**Evil Geniuses** Kurt Andersen, 2020-08-11 NEW YORK TIMES BESTSELLER • When did America give up on fairness? The author of *Fantasyland* tells the epic history of how America decided that big business gets whatever it wants, only the rich get richer, and nothing should ever change—and charts a way back to the future. “Essential, absorbing . . . a graceful, authoritative guide . . . a radicalized moderate’s moderate case for radical change.”—The New York Times Book Review During the twentieth century, America managed to make its economic and social systems both more and more fair and more and more prosperous. A huge, secure, and contented middle class emerged. All boats rose together. But then the New Deal gave way to the Raw Deal. Beginning in the early 1970s, by means of a long war conceived of and executed by a confederacy of big business CEOs, the superrich, and right-wing zealots, the rules and norms that made the American middle class possible were undermined and dismantled. The clock was turned back on a century of economic progress, making greed good, workers powerless, and the market all-powerful while weaponizing nostalgia, lifting up an oligarchy that served only its own interests, and leaving the huge majority of Americans with dwindling economic prospects and hope. Why and how did America take such a wrong turn? In this deeply researched and brilliantly woven cultural, economic, and political chronicle, Kurt Andersen offers a fresh, provocative, and eye-opening history of America’s undoing, naming names, showing receipts, and unsparingly assigning blame—to the radical right in economics and the law, the high priests of high finance, a complacent and complicit Establishment, and liberal “useful idiots,” among whom he includes himself. Only a writer with Andersen’s crackling energy, deep insight, and ability to connect disparate dots and see complex systems with clarity could make such a book both intellectually formidable and vastly entertaining. And only a writer of Andersen’s vision could reckon with our current high-stakes inflection point, and show the way out of this man-made disaster.

*Automated Technology for Verification and Analysis* Doron A. Peled, Yih-Kuen Tsay, 2005-09-19 The Automated Technology for Verification and Analysis (ATVA) international symposium series was initiated in 2003, responding to a growing interest in formal verification spurred by the booming IT industry, particularly hardware design and manufacturing in East Asia. Its purpose is to promote research on automated verification and analysis in the region by providing a forum for interaction between the regional and the international research/industrial communities of the field. ATVA 2005, the third of the ATVA series, was held in Taipei, Taiwan, October 4–7, 2005. The main theme of the symposium encompasses design, complexities, tools, and applications of automated methods for verification and analysis. The symposium was co-located and had a two-day overlap with FORTE 2005, which was held October 2–5, 2005. We received a total of 95 submissions from 17 countries. Each submission was assigned to three Program Committee members, who were helped by their subreviewers, for rigorous and fair evaluation. The final deliberation by the Program Committee was conducted over email for a duration of about 10 days after nearly all review reports had been collected. In the end, 33 papers were selected for inclusion in the program. ATVA 2005 had three keynote speeches given respectively by Amir Pnueli (joint with FORTE 2005), Zohar Manna, and Wolfgang Thomas. The main symposium was preceded by a tutorial day, consisting of three two-hour lectures given also by the keynote speakers.

**Industry 4.0 for SMEs** Dominik T. Matt, Vladimír Modrák, Helmut Zsifkovits, 2020-01-03 This open access book explores the concept of Industry 4.0, which presents a considerable challenge for the production and service sectors. While digitization initiatives are usually integrated into the central corporate strategy of larger companies, smaller firms often have problems putting Industry 4.0 paradigms into practice. Small and medium-sized enterprises (SMEs) possess neither the human nor financial resources to systematically investigate the potential and risks of introducing Industry 4.0. Addressing this obstacle, the international team of authors focuses on the development of smart manufacturing concepts, logistics solutions and managerial models specifically for SMEs. Aiming to provide methodological frameworks and pilot solutions for SMEs during their digital transformation, this innovative and timely book will be of great use to scholars researching technology management, digitization and small business, as well as practitioners within manufacturing companies.

