**Defragmenting the Soul** John Sawkins, 2011-06-01 Description Coming Soon About the Author Recovery tends to imply some notion of going back to your old self. After all, that is what your friends and relations would most like - perhaps clinicians, too. For the author, however, this was not to be an option. He decided to dump the garbage and start afresh with a new persona, after experiencing a hypo-manic episode just at the turn of the millennium. Like many who experience the life-changing effects of having had a nervous breakdown, he found himself impelled to cultivate a totally different existence to that of the person he used to be. Fortunately for him, his employers were sufficiently sympathetic to allow him to indulge his more creative side and he effectively abandoned the modern language teaching he had done for thirty years, lecturing instead in more creative pursuits such as music and photography. That is not to say that he had never had such interests, however. It was just that he never found the time to indulge them. After the break-down (which, incidentally, he regards as being the start of a therapeutic healing process), he could sense the need to adopt more right-brain oriented thinking, and a number of long-cherished aspirations came to fruition as a result. He felt the need to remove the clutter from his thinking, jettison the unwanted baggage and embrace a fascinating - if somewhat more challenging - future. First of all, he recorded a CD of songs he had written back in 1968. Then he joined the Caithness Big Band and tried to teach himself bass guitar - in that order! he subsequently joined the North Coast Jazz Band and has been with them for around eight years now. More recently, he succeeded in getting his poems Rare Frequencies published through Chipmunka. Recovery has been achieved by following his own best instincts and reading widely about mental illness, the history of its treatment and opinions of a wide variety of professionals who have challenged the received wisdom of their colleagues particularly concerning the long-term use of medication to modify behaviour patterns. Taking up advocacy work through Advocacy Highland proved to be a kind of therapy for the author. He needed to get out of the self-pitying self obsession that isolation can bring. It is important, he feels, to avoid scenarios where negative thoughts and downward spiral syndromes are reinforced. So what was it, you may rightly ask, that he recovered from? To be honest, he is not exactly sure, but since he exhibited some cyclothymic behaviour, that might have suggested bipolar just as the psychiatrist initially thought; but there were also other aspects of his behaviour patterns that did not quite fit the bill. During the four weeks he spent in a psychiatric hospital, he had no choice but to take the medication (haloperidol, procycladine and zopiclone); but once he was out of there - and he is not necessarily implying that this was the most advisable course of action, though, at the time, it seemed quite reasonable - he decided to go cold turkey. Most folk who try this end up regretting it, for various reasons: some realise that they cannot function without their medication, and, however reluctantly, are forced to acknowledge the error of their ways. Others find the detoxification process altogether too horrendous. Still, he decided to ride out the storm, and this took about four weeks. He has not taken any form of medication now for ten years since that date. His employer did not wish him to return to work as quickly as he himself had hoped, so, in the interim, he needed to find something useful to do. He discovered The Stepping Stones, a local drop-in facility for people with

mental health issues, and soon found out that part of his therapy was to be found in acting as a volunteer. The advantage for the centre was that, having experienced a similar state of mind to the users of the centre (schizophrenia, bipolar, borderline personality disorder, etc), the author wa

*The Starving Artist's Survival Guide* Marianne Taylor, Laurie Lindop, 2005-12-01 A Blackened Chicken Soup for the Artistic Soul Passion, humiliation, and depravity are the cornerstones of the artistic spirit. How else to rationalize one's deliberate choice to face a life of unsigned rejection letters, calls from worried parents and collection agencies, and cups and cups of ramen noodles? Being a noble artiste is a rough gig. It's one part denial, one part masochism. And it gets all the respect of being a fry cook, without the convenient minimum wage. Only a fool would agree to such soul crushing -- until now. *The Starving Artist's Survival Guide* boldly reassures both the dreamer and the doer that you are not alone. Regardless of whether you are a painter, a poet, a musician, a writer, an actor, or simply paralyzed by an English lit or fine arts degree, help has arrived. Topics include the pros and cons of various artistic day jobs (People love clowns, except for the 80 percent who want to beat them up and the 20 percent who do), coping with form-letter rejections through the healing power of haikus (You, blinking red light, / A call back from my agent? / No, just goddamn Mom), a survey of artists' dwellings (from the romanticized loft to Mama's rent-free attic), and most important, *Holding On: Ten Good Reasons to Keep Your Head out of the Oven*. Both celebrating and satirizing the pretentious poor, *The Starving Artist's Survival Guide* recognizes that the best way to cope with self-inflicted poverty is with unbarred humor, not macramé and coupon clipping.

