- The Villa of the Papyri at Herculaneum Mantha Zarmakoupi,2011-01-01 The Villa of the Papyri is a unique archaeological site and has been very influential in the field of classical studies. The Papyri (the only intact library to survive from Graeco-Roman antiquity) and bronze sculptures found in the villa have contributed to our knowledge of the ancient world and the villa has become for us the "ideal model" of Roman luxury villa culture. This volume presents contributions on the villa's architecture, decoration, and content (i.e., wall-paintings, sculptures, and papyri); their reception since the 18th century; the current state of knowledge based on the recent partial excavations in the villa; the use of digital models of the villa, and a discussion on the ways in which such models may be used for educational and research purposes. - The Life of Comedy After the Death of Plautus and Terence Mathias Hanses,2020-12-10 The Life of Comedy After the Death of Plautus and Terence documents the ongoing popularity of Roman comedies, and shows that they continued to be performed in the late Republic and early Imperial periods of Rome. Playwrights Plautus and Terence impressed audiences with stock characters as the young-man-in-love, the trickster slave, the greedy pimp, the prostitute, and many others. A wide range of spectators visited Roman theaters, including even the most privileged members of Roman society: orators like Cicero, satirists like Horace and Juvenal, and love poets like Catullus and Ovid. They all put comedy's varied characters to new and creative uses in their own works, as they tried to make sense of their own lives and those of the people around them by suggesting comparisons to the standard personality types of Roman comedy. Scholars have commonly believed that the plays fell out of favor with theatrical audiences by the end of the first century BCE, but The Life of Comedy demonstrates that performances of these comedies continued at least until the turn of the second century CE. Mathias Hanses traces the plays' reception in Latin literature from the late first century BCE to the early second century CE, and shines a bright light on the relationships between comic texts and the works of contemporary and later Latin writers.

- Hieronymus Bosch Charles D Cuttler,2012-12-31 Professor Charles D. Cuttler changed from artist to art historian at New York University's Institute of Fine Arts, studying under distinguished teachers such as Walter Friedlaender and Erwin Panofsky. A specialist in Flemish painting, he spent the major part of his career teaching at the University of Iowa. He published numerous articles, reviews, and a well known text, Northern Painting. He lectured on Bosch on three continents, and his retirement enabled him to devote time to further research. A result is Hieronymus Bosch: Late Work. This new book presents Cuttler's discoveries on three late triptychs, a major trio of Bosch's maturity: the Haywain, the Lisbon Temptation of St. Anthony, and the Garden of Earthly Delights. He presents Bosch's unique view of Christ and salvation in union with hagiography, the Devotio moderna, and medieval hermeneutics, a revelation of Bosch's immense erudition and overwhelming artistry. Bosch reinforced his concepts with supporting casts of animals, natural and demonic, birds, and other iconographic elements. Analysis of the Berlin painting of St. John the Evangelist's apocalyptic vision of the Virgin Mary, the Madrid Seven Deadly Sins tondo, and the Vienna drawing of the Tree-Man expands our understanding of these themes. Other influences affecting Bosch's art, such as whether he travelled or whether he used contemporary prints, whether he drew upon Dante's Inferno, or religious tracts, and the attitudes of his ambience are also examined. The final chapter presents the author's understanding of Bosch, his religiosity and his genius, in his time and place.
