'affection et sur le chemin de l'école un cerf-volant accroché au sommet d'une grue de chantier... ainsi débute l'aventure qui mènera Pauline et son petit frère Mathieu à réparer et consolider le fil d'amour qui unit leur famille. Tools, Weapons and Ornaments Herbert Schutz,2001 The book examines the link between history and archeology derived from funerary and settlement materials in early Medieval Central Europe. The evidence demonstrates that the populations located to the north of the Roman frontiers were culturally aware societies with socio-political structures.

High Dusk Sax Brightwell,2024-02-17 Fiyeli and Evret made it out of the ruined space station deep beneath the surface of Sleipnir, and together with Fiyeli's charges, Maunat and Bhimmi, they led the massive, ancient Mountains of Jade safely across the Sea of Glass to the western ocean, but their task there is not yet complete. They keep watch over the Mountains, waiting in peace and deepening passion. As he grows closer to Evret, Fiyeli must unearth his own painful secrets - and he's about to find out just how far

Evret will go to keep the only lover he's ever had. And all the while they know this peace cannot last; once they've discharged their responsibility to the Mountains of Jade, another duty is waiting in the wings: sounding the call for justice. They don't know how many other people have been enslaved by the salvagers Evret's brother corrupted, but to have any chance of freeing them, they'll need to rally the peoples of Sleipnir to defend their way of life. (Approximate length: 63,000 words)

Black Ice Susan Krinard, 2014-08-12 New York Times bestselling author Susan Krinard continues the thrilling urban fantasy series that began with *Mist in Black Ice*. Centuries ago, all was lost in the Last Battle when the Norse gods and goddesses went to war. The elves, the giants, and the gods and goddesses themselves were all destroyed, leaving the Valkyrie known as Mist one of the only survivors. Or so she thought. The trickster god Loki has reappeared in San Francisco, and he has big plans for modern-day Earth. With few allies and fewer resources—but the eyes of the gods and goddesses of an old world upon her—it's up to Mist to stop him before history repeats itself. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A young wilder woman, Kayla, lives on the cusp of the wilderness in the cliff city of Exodus. River Kings Cat Jarman, 2022-02-01 Follow an epic story of the Viking Age that traces the historical trail of an ancient piece of jewelry found in a Viking grave in England to its origins thousands of miles east in India. An acclaimed bioarchaeologist, Catrine Jarman has used cutting-edge forensic techniques to spark

her investigation into the history of the Vikings who came to rest in British soil. By examining teeth that are now over one thousand years old, she can determine childhood diet—and thereby where a person was likely born. With radiocarbon dating, she can ascertain a death-date down to the range of a few years. And her research offers enlightening new visions of the roles of women and children in Viking culture. Three years ago, a Carnelian bead came into her temporary possession. *River Kings* sees her trace the path of this ancient piece of jewelry back to eighth-century Baghdad and India, discovering along the way that the Vikings' route was far more varied than we might think—that with them came people from the Middle East, not just Scandinavia, and that the reason for this unexpected integration between the Eastern and Western worlds may well have been a slave trade running through the Silk Road, all the way to Britain. Told as a riveting history of the Vikings and the methods we use to understand them, this is a major reassessment of the fierce, often-mythologized voyagers of the North—and of the global medieval world as we know it.

Who's Afraid of Beowulf Tom Holt, 2012-09-04 Digging up the remains of an ancient band of Vikings, archaeologist Hildy is astounded when they rise from the dead, bearing an appetite for seagulls, a twelve-thousand-year-old grudge, and a thirst for war.