**Year Of The Rat** Jorah Kai,2023-02-01 THE YEAR OF THE METAL RAT, 2020, was a time of panic, uncertainty, and great division. CHINA, VIETNAM, CANADA, SAUDI ARABIA, ITALY, ARGENTINA, AMERICA, JAPAN, AUSTRALIA, PHILIPPINES, NETHERLANDS, GUATEMALA, UGANDA, THE U.K., SINGAPORE, RUSSIA... As the pandemic spread, some wore masks and socially distanced to protect the vulnerable, while others protested all public health measures as a form of tyranny and caused loud and obnoxious mass disruptions to critical infrastructure in a jarring display of 'personal freedom.' Fake news and echo chambers enabled 'alternative facts,' while unhinged narratives and cartoonish conspiracies ran rampant, often trumping coverage of legitimate and existential converging catastrophes. In YEAR OF THE RAT, the sequel to the international best-seller 'The Invisible War' (Kai's Diary), Jorah Kai documents the world's largest

'Zero Covid bubble' while the outside world handles the pandemic uniquely. Reaching out to friends across the globe, he weaves their stories together. Thirty-six writers from 33 cities in 16 countries share their daily struggles, hopes, and fears for the YEAR OF THE RAT as the SARSCOV2 virus spreads catastrophe to every corner of the globe. It's ... the metaphor of the yin and the yang. I'd say right now; we are in the yin. It's a kind of disaster. It's sad. And on the yang side... it looks like some sort of a mathematical balance that I cannot explain. - JCVD "I would have done the whole thing for a donut and a tuna fish sandwich. The money meant nothing. It was the opportunity to at least prove to myself that I wasn't a liar, that I wasn't living a life of disillusionment. When you think of yourself as being a very creative person, and turn around and realize you've been leading a lie." - Sylvester Stallone (Rocky). At the beginning of the pandemic, Jorah Kai led a plucky band of frontline workers and activists to fight the pandemic with science. Some called him a harbinger, others a 'pandemic guru' as they navigated an increasingly bizarre world of book deals, TV appearances, speaking engagements, and a recovery event with his childhood hero, martial arts movie star Jeanne Claude Van Damme. But nothing could prepare him for what came next... - The Narrator

**Recapture the Rapture** Jamie Wheal, 2021-04-27 "A highly personal, richly informed and culturally wide-ranging meditation on the loss of meaning in our times and on pathways to rediscovering it." -Gabor Maté, MD, author of In The Realm of Hungry Ghosts: Close Encounters With Addiction A neuroanthropologist maps out a revolutionary new practice—Hedonic Engineering—that combines the best of neuroscience and optimal psychology. It's an intensive program of breathing, movement, and sexuality that mends trauma, heightens inspiration and tightens connections—helping us wake up, grow up, and show up for a world that needs us all. This is a book about a big idea. And the idea is this: Slowly over the past few decades, and now suddenly, all at once, we're suffering from a collapse in Meaning. Fundamentalism and nihilism are filling that vacuum, with consequences that affect us all. In a world that needs us at our best, diseases of despair, tribalism, and disaster fatigue are leaving us at our worst. It's vital that we regain control of the stories we're telling because they are shaping the future we're creating. To do that, we have to remember our deepest inspiration, heal our pain and apathy, and connect to each other like never before. If we can do that, we've got a shot at solving the big problems we face. And if we can't? Well, the dustbin of history has swallowed civilizations older and fancier than ours. This book is divided into three parts. The first, Choose Your Own Apocalypse, takes a look at our current Meaning Crisis--where we are today, why it's so hard to make sense of the world, what might be coming next, and what to do about it. It also makes a case that many of our efforts to cope, whether anxiety and denial, or tribalism and identity politics, are likely making things worse. The middle section, The Alchemist Cookbook, applies the creative firm IDEO's design thinking to the Meaning Crisis. This is where the book gets hands on--taking a look at the strongest evolutionary drivers that can bring about inspiration, healing, and connection. From breathing, to movement, sexuality, music, and substances--these are the everyday tools to help us wake up, grow up, and show up. AKA--how to blow yourself sky high with household materials. And the best part? They're accessible, by anyone anywhere, no middleman required. Transcendence democratized. The final third of the book, Ethical

Cult Building, focuses on the tricky nature of putting these kinds of experiences into gear and into culture—because, anytime in the past when we've figured out combinations of peak states and deep healing, we've almost always ended up with problematic culty communities. Playing with fire has left a lot of people burned. This section lays out a roadmap for sparking a thousand fires around the world--each one unique and tailored to the needs and values of its participants. Think of it as an open-source toolkit for building ethical culture. In Recapture the Rapture, we're taking radical research out of the extremes and applying it to the mainstream--to the broader social problem of healing, believing, and belonging. It's providing answers to the questions we face: how to replace blind faith with direct experience, how to move from broken to whole, and how to cure isolation with connection. Said even more plainly, it shows us how to revitalize our bodies, boost our creativity, rekindle our relationships, and answer once and for all the questions of why we are here and what do we do now? In a world that needs the best of us from the rest of us, this is a book that shows us how to get it done.
