Parading Respectability Sylvia Bruinders,2017-09-01 Parading respectability: The cultural and moral aesthetics of the Christmas Bands Movement in the Western Cape, South Africa is an intimate and incisive portrait of the Christmas Bands Movement in the Western Cape of South Africa. Drawing on her own on background as well as her extended research study period during which she became a band member and was closely involved in its day-to-day affairs, the author, Dr Sylvia Bruinders, documents this centuries-old expressive practice of ushering in the joy of Christmas through music by way of a social history of the coloured communities. In doing so, she traces the slave origins of the Christmas Bands Movement, as well as how the oppressive and segregationist injustices of both colonialism and apartheid, together with the civil liberties afforded in the South African Constitution (1996) after the country became a democracy in 1994 have shaped the movement.

The Frustrated Songwriter's Handbook Karl Coryat,Nicholas Dobson,2006 This book teaches an innovative method called Immersion Composition that drives musicians to engage their creativity by writing as much music as possible in a set time period. After learning to apply the method, elusive moments of inspiration can be summoned on command. The book also explains how to form a group of like-minded songwriters (a “lodge”), presents dozens of tips and games for making the most out of an Immersion Composition session, and shows how to turn brainstormed raw materials into polished songs.

Inside Citrix Bas Van Kaam,2016-05-16 Inside Citrix - The FlexCast Management Architecture focuses on the FMA, mainly from an architectural point of view. It will discuss, in detail all of its main components and services, their primary roles and responsibilities, including some of the most common optional components, features and/or closely related technologies. From the basics to deep (er) dives where applicable, I will make sure to include something for everybody. Do note that this book is not meant as an installation and/or how-to manual, instead it will dive deeper into the FMA, the true foundation of Citrix XenDesktop and XenApp. Topics include but are not limited to: A deep dive into the FMA's main services, its evolution, a detailed overview on the user authentication, application enumeration and launch processes, Citrix printing, the ICA / HDX protocol, application delivery, MCS, PVS, troubleshooting, some history, fun facts and figures and (much) more. I have concluded each chapter with multiple key takeaways (a few hundred in total) and also included over 100 so-called FMA facts throughout the various chapters.

DaaS - the Complete Guide Cláudio Rodrigues,2021-08-26 'Desktop-as-a-Service' or 'DaaS' for short, is a hosted computing offering where the provider hosts and delivers virtual desktops and applications over the internet to the end users. With the rise of Cloud services, several companies jumped on the 'DaaS' bandwagon and today a myriad of offerings from different vendors are available. For companies considering 'DaaS', that poses a problem. How do I start? Which vendor should I evaluate? How these compare to each other? This book covers everything you need to know to deploy a Microsoft Azure hosted solution, not only using Microsoft's own Azure Virtual Desktop (AVD) platform but also Nutanix Xi Frame, Citrix Cloud, VMware Horizon Cloud and even a hybrid solution (delivering on-premises and cloud hosted desktops) from Accops. From creating your account on Azure, connecting your on-premises environment to Azure, all the way to deploying all these solutions, every single item is there, explained in very detailed step-by-step guides by Cláudio Rodrigues (former Microsoft MVP/Citrix CTP/VMware vExpert/Parallels VIPP), a well-known figure in the End User Computing (EUC) arena. And keep in mind the book will take you beyond 'DaaS', discussing important topics often forgotten like endpoint management, printing and monitoring. If you know nothing about 'DaaS' or are very familiar with one vendor, it does not matter. We have you covered and this book will definitely help you on your 'DaaS' journey or on expanding your knowledge about all the other vendors.

The Hávamál Saemund Sigfusson,2020-07-17 Hávamál is presented as a single poem in the Codex Regius, a collection of Old Norse poems from the Viking age. The poem, itself a combination of numerous shorter poems, is largely gnomic, presenting advice for living, proper conduct and wisdom. It is our most important source on Old Norse philosophy. The verses are attributed to Odin; the implicit attribution to Odin facilitated the accretion of various mythological material also dealing with the same deity.

Freud's Mistress Karen Mack,Jennifer Kaufman,2014-06-03 “A thrilling story of seduction, betrayal, and loss, Freud’s Mistress will titillate fans of *Memoirs of a Geisha* and *The Other Boleyn Girl*.”—Booklist In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century’s greatest thinkers, *Freud’s Mistress* is a novel rich with passion and historical detail and “a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy?”* *Publishers Weekly