*Salty, Bitter, Sweet* Mayra Cuevas, 2020-03-03 A slow-burn romance in a cutthroat kitchen! There's more to becoming a top chef for 17-year-old Isabella Fields than just not getting chopped ... especially when the chances of things heating up with an intriguing boy and becoming a food star in the kitchen are both on the line. Isa's family life has fallen apart after the death of her Cuban abuela and the divorce of her parents. And after moving in with her dad and her new stepmom, Margo, in Lyon, France, Isa feels like an outsider in her father's new life. She balances her time between avoiding the awkward "why-did-you-cheat-on-Mom" conversation and her diligent aspiration to become a premiere chef. Despite Isa's world being turned upside-down, her father's house is located only 30 minutes away from the restaurant of world-famous Chef Pascal Grattard, who runs a prestigiously competitive international kitchen apprenticeship. The prize job at Chef Grattard's renowned restaurant also represents a transformative opportunity for Isa who is desperate to get her life back in order—and desperate to prove she has what it takes to work in an haute kitchen. But Isa's stress and repressed grief begin to unravel further when the enigmatic Diego shows up at the house unannounced. How can Isa expect to hold it together when she's at the bottom of her class at the apprenticeship, her new stepmom is pregnant, she misses her abuela dearly, and things with Diego reach a boiling point? Mixing up only the best ingredients, *Salty, Bitter, Sweet*: Is a clean and wholesome rival-to-lovers trope set in a cutthroat kitchen environment Is a perfect book for foodies ages 13 and up, and features a Latina main character who is trilingual Explores complicated family dynamics and relatable themes of friendship, acceptance, grief, and learning to care for yourself Perfect for TV fans of Top Chef, Chopped, and The Great British Bake-off, as well as YA titles such as *With the Fire on High* or *A Cuban Girl's Guide to Tea and Tomorrow* Has authentic representation of Mayra Cuevas' background

**The Future of Newspapers** Bob Franklin, 2013-09-13 The future of newspapers is hotly contested. Pessimistic pundits predict their imminent demise while others envisage a new era of participatory journalism online, with yet others advocating increased investment in quality journalism rather than free gifts and DVDs, as the necessary cure for the current parlous state of newspapers. Globally, newspapers confront highly variable prospects reflecting their location in different market sectors, countries and journalism cultures. But despite this diversity, they face similar challenges in responding to the increased competition from expansive radio and 24 hour television news channels; the emergence of free Metro papers; the delivery of news services on billboards, pod casts and mobile telephony; the development of online editions, as well as the burgeoning of blogs, citizen journalists and User Generated Content. Newspapers' revenue streams are also under attack as advertising increasingly migrates online. This authoritative collection of research based essays by distinguished scholars and journalists from around the globe, brings together a judicious mix of academic expertise and professional journalistic experience to analyse and report on the future of newspapers. This book was published as special issues of Journalism Practice and Journalism Studies.

*Guidelines on Food Fortification with Micronutrients* Richard Hurrell, World Health Organization, 2006 This publication contains practical guidance on the design, implementation and evaluation of appropriate food fortification programmes. They are designed primarily for use by nutrition-related public health programme managers, but should also be useful to all those working to control micronutrient malnutrition, including the food industry. The guidelines are written from a nutrition and public health perspective, and topics discussed include: the concept of food fortification as a potential strategy for the control of micronutrient malnutrition; the prevalence, causes, and consequences of micronutrient deficiencies, and the public health benefits of micronutrient malnutrition control; technical information on the various chemical forms of micronutrients that can be used to fortify foods; regulation and international harmonisation, communication, advocacy, consumer marketing and public education.

*The Alarmist* Dave Lowe, 2022-07-01 alarmist (pre 2020): Someone who exaggerates a danger and so causes needless worry or panic. alarmist (post 2020): Someone who justifiably raises the alarm about a global danger to Earth's biosphere. His research was urgent fifty years ago. Now, it's critical. In the early 1970s, budding Kiwi scientist Dave Lowe was posted at an atmospheric monitoring station on the wind-blasted southern coast of New Zealand's North Island. On a shoestring salary he measured carbon in the atmosphere, collecting vital data towards what became one of the most important discoveries in modern science. What followed was a lifetime's career marked by hope and despair. As realisation dawned of what his measurements meant for the future of the planet, Dave travelled the world to understand more about atmospheric gases, along the way programming some of the earliest computers, designing cutting-edge equipment and conducting experiments both dangerous and mind-numbingly dull. From the sandy beaches of California to the stark winters of West Germany, the mesas of the Rocky Mountains and an Atlantic voyage across the equator, Dave has faced down climate deniers, foot-dragging bureaucracy and widespread comp

