Computer and Communication Networks Nader F. Mir,2015 Computer and Communication Networks, Second Edition first establishes a solid foundation in basic networking concepts, TCP/IP schemes, wireless networking, Internet applications, and network security. Next, Mir delves into the mathematical analysis of networks, as well as advanced networking protocols. This fully-updated text thoroughly explains the modern technologies of networking and communications among computers, servers, routers, and other smart communication devices, helping readers design cost-effective networks that meet emerging requirements. Offering uniquely balanced coverage of all key basic and advanced topics, it teaches through extensive, up-to-date case studies, 400 examples and exercises, and 250+ illustrative figures. Nader F. Mir provides the practical, scenario-based information many networking books lack, and offers a uniquely effective blend of theory and implementation. Drawing on extensive experience in the field, he introduces a wide spectrum of contemporary applications, and covers several key topics that competitive texts skim past or ignore completely, such as Software-Defined Networking (SDN) and Information-Centric Networking.

For a Pint of Mother's Milk Avishek Sahu,2017-02-06 Victor Verghese grows up without his mother's love, and spends the most part of his early life subconsciously living the lack in his dealings with the world. There is this irreparable void in his psyche that he simply must fill, and when he finds a girl-Sonal Dutta-who can do just that, he is left with an ideal he must chase. Infused with a new pulsating drive, he lands up in the preeminent management institute in the country only to end up in a bout of failed love and general disillusionment. Wafting through life on weak emotional underpinnings, he courts an exotic adventure through the inglorious corners of China Town, Calcutta; Chittagong, Bangladesh; and Bac Lieu, Vietnam, at the behest of a woman he had always been conditioned to avoid, chasing the most absurd ideal that even he knows is over the top even by his liberal interpretations of all things 'implausible.' Riding a wave of mystery and a healthy dose of twisted oriental exotica he comes back endowed with a life altering gift and leads to opportunities too nebulous to comprehend. As he pursues the leads on the back of his guts sharpened to survive without plans and certainties, he chances upon money that would give him a head start, a friend-Sonny Samuel-who would alter his life for the better, and a lover-Swati Mittal-who'd take him to great heights all the while threatening to steal him away from his greatest love. In his quest to make good on the aspirations he had harbored since he was a young upstart chasing the queen of his dreams, his life is pulled in dangerous directions, and he suddenly stands on the brink of material and spiritual oblivion. If he makes good on the challenge posed by the most perfidious challenger, he along with his friends, stand to wrest control of a trove of clandestine riches and a peek into Bangalore's underworld, and much more, beyond.
