With this view, the Studies have been arranged in groups, those in each group being placed in progressive order, and having reference to some one particular difficulty. The greater part of the Studies themselves have been selected from the standard works of the most eminent Study-writers, and with these are included numerous others, which, though of equally great practical utility, have hitherto been less generally accessible....

LeBorgne, Marci Daniels Rosenberg, 2019-08-31 The Vocal Athlete, Second Edition and the companion book The Vocal Athlete: Application and Technique for the Hybrid Singer, Second Edition are written and designed to bridge the gap between the art of contemporary commercial music (CCM) singing and the science behind voice production in this ever-growing popular vocal style. The text distinguishes itself from other pedagogy texts by incorporating current peer reviewed literature in the area of CCM and its studio application. Also unique to this text are chapters on body alignment, traditional and holistic medicine, the lifecycle of the voice, and the physiology of belting.