**The Luminous Dead** Caitlin Starling, 2019-04-02 Bram Stoker Award nominee for Best First Novel! This claustrophobic, horror-leaning tour de force is highly recommended for fans of Jeff VanderMeer's *Annihilation* and Andy Weir's *The Martian*. -- Publishers Weekly (starred review) A thrilling, atmospheric debut with the intensive drive of *The Martian* and *Gravity* and the creeping dread of *Annihilation*, in which a caver on a foreign planet finds herself on a terrifying psychological and emotional journey for survival. When Gyre Price lied her way into this expedition, she thought she'd be mapping mineral deposits, and that her biggest problems would be cave collapses and gear malfunctions. She also thought that the fat paycheck—enough to get her off-planet and on the trail of her mother—meant she'd get a skilled surface team, monitoring her suit and environment, keeping her safe. Keeping her sane. Instead, she got Em. Em sees nothing wrong with controlling Gyre's body with drugs or withholding critical information to “ensure the smooth operation” of her expedition. Em knows all about Gyre's falsified credentials, and has no qualms using them as a leash—and a lash. And Em has secrets, too . . . As Gyre descends, little inconsistencies—missing supplies, unexpected changes in the route, and, worst of all, shifts in Em's motivations—drive her out of her depths. Lost and disoriented, Gyre finds her sense of control giving way to paranoia and anger. On her own in this mysterious, deadly place, surrounded by darkness and the unknown, Gyre must overcome more than just the dangerous terrain and the Tunneler which calls underground its home if she wants to make it out alive—she must confront the ghosts in her own head. But how come she can't shake the feeling she's being followed?

**The Girl I Was Before** Ginger Scott, 2015-06-23 I'm the selfish one. I suppose that's the nicest thing people say about me. I've heard the other things, too. “Paige Owens is a pretty girl with nothing else to offer. She's just a good time at a party. She's stupid, heartless, cold and useless. All she cares about is getting a guy to look at her. Why would anyone want to be her friend?” Some of those things are true. Others were true. They're all

hurtful. None of it matters. I’m ready to make the hard choices. I’m ready to face the consequences. I’m ready to be the girl I was before, and I’m done being the one who lost her way. I’m ready to become the girl Houston Orr sees when he looks at me. Houston isn’t a star athlete. He doesn’t play in a band. He’s never going to be president, and his life is so far away from simple and easy it isn’t even funny. He wasn’t part of my plan. But I’m starting to think plans are overrated, and maybe our stories are what we make them. And mine depends entirely on me, and the choices I make...starting now. Houston is my fairytale. He’s perfectly imperfect. He’s poetry and life. He’s truth and heartbreak, all rolled up in a tall body with dark hair, broad shoulders and green eyes that lull me into submission. He’s nothing I ever thought I wanted, but the very thing I need. He’s the only guy I’ve ever really loved, and he thinks I’m a princess. I fell into him, and now I’m holding on. But sometimes life takes away our ability to choose. Sometimes...things aren’t in your control. Sometimes, it hurts to be selfless. My only hope is that when it comes time to choose, I get it right. Welcome to my once upon a time and wish for happily ever after.

**Button Man** Andrew Gross,2018-09-18 “Mr. Gross's direct style is full of sentiment but never maudlin and well-suited to scenes of violent action. Button Man has plenty of zip—and lots of moxie, too. –Wall Street Journal This is a big, heartfelt handshake of a book, with all the street-scrambling energy that distinguishes the best fiction of Jeffrey Archer and Mario Puzo. –USA Today Following up *The One Man* and *The Saboteur*, Gross's next historical thriller brings to life the drama of the birth of organized crime in 1930s New York City from the tale of one family. After a string of New York Times bestselling suburban thrillers, Andrew Gross has reinvented himself as a writer of historical thrillers. In his latest novel, *Button Man*, he delivers a stirring story of a Jewish family brought together in the dawn of the women's garment business and torn apart by the birth of organized crime in New York City in the 1930s. Morris, Sol, and Harry Rabishevsky grew up poor and rough in a tiny flat on the Lower East Side, until the death of their father thrust them into having to fend for themselves and support their large family. Morris, the youngest, dropped out of school at twelve years old and apprenticed himself to a garment cutter in a clothing factory; Sol headed to accounting school; but Harry, scarred by a family tragedy, fell in with a gang of thugs as a teenager. Morris steadily climbs through the ranks at the factory until at twenty-one he finally goes out on his own, convincing Sol to come work with him. But Harry can't be lured away from the glamour, the power, and the money that come from his association with Louis Buchalter, whom Morris has battled with since his youth and who has risen to become the most ruthless mobster in New York. And when Buchalter sets his sights on the unions that staff the garment makers' factories, a fatal showdown is inevitable, pitting brother against brother. This new novel is equal parts historical thriller, rich with the detail of a vibrant New York City in the 1920s and 1930s, and family saga, based on Andrew Gross's own family story and on the history of the era, complete with appearances by real-life characters like mobsters Louis Lepke and Dutch Schultz and special prosecutor Thomas Dewey, and cements Gross's reputation as today's most atmospheric and original historical thriller writer.
