Statistical Methods for Organizational Research Chris Dewberry,2004 'Statistical Methods for Organizational Research' provides a theoretical and practical introduction to the subject for students, researchers and practitioners involved in quantitative research.

Freakboy Kristin Elizabeth Clark,2016 From the outside, Brendan Chase seems to have it pretty easy. He's a star wrestler, a video game aficionado, and a loving boyfriend to his seemingly perfect match, Vanessa. But on the inside, Brendan struggles to understand why his body feels so wrong why he sometimes fantasizes having long hair, soft skin, and gentle curves. Is there even a name for guys like him? Guys who sometimes want to be girls? Or is Brendan just a freak?

Readings and Cases in International Human Resource Management and Organizational Behavior B. Sebastian Reiche,Günter K. Stahl,Mark E. Mendenhall,Gary R. Oddou,2012-04-23 Readings and Cases in International Human Resource Management and Organizational Behavior, 5th Edition examines cross-cultural interactions between people, cultures and human resource systems in a wide variety of regions throughout the world. This is truly a Global collection. Features include: * new readings and case studies positioned alongside trusted 'tried and true' readings and cases from past editions * a companion website featuring supplemental material and teaching notes to enhance instructors' abilities to use the readings and cases with their students. Written to enable students to meet the international challenges that they face every day and to sensitize them to the complexity of human resource issues in the era of globalization, this text is a vital resource for all those studying international human resource management.

The Third Door Alex Banayan,2018-06-05 FORBES #1 CAREER BOOK TO READ IN 2018 The larger-than-life journey of an 18-year-old college freshman who set out from his dorm room to track down Bill Gates, Lady Gaga, and dozens more of the world's most successful people to uncover how they broke through and launched their careers. The Third Door takes readers on an unprecedented adventure—from hacking Warren Buffett's shareholders meeting to chasing Larry King through a grocery store to celebrating in a nightclub with Lady Gaga—as Alex Banayan travels from icon to icon, decoding their success. After remarkable one-on-one interviews with Bill Gates, Maya Angelou, Steve Wozniak, Jane Goodall, Larry King, Jessica Alba, Pitbull, Tim Ferriss, Quincy Jones, and many more, Alex discovered the one key they have in common: they all took the Third Door. Life, business, success... it's just like a nightclub. There are always three ways in. There's the First Door: the main entrance, where ninety-nine percent of people wait in line, hoping to get in. The Second Door: the VIP entrance, where the billionaires and celebrities slip through. But what no one tells you is that there is always, always... the Third Door. It's the entrance where you have to jump out of line, run down the alley, bang on the door a hundred times, climb over the dumpster, crack open the window, sneak through the kitchen—there's always a way in. Whether it's how Bill Gates sold his first piece of software or how Steven Spielberg became the youngest studio director in Hollywood history, they all took the Third Door.

Tourism, Religion and Spiritual Journeys Dallen Timothy,Daniel Olsen,2006-09-27 Religion and spirituality are still among the most common motivations for travel - many major tourism destinations have developed largely as a result of their connections to sacred people, places and events. Providing a comprehensive assessment of the primary issues and concepts related to this intersection of tourism and religion, this revealing book gives a balanced discussion of both the theoretical and applied subjects that destination planners, religious organizations, scholars, and tourism service providers must deal with on a daily basis. Bringing together a distinguished list of contributors, this volume takes a global approach and incorporates substantial empirical cases from Hinduism, Islam, Judaism, Roman Catholicism, Mormonism, New Ageism, Sikhism, Buddhism, and the spiritual philosophies of East Asia. On a conceptual level, it considers, amongst other topics: contested heritage the pilgrim-tourist dichotomy secularization of pilgrimage experiences religious humanism educational aspects of religious tourism commodification of religious icons and services. A vibrant collection of essays, this outstanding book discusses many important practices, paradigms, and problems that are currently being examined and debated. It raises an array of significant and interesting questions and as such is a valuable resource for students, scholars and researchers of tourism, religion and cultural studies.

China's Outbound Tourism Wolfgang Arlt,2006-09-27 The People's Republic of China has changed from a country which actively discouraged tourism into one of the major source markets for the international industry; the 35 million Chinese travelling across the border in 2005 are merely the tip of the iceberg. China's Outbound Tourism is the first book on this major development and has been written using a multitude of sources from China and around the world. The topic is approached from many angles, using methods from the fields of economics, political sciences, sociology and cross-cultural studies. The book explains the economic and social background of the surge in tourism and the changes in policy in the country since 1949, when it moved from prevention through controlled development to encouragement of outbound travels. Throughout the book, facts and figures are given for the global development as well as in-depth information about China's key destinations. The growing importance of tourists from China is however not just a question of quantity; the text explains the features which distinguish their travel motivations and behaviours from 'western' and Japanese tourists, and the consequences for product adaptation and marketing methods for destinations interested in attracting and satisfying Chinese tourists. Arlt's groundbreaking book cannot be ignored by professionals, academics and students of tourism and leisure; it offers fresh insight into the topic and indicates some of the future lines of development in this area.

