Sierra Stories Gary Noy,2014-08-01 The author of *Gold Rush Stories* shares tales of the larger-than-life characters from the history of the legendary Sierra Nevada mountain range. With its 14,000-foot granite mountains, crystalline lakes, conifer forests, and hidden valleys, the Sierra Nevada has long been the domain of dreams, attracting the heroic and the delusional, the best of humanity and the worst. Stories abound, and characters emerge so outlandish and outrageous that they must be real. Could the human imagination have invented someone like Eliza Gilbert? Born in Limerick, Ireland, in 1818, she transformed herself into Lola Montez, born in Seville, Spain, in 1823, and brought to the Gold Country the provocative “Spider Dance”—impersonating a young woman repelling a legion of angry spiders under her petticoats. Or Otto Esche, who in 1860 imported fifteen two-humped Bactrian camels from Asia to transport goods to the mines. Or the artist Albert Bierstadt, whose paintings Mark Twain characterized as having “more the atmosphere of Kingdom-Come than of California.” Or multimillionaire George Whittell Jr., who was frequently spotted driving around Lake Tahoe in a luxurious convertible with his pet lion in the front seat. These, and scores more, spill out of the pages of this well-illustrated and lively tribute to the Sierra by a native son.

Pounder's Marine Diesel Engines and Gas Turbines Malcolm Latarche,2020-12-01 Pounder's Marine Diesel Engines and Gas Turbines, Tenth Edition, gives engineering cadets, marine engineers, ship operators and managers insights into currently available engines and auxiliary equipment and trends for the future. This new edition introduces new engine models that will be most commonly installed in ships over the next decade, as well as the latest legislation and pollutant emissions procedures. Since publication of the last edition in 2009, a number of emission control areas (ECAs) have been established by the International Maritime Organization (IMO) in which exhaust emissions are subject to even more stringent controls. In addition, there are now rules that affect new ships and their emission of CO₂ measured as a product of cargo carried. Provides the latest emission control technologies, such as SCR and water scrubbers Contains complete updates of legislation and pollutant emission procedures Includes the latest emission control technologies and expands upon remote monitoring and control of engines

Red Carolinians Chapman James Milling,1969 At one time or another, as many as thirty tribes or bands lived within the borders of the present state, yet this number does not include half the Red Men who came under the influence of the Charles Town government. Through contacts made by such early explorers as Woodward and Hughes, trade agreements were entered into with Creek, Choctaw, and Chickasaw, as well as with the Cherokee and other tribes native to the province ... present knowledge of these nations comes from the manuscript records of the Indian Commission, the Council and

Commons House Journals, and report of various officials ...--Preface.

Flowering of the Cumberland Harriette Simpson Arnow, 2013-04-01 Harriette Arnow's search for truth as early American settlers knew it began as a child—the old songs, handed-down stories, and proverbs that colored her world compelled her on a journey that informs her depiction of the Cumberland River Valley in Kentucky and Tennessee. Arnow drew from court records, wills, inventories, early newspapers, and unpublished manuscripts to write *Seedtime on the Cumberland*, which chronicles the movement of settlers away from the coast, as well as their continual refinement of the “art of pioneering.” A companion piece, this evocative history covers the same era, 1780–1803, from the first settlement in what was known as “Middle Tennessee” to the Louisiana Purchase. When Middle Tennessee was the American frontier, the men and women who settled there struggled for survival, land, and human dignity. The society they built in their new home reflected these accomplishments, vulnerabilities, and ambitions, at a time when America was experiencing great political, industrial, and social upheaval.

The Canadian Snowbird in America Terry F. Wruk, Terry F. Ritchie, Brian D. Wruk, 2007 A comprehensive overview on financial management, tax filing, real estate investment, cross-border retirement planning, and foreign exchange issues for Canadians adopting a temporary U.S. lifestyle.

Seedtime on the Cumberland Harriette Simpson Arnow, 2013-04-01 Harriette Arnow's roots ran deep into the Cumberland River country of Kentucky and Tennessee, and out of her closeness to that land and its people comes this remarkable history. The first of two companion volumes, *Seedtime on the Cumberland* captures the triumphs and tragedies of everyday life on the frontier, a place where the land both promised and demanded much. In the years between 1780 and 1803, this part of the country presented tremendous opportunity to those who endeavored to make a new life there. Drawing on an extensive body of primary sources—including family journals, court records, and personal inventories—Arnow paints a stirring portrait of these intrepid people. Like the midden at some ancient archaeological site, these accumulated items become a treasure awaiting the insight and organization of an interpreter. Arnow also draws on a medium she believed in unerringly—oral history, the rich tradition that shaped so much of her own family and regional experience. A classic study of the Old Southwest, *Seedtime on the Cumberland* documents with stirring perceptiveness the opening of the Appalachian frontier, the intersection of settlers and Native Americans, and the harsh conditions of life in the borderlands.
