*Think Like a Spy* Bryan Keyleader, Many people have wished or dreamed about the possibility of doing espionage, and movies surely stimulate such desire. But my experience of living in some of the worst neighborhoods in the world left me with little desire to ever be in such situation again. However, there are many forms of espionage in our modern world, and not just the types that we often see in movies. Among those, we have the ones we're forced to learn, in order to find evidences against a cheating partner, or to protect ourselves when someone is investigating our private life. Nobody is immune to such needs, unless we pretend they're not real and choose to experience life with naiveness. And that's something I was forced to accept in order to move on with mine. We all have our curious side, but few go as deep as to finding something about people and the world that can really make us feel sick. I've done it many times, to expose the truth in certain situations and find the rotten apples. And that's why this can be a very useful book for the common citizen, which in most cases is too afraid to expose himself to danger and life threatening situations when researching for facts. On the other hand, if you are doing any social research, as many have done, namely, reporters and investigators, that wanted to write about skinhead groups, terrorists, slavery, prostitution and drug dealers, this book will be very useful as well.

Ready or Not, Here Life Comes Mel Levine, 2005-02-01 Every parent wants to know, What will he be like when he's in his twenties? After decades of observing children grow into young adults, Dr. Mel Levine, nationally known pediatrician and author, addresses the question of why some youngsters make a successful transition into adulthood while others do not. In recent years, says Dr. Levine, we have experienced an epidemic of career unreadiness as too many young people begin what he calls the startup years unprepared for the challenge of initiating a productive life. Parents and schools often raise children in a highly structured world of overscheduled activities, meeting kids' demands for immediate gratification but leaving them unable to cope on their own. Instead of making a smooth transition into adulthood, many youngsters find themselves trapped in their teenage years, traveling down the wrong career road, unable to function in the world of work. These young people have failed, says Dr. Levine, to properly assess their strengths and weaknesses and have never learned the basics of choosing and advancing through the stages of a career. Dr. Levine urges that schools focus less on college prep (which, he points out, generally means college admissions prep) and instead teach life prep, equipping adolescents with what they will need to succeed as adults. He identifies these skills as falling within four growth processes, the four I's: inner direction, or self-awareness; interpretation, or understanding the outside world; instrumentation, or the acquisition of mental tools; and interaction, or the ability to relate to other people effectively. It is these abilities that ensure a successful transition into the startup years of early adulthood. Parents, schools, and adolescents themselves can all work together to improve work-life readiness, and Dr. Levine shows how. He even offers advice for young adults who find themselves unable to navigate the world of careers. Insightful, wise, and compassionate, *Ready or Not, Here Life Comes* is a powerful commentary on our times and a book that can help adolescents and startup adults -- with an assist from parents and educators -- to spring from the starting gate of adulthood.

**John le Carré and the Cold War** Toby Manning, 2018-01-25 John le Carré and the Cold War explores the historical contexts and political implications of le Carré's major Cold-War novels. The first in-depth study of le Carré this century, this book analyses his work in light of key topics in 20th-century history, including containment of Communism, decolonization, the Berlin Wall, the Cuban missile crisis, the Cambridge spy-ring, the Vietnam War, the 70s oil crisis and Thatcherism. Examining *The Spy Who Came*

in from the Cold (1963), Tinker Tailor Soldier Spy (1974), Smiley's People (1979) and other novels, this book offers an illuminating picture of Cold-War Britain, while situating le Carré's work alongside that of George Orwell, Graham Greene and Ian Fleming. Providing a valuable contribution to contemporary understandings of both British spy fiction and post-war fiction, Toby Manning challenges the critical consensus to reveal a considerably less radical writer than is conventionally presented.

