Journalism Online Mike Ward,2013-08-06 Journalism Online tackles the pressing question of how to apply fundamental journalism skills to the online medium. It provides an essential guide to the Internet as a research and publishing tool. In particular, it examines how to forge key journalism skills with the distinctive qualities of the World Wide Web to provide compelling web content. Trainee and practicing online journalists will learn: - core journalism skills of identifying, collecting, selecting and presenting news and information; - multimedia skills such as audio recording and editing; - online research methods including use of search tools, newsgroups and listservs; - story construction and writing for the Web; - an introduction to HTML; - web site design for the effective use of content. Journalism Online takes the best of the 'new' and 'old' media to provide an essential primer for this emerging discipline.