The Ludic City Quentin Stevens,2007-04-11 This international and illustrated work challenges current writings focussing on the problems of urban public space to present a more nuanced and dialectical conception of urban life. Detailed and extensive international urban case studies show how urban open spaces are used for play, which is defined and discussed using Caillois' four-part definition - competition, chance, simulation and vertigo. Stevens explores and analyzes these case studies according to locations where play has been observed: paths, intersections, thresholds, boundaries and props. Applicable to a wide-range of countries and city forms, The Ludic City is a fascinating and stimulating read for all who are involved or interested in the design of urban spaces.

With Those who Wait Frances Wilson Huard,1918

Dealing with an International Clientele: Communications, Diplomacy and Etiquette Meri Meredith,2005-01-01 This book is aimed at all librarians and information professionals working in culturally diverse environments, whether in an academic, public or commercial setting. It addresses the issues of communication, diplomatic etiquette and common courtesies from a wide range of cultures and of how to provide library services across cultural boundaries and languages. Each chapter clearly defines a different aspect and provides clear guidance and strategies for librarians to follow in their everyday work. The book is packed with advice on how to deal with many of the situations, which arise as the result of different cultural backgrounds and language.

Global Television Formats Sharon Shahaf,Tasha Oren,2013-06-17 Global Television Formats aims to revise the place of the global in television studies. The essays gathered here explore the diversity of global programming and approaches, and ask how to theorize contemporary global formats and thus re-shape our understanding of television as at once a shared global and specific local text, an economic system, a socio-political institution, and a popular practice. The contributors explore a wide array of television programming from the Middle East, Western and Eastern Europe, South Asia, North America, Latin America, and Brazil, and represent a br.

Warfare and Society in Imperial Rome, C. 31 BC-AD 280 Brian Campbell,2002-03-14 This well-documented study of the Roman army provides a crucial aid to understanding the Roman Empire in economic, social and political terms. Employing numerous examples, Brian Campbell explores the development of the Roman army and the expansion of the Roman Empire from 31 BC-280 AD. When Augustus established a permanent, professional army, this implied a role for the Emperor as a military leader. Warfare and

Society in Imperial Rome examines this personal association between army and emperor, and argues that the Emperor's position as commander remained much the same for the next 200 years.

Digital Signal Processing: DSP and Applications Dag Stranneby, 2001-07-13 This book is a uniquely practical DSP text which places the emphasis on understanding the principles and applications of DSP with a minimum of mathematics. In one volume, it covers a broad area of digital signal processing systems such as A/D and D/A converters, adaptive filters, spectral estimation, neural networks, Kalman filters, fuzzy logic, data compression, error correction and DSP programming. Many courses will find that this book will replace several texts currently in use. The level is ideal for introductory university modules, and similar courses such as HNC/D. As DSP has come to be studied at a lower academic level over recent years this text meets a genuine need. It is also suitable for use on industrial training courses and ideal as a reference text for professionals. A readable introduction to the practical application of DSP. Broad coverage of the subject means this will cover a typical undergraduate module in just one book. Practical focus with maths treated as a practical tool - not an advanced maths text.

Work Culture Transformation Evie Lotze, 2004-01-01 Change is an every day part of working life and yet, it is something which causes libraries and information departments as well as their larger organizations or communities which they serve, huge problems. If change itself is difficult, the coming transformation in the culture of knowledge work poses even greater problems. Everything in a work culture transformation, from changing the attitude of staff to the fundamental way in which we use information and knowledge, provides a challenge for the information professional. In the 21st century it is essential that information professionals adapt.

