**Heartbeat and Beyond** John Fairley,Graham Ironside,2017-11-30 In 1968 a group of young people took over a derelict trouser factory in a rundown part of Leeds and set about producing programmes that were to define the British television world of the late 20th Century.These included the investigative documentary series First Tuesday, Darling Buds of May, Whickers World, Dont Ask Me and Heartbeat.At the same time they attracted, indeed often created, stars of international fame such as James Mason, Catherine Zeta Jones, Alan

Whicker, David Jason, Magnus Pike and David Frost. Fifty years on, their achievements and experiences, often dramatic and frequently absurd, make for fascinating behind-the-scenes reading. This book paints a colourful and entertaining picture of the making from virtually nothing of one of the greatest television channels of all times.

The Heartbeats of Wing Jones Katherine Webber, 2017-03-14 Jandy Nelson meets Friday Night Lights in this sweeping, warm, arrestingly original novel about family, poverty, and hope. Wing Jones, like everyone else in her town, has worshipped her older brother, Marcus, for as long as she can remember. Good-looking, popular, and the star of the football team, Marcus is everything his sister is not. Until the night everything changes when Marcus, drunk at the wheel after a party, kills two people and barely survives himself. With Marcus now in a coma, Wing is crushed, confused, and angry. She is tormented at school for Marcus's mistake, haunted at home by her mother and grandmothers' grief. In addition to all this, Wing is scared that the bank is going to repossess her home because her family can't afford Marcus's mounting medical bills. Every night, unable to sleep, Wing finds herself sneaking out to go to the school's empty track. When Aaron, Marcus's best friend, sees her running one night, he recognizes that her speed, skill, and agility could get her spot on the track team. And better still, an opportunity at a coveted

sponsorship from a major athletic gear company. Wing can't pass up the opportunity to train with her longtime crush and to help her struggling family, but can she handle being thrust out of Marcus's shadow and into the spotlight? The swiftly paced story will quickly sweep up readers...[a] well-crafted, inspirational debut with plenty of heart, hope, and determination. –Booklist A story showing how hope and love can blossom in the midst of chaos. –Publishers Weekly

*The FORA Framework* Edy Portmann,2012-12-30 Online reputation management deals with monitoring and influencing the online record of a person, an organization or a product. The Social Web offers increasingly simple ways to publish and disseminate personal or opinionated information, which can rapidly have a disastrous influence on the online reputation of some of the entities. The author focuses on the Social Web and possibilities of its integration with the Semantic Web as resource for a semi-automated tracking of online reputations using imprecise natural language terms. The inherent structure of natural language supports humans not only in communication but also in the perception of the world. Thereby fuzziness is a promising tool for transforming those human perceptions into computer artifacts. Through fuzzy grassroots ontologies, the Social Semantic Web becomes more naturally and thus can streamline online reputation management. For readers interested in the cross-over field of computer science, information systems, and social sciences, this book is an ideal source for becoming acquainted with the evolving field of fuzzy online reputation management in the Social Semantic Web area. □
