Wallpapers in Historic Preservation Catherine Lynn, 1977 The papered and bordered wall was an important feature of American interiors during the 18th, 19th, and early 20th centuries. Paper hangings, both imported and of domestic manufacture, were more widely used than many of our restored buildings might lead us to believe. This book attempts to catalog and describe the variety, as well as accounting for restoration and preservation of pieces as part of the historical record. --Amazon.

Fallen Beauty Erika Robuck, 2014-03-04 "Without sin, can we know beauty? Can we fully appreciate the summer without the winter? No, I am glad to suffer so I can feel the fullness of our time in the light." Upstate New York, 1928. Laura Kelley and the man she loves sneak away from their judgmental town to attend a performance of the scandalous Ziegfeld Follies. But the dark consequences of their night of daring and delight reach far into the future.... That same evening, Bohemian poet Edna St. Vincent Millay and her indulgent husband hold a wild party in their remote mountain estate, hoping to inspire her muse. Millay declares her wish for a new lover who will take her to unparalleled heights of passion and poetry, but for the first time, the man who responds will not

bend completely to her will.... Two years later, Laura, an unwed seamstress struggling to support her daughter, and Millay, a woman fighting the passage of time, work together secretly to create costumes for Millay's next grand tour. As their complex, often uneasy friendship develops amid growing local condemnation, each woman is forced to confront what it means to be a fallen woman...and to decide for herself what price she is willing to pay to live a full life. "Lovers of the Jazz Age, literary enthusiasts, and general historic fiction readers will find much to love about *Call Me Zelda*. Highly recommended." –Historical Novel Society, Editors' Choice

I Swear I Use No Art at All Joost Grootens, 2010 This book displays and dissects the career and design motives of graphic designer Joost Grootens. In a systematic fashion it charts the first 100 books designed by Grootens over the past ten years. In the first chapter, '10 years', Grootens uses timelines, lists and graphs to map the course of his career as a designer, the people he worked with and the places where the work took place. In '100 books', the designer dissects his book designs. He details the grids, formats, paper stocks, colours and typefaces, and charts the books' structures and compositions. '18,788 pages' shows at actual size a selection of spreads from books designed by Grootens, including the internationally acclaimed atlases. In the text 'I swear I use no art at all' Joost Grootens gives a personal account of making books and the ideas behind his designs.

Processing, second edition Casey Reas, Ben Fry, 2014-12-19 The new edition of an introduction to computer programming within the context of the visual arts, using the open-source programming language Processing; thoroughly updated throughout. The visual arts are rapidly changing as media moves into the web, mobile devices, and architecture. When designers and artists learn the basics of

writing software, they develop a new form of literacy that enables them to create new media for the present, and to imagine future media that are beyond the capacities of current software tools. This book introduces this new literacy by teaching computer programming within the context of the visual arts. It offers a comprehensive reference and text for Processing (www.processing.org), an open-source programming language that can be used by students, artists, designers, architects, researchers, and anyone who wants to program images, animation, and interactivity. Written by Processing's cofounders, the book offers a definitive reference for students and professionals. Tutorial chapters make up the bulk of the book; advanced professional projects from such domains as animation, performance, and installation are discussed in interviews with their creators. This second edition has been thoroughly updated. It is the first book to offer in-depth coverage of Processing 2.0 and 3.0, and all examples have been updated for the new syntax. Every chapter has been revised, and new chapters introduce new ways to work with data and geometry. New “synthesis” chapters offer discussion and worked examples of such topics as sketching with code, modularity, and algorithms. New interviews have been added that cover a wider range of projects. “Extension” chapters are now offered online so they can be updated to keep pace with technological developments in such fields as computer vision and electronics. Interviews SUE.C, Larry Cuba, Mark Hansen, Lynn Hershman Leeson, Jürg Lehni, LettError, Golan Levin and Zachary Lieberman, Benjamin Maus, Manfred Mohr, Ash Nehru, Josh On, Bob Sabiston, Jennifer Steinkamp, Jared Tarbell, Steph Thirion, Robert Winter

Information Rules Carl Shapiro, Hal R. Varian, 1999 As one of the first books to distill the economics of information and networks into

practical business strategies, this is a guide to the winning moves that can help business leaders--from writers, lawyers and finance professional to executives in the entertainment, publishing and hardware and software industries-- navigate successfully through the information economy.