An Introduction to the Geography of Health Helen Hazen, Peter Anthamatten, 2012-05-23 Health issues such as the emergence of infectious diseases, the potential influence of global warming on human health, and the escalating strain of increasing longevity and chronic conditions on healthcare systems are of growing importance in an increasingly peopled and interconnected world. A geographic approach to the study of health offers a critical perspective to these issues, considering how changing relationships between people and their environments influence human health. *An Introduction to the Geography of Health* provides an accessible introduction to this rapidly growing field, covering theoretical and methodological background. The text is divided into three sections which consider distinct approaches and techniques related to health geographies. Section one introduces ecological approaches, with a focus on how natural and built environments affect human health. For instance, how have irrigation projects influenced the spread of water-borne diseases? How can modern healthcare settings, such as hospitals, affect the spread and evolution of pathogens? Section two discusses social aspects of health and healthcare, considering health as not merely a biological interaction between a pathogen and human host, but as a process that is situated among social factors which ultimately drive who suffers from what, and where disease occurs. Section three then considers spatial techniques and approaches to exploring health, giving special focus to the growing role of cartography and geographic information systems (GIS) in the study of health. This clearly written text contains a range of pedagogical features including a wealth of global case studies, discussion questions and suggestions for further reading at the end of each chapter, a colour plate section and over eighty diagrams and figures. The accompanying website also provides presentations, exercises, further resources, and tables and figures. This book is an essential introductory text for undergraduate students studying Geography, Health and Social Studies.

1992 Census of Agriculture: North Carolina, 1993

Studying Christian Spirituality David B. Perrin, 2007-08-07 This book provides a new introduction to the study of Christian spirituality, exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology, history, sociology and anthropology. Systematic and progressive, it introduces the key approaches and shows how they relate to the understanding, study and practice of spirituality. Covering a vast amount of ground - from traditional themes such as images of God, spiritual direction and pilgrimage to more contemporary issues, such as place and space, cyberspace and postcolonialism - the author takes an ecumenical, inclusive stance, allowing the book to be used in a wide variety of courses and across denominations.

If I Ever Get Out of Here Eric Gansworth, 2013-07-30 A heart-healing, mocs-on-the-ground story of music, family and friendship. -- Cynthia Leitich Smith, author of *Tantalize* and *Rain is Not My Indian Name*. Lewis Shoe Blake is used to the joys and difficulties of life on the Tuscarora Indian reservation in 1975: the joking, the Fireball games, the snow blowing through his roof. What he's not used to is white kids being nice to him -- kids like George Haddonfield, whose family recently moved to town with the Air Force. As the boys connect through their mutual passion for music, especially the Beatles, Lewis has to lie more and more to hide the reality of his family's poverty from George. He also has to deal with the vicious Evan Reininger, who makes Lewis the special target of his wrath. But when everyone else is on Evan's side, how can he be defeated? And if George finds out the truth about Lewis's home -- will he still be his friend? Acclaimed adult author Eric Gansworth makes his YA debut with this wry and powerful novel about friendship, memory, and the joy of rock 'n' roll.

Fifty Major Cities of the Bible John Laughlin, 2007-05-07 From the ruins of the ancient seaside city of Acco, to the small but archaeologically important town of Yokneam, *Fifty Major Cities of the Bible* provides readers with a comprehensive guide to the ancient cities that played a vital role in the world from which the Bible originated. Not only covering renowned cities such as Jerusalem and Jericho, the book also includes lesser known towns like Aroer, Beth-Zur and Gibeah, which have all provided their own valuable contributions to the way in which we now understand the biblical world. A fascinating, easy-to-follow text, key features include: * the biblical context of each city or town * a summary of its known archeological history * non-biblical references to the site * photographs and illustrations * a concise bibliography for further reading. Also provided is a handy reference map to the major archaeological sites in Israel, as well as chronological tables for easy reference. Concise, informative and high accessible, *Fifty Major Cities of the Bible* is a superb overview of the cities and towns that made up the Biblical world, and an essential resource for students and enthusiasts.

Space Shuttle Missions Summary (NASA/TM-2011-216142) Robert D. Legler, Floyd V. Bennett, 2011-09-01 Full color publication. This document has been produced and updated over a 21-year period. It is intended to be a handy reference document, basically one page per flight, and care has been exercised to make it as error-free as possible. This document is basically as flown data and has been compiled from many sources including flight logs, flight rules, flight anomaly logs, mod flight descent summary, post flight analysis of mps propellants, FDRD, FRD, SODB, and the MER shuttle flight data and inflight anomaly list. Orbit distance traveled is taken from the PAO mission statistics.

Community Policing Michael J. Palmiotto, 2011-02 This textbook discusses the role of community-oriented policing, including the police image, public expectations, ethics in law enforcement, community wellness, civilian review boards, and what the community can do to help decrease crime rates. In addition, the author covers basic interpersonal skills and how these might vary according to the race, sex, age, and socioeconomic group with which the officer is interacting. Finally, students learn how to initiate new programs in a community, from the planning process and community involvement to dealing with management and evaluating program success.