My Life as a Spy Katherine Verdery, 2018-05-04 As Katherine Verdery observes, There's nothing like reading your secret police file to make you wonder who you really are. In 1973 Verdery began her doctoral fieldwork in the Transylvanian region of Romania, ruled at the time by communist dictator Nicolae Ceausescu. She returned several times over the next twenty-five years, during which time the secret police—the Securitate—compiled a massive surveillance file on her. Reading through its 2,781 pages, she learned that she was actually a spy, a CIA agent, a Hungarian agitator, and a friend of dissidents: in short, an enemy of Romania. In *My Life as a Spy* she analyzes her file alongside her original field notes and conversations with Securitate officers. Verdery also talks with some of the informers who were close friends, learning the complex circumstances that led them to report on her, and considers how fieldwork and spying can be easily confused. Part memoir, part detective story, part anthropological analysis, *My Life as a Spy* offers a personal account of how government surveillance worked during the Cold War and how Verdery experienced living under it.

*Researching in the Former Soviet Union* Jasmin Dall'Agnola, Allyson Edwards, Marnie Howlett, 2022-12-09 Written for early-career scholars still in the planning stages of their research, this book explores some of the challenges researchers face when conducting fieldwork in the former Soviet region. It addresses key questions, including: What difficulties do scholars, especially females, encounter when researching in the region? How does an early-career scholars' positionality – especially their nationality, ethnicity, and sexuality – contribute to their experiences of inclusion, exclusion, and access while conducting fieldwork? How do early-career scholars navigate issues of personal safety in the field? How do

junior academics successfully conduct high-risk research? The book includes contributors from both the region and Western countries, paying particular attention to the ways researchers' subjectivities shape how they are received in the region, which, in turn, influence how they write about and disseminate their research. The book also explores ways to continue research away from the field through the use of digital methods when physical access is not possible.

*Cold War Spy Stories from Eastern Europe* Valentina Glajar, Alison Lewis, Corina L. Petrescu, 2019-08-01  
During the Cold War, stories of espionage became popular on both sides of the Iron Curtain, capturing the imagination of readers and filmgoers alike as secret police quietly engaged in surveillance under the shroud of impenetrable secrecy. And curiously, in the post-Cold War period there are no signs of this enthusiasm diminishing. The opening of secret police archives in many Eastern European countries has provided the opportunity to excavate and narrate for the first time forgotten spy stories. *Cold War Spy Stories from Eastern Europe* brings together a wide range of accounts compiled from the East German Stasi, the Romanian Securitate, and the Ukrainian KGB files. The stories are a complex amalgam of fact and fiction, history and imagination, past and present. These stories of collusion and complicity, betrayal and treason, right and wrong, and good and evil cast surprising new light on the question of Cold War certainties and divides.

Atomic Spy Nancy Thorndike Greenspan, 2020 *Atomic Spy* shows the real Klaus Fuchs - German by birth, British by naturalisation, Communist by belief, convicted of treason in 1950 for handing over plutonium bomb designs to the Soviets. His extraordinary life is a cautionary tale about morality and a classic anti-hero story. With thrilling detail from never-before-seen archives it places readers in the Germany of an ascendant Nazi party; the British university classroom of Max Born; a British internment camp in Canada; the secret laboratories of Los Alamos; and Eastern Germany at the height of the Cold War.

 #TheWeaponizationOfSocialMedia Thomas Elkjer Nissen, 2015-04-09

#TheWeaponizationOfSocialMedia develops a framework to understand how social network media shapes global politics and contemporary conflicts by examining their role as a platform for conduction intelligence collection, targeting, cyber-operations, psychological warfare and command and control activities. Through these, the weaponization of social media shows both the possibilities and the limitations of social network media in contemporary conflicts and makes a contribution to theorizing and studying contemporary conflicts. Democracies operate as if Information is second to the other elements of national power. In fact it is the aspect from which all power is derived. We fail to understand this at our peril, while our adversaries 'get it'. In democracies to autocracies, information is a valuable resource that is increasingly difficult to control. That is how it should be. However, the *Weaponization of Social Media*, as Thomas Nissen adeptly describes it, is simultaneously based on and enabling several dangerous trajectories. These include new marketplaces for loyalty, the ability to opt-in (and out) of identities, perceived transparency across battlefields and diplomacy, and media illiteracy and a commensurate decline in the standards of journalism.