Recollected Work Armand Mevis,Linda van Deursen,Paul Elliman,2005 Nothing about Dutch graphic design duo Mevis & van Deursen conforms to type. Praised for their innovative but clear presentation, they have designed everything from artist's books for Gabriel Orozco and Rineke Dijkstra to an official government stamp commemorating the marriage of Dutch Crown Prince Willem-Alexander, based on the number two, since the wedding date was 02-02-02. This book represents a range of work from the past 15 years, mostly books but also posters and smaller pieces. However, the artists have chosen not simply to present the work again but to make it new through collage and reinterpetative interplay, thus recycling their innovative designs.

Van Gogh Trees Vincent Van Gogh,2020-02-11 - Digitally restored illustrations- Translated captions- AnnotatedVincent Van Gogh often depicted individual trees, orchards, arboretums, parks, forests and groves through the skilled prism of his own unique vision, from rectory gardens and wooded areas of his native Holland to the parks and gardens of Paris and finally to the various fruit trees, cypresses, willows, pine trees, poplars and olive groves of Southern France where he spent his last years. In some of his finest work, the branches and leaves of cypress and other trees take on the swirling effect mirrored in the trademark Van Gogh sky. 1888 and 1889 were peak years for his tree paintings.Vincent Van Gogh's short art career provided the world with unparalleled paintings from a troubled

genius. It was to be an age of post-Impressionistic color, form and wonderment that the art world discovered only after the master's death. Bouts of anxiety, mental illness and epilepsy may have tormented him and brought about his suicide at the age of 37. But they may also have been catalysts for an emotionality and vibrance in his art that reveals a turbulent search for grace. This volume displays 50 examples of Van Gogh's finest tree art in a digitally restored state: their eye-popping brilliance and vitality are just as on the day Vincent Van Gogh finished them. Unless otherwise noted, they were originally oil paintings on canvas or wood. The arrangement is chronological within each category. Tree images include: Girl in the Forest, 1882 Poplars in Autumn, 1884 Rectory Garden of Nuenen in the Snow, 1885 Jardin de Luxembourg, 1886 Walkers in the Bois de Boulogne, 1886 Park at Asnieres in the Spring, 1887 Forest Path, 1887 Underbrush, 1887 Orchard with Flowering Apricot Trees, 1888 Flowering Peach Tree (Souvenirs of Mauve), 1888 Blue Train, 1888 Flowering Orchard I, 1888 Flowering Fruit Orchard Surrounded by Cypressess, 1888 Orchard with Flowering Peach Trees, 1888 Flowering Orchard II, 1888 Flowering Pear Tree, 1888 Flowering Plum Tree, 1888 Meadow with Weeping Willow, 1888 Rocky Hill with Oak, 1888 Park Clearing (Garden of the Poet), 1888 Entrance to the Park at Arles with Walkers, 1888 Trunk of an Old Yew Tree, 1888 Willow Trees at Sunset, 1888 Les Alycamps Avenue in Arles, 1888 Les Alycamps Avenue in Arles II, 1888 Flowering Orchard with View of Arles, 1889 Path with Trimmed Willows, 1889 Cypress Trees with Two Female Figures, 1889 Cypressess, 1889 Olive Grove I, 1889 Olive Trees at Les Alpilles, 1889 Underbrush with Ivy, 1889 Entrance to a Quarry, 1889 Wheat Field with Cypressess, 1889 Olive Trees, 1889 Two Poplars on a Path through the Hills,

Wanderlust Rebecca Solnit, 2001-06-01 A passionate, thought-provoking exploration of walking as a political and cultural activity, from the author of *Orwell's Roses* Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.

The Brand Innovation Manifesto John Grant, 2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of *The New Marketing Manifesto*, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In *The Brand Innovation Manifesto*, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.
