**Take Control of Apple TV** Josh Centers, 2014 Everything you need to know about the Apple TV! The Apple TV may be the smallest component of a home entertainment system, but its size is in stark contrast to the vast quantity of content that it can bring to life through your television. With it, you can consider cutting the cord to your cable company -- and ditching that expensive monthly bill! And with the advice in *Take Control of Apple TV*, you can go far beyond watching movies and TV shows to make the Apple TV into the hub of your stereo system, display gorgeous slideshows of your photos, and play iPhone and iPad games on the big screen. Written by TidBITS managing editor Josh Centers, the

ebook walks new owners through setup, and then dives into explaining how to best control the Apple TV with the included remote, Apple's Remote app, or another TV remote. You'll learn to customize the icon grid on the main screen, enable parental controls, and make your screen saver look awesome. Josh also covers uses of AirPlay, the Apple technology that lets you beam audio and video from an iPhone, iPad, or Mac to the Apple TV, and lets the Apple TV send audio to compatible speakers anywhere in your home. When it comes to content, you'll tour the Apple TV's built-in video apps -- iTunes Store, Netflix, Hulu, HBO Go, PBS, YouTube, and more -- plus get ideas for which are likely to offer what you want to watch. But you're not restricted to commercial video -- Josh explains how you can best view home movies and any DVDs or Blu-ray discs you own, listen to your music or iTunes Radio, use Home Sharing to display your photos via the Apple TV, and discover iOS games designed for playing via the Apple TV. If you're feeling geeky, you can read about how to make Plex bring in even more video content, including free access to Comedy Central's The Daily Show and The Colbert Report. Finally, the Apple TV isn't just about entertainment. Thanks to AirPlay, it makes a great device for giving presentations from a Mac, iPhone, or iPad using Keynote; it's the perfect accompaniment for a road warrior heading into unfamiliar conference rooms. Josh gives you all the details, including a list of what you'll need to handle any hardware you may encounter. In *Take Control of Apple TV* you'll read about:

- The one-button press for jumping immediately to the main menu
- Hiding unwanted Apple TV apps that clutter your main screen
- Must-know video navigation tricks (also in the free Apple TV Cheat Sheet )
- Enabling subtitles for...

Mother Land Paul Theroux,2017-05-09 “Theroux possesses a fabulously nasty sense of humor.” — Stephen King, New York Times Book Review To those in her Cape Cod town, Mother is an exemplar of piety, frugality, and hard work. To her husband and seven children, she is a selfish, petty tyrant. She excels at playing her offspring against each other. Her favorite, Angela, died in childbirth; only Angela really understands her, she tells the others. The others include the officious lawyer, Fred; the uproarious professor, Floyd; a pair of inseparable sisters whose devotion to Mother has consumed their lives; and JP, the narrator, a successful writer whose work she disparages. As she lives well past the age of one hundred, her brood struggles with and among themselves to shed her viselike hold on them. Mother Land is a piercing portrait of how a parent’s narcissism impacts a family. While the particulars of his tale are unique, Paul Theroux encapsulates with acute clarity and wisdom a circumstance that is familiar to millions of readers. “Paul Theroux ladles a steaming cup of dysfunctional-family chowder in Mother Land.” — Vanity Fair “An engrossing, emotionally tangled and often merciless examination of family and self . . . Mother Land is a bittersweet, brutally frank family saga that offers enough redemption to make the journey worth it.” — Shelf Awareness

Fisk,2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. Slides for Students does just that.Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for

**Making Software** Andy Oram, Greg Wilson, 2010-10-14 Many claims are made about how certain tools, technologies, and practices improve software development. But which claims are verifiable, and which are merely wishful thinking? In this book, leading thinkers such as Steve McConnell, Barry Boehm, and Barbara Kitchenham offer essays that uncover the truth and unmask myths commonly held among the software development community. Their insights may surprise you. Are some programmers really ten times more productive than others? Does writing tests first help you develop better code faster? Can code metrics predict the number of bugs in a piece of software? Do design patterns actually make better software? What effect does personality have on pair programming? What matters more: how far apart people are geographically, or how far apart they are in the org chart? Contributors include: Jorge Aranda Tom Ball Victor R.
