**Nam June Paik** Melissa Chiu, Michelle Yun, 2014 This new, fully illustrated catalogue on the celebrated progenitor of video art, Nam June Paik (1932-2006), brings together a host of scholars, artists, and Paik's own collaborators to illuminate the work of this innovative artist. An essay by curator Michelle Yun takes readers through Paik's highly original career, providing insight into his radical and witty experiments with technology, especially in relation to the body, which he viewed as vital platforms for the future of art, science, and popular culture. Scholars David Joselit and John Maeda contribute texts examining the artist's interest in new media and popular culture. A

roundtable discussion with three of Paik's own artistic collaborators and contemporary artists' statements shed light on the collaborative process and Paik's enduring influence on artistic practice today. Drawing on the newly established Nam June Paik Archive at the Smithsonian American Art Museum, this book also features never-before-published primary sources that highlight Paik's prescient attitude towards the integration of increasingly indispensable technologies into modern life. **The Baroness** Hannah Rothschild, 2013-03-19 Beautiful, romantic and spirited, Pannonica, known as Nica, named after her father's favorite moth, was born in 1913 to extraordinary, eccentric privilege and a storied history. The Rothschild family had, in only five generations, risen from the ghetto in Frankfurt to stately homes in England. As a child, Nica took her daily walks, dressed in white, with her two sisters and governess around the parkland of the vast house at Tring, Hertfordshire, among kangaroos, giant tortoises, emus and zebras, all part of the exotic menagerie collected by her uncle Walter. As a debutante, she was taught to fly by a saxophonist and introduced to jazz by her brother Victor; she married Baron Jules de Koenigswarter, settled in a château in France and had five children. When World War II broke out, Nica and her five children narrowly escaped back to England, but soon after, she set out to find her husband who was fighting with the Free French Army in Africa, where she helped the war effort by being a decoder, a driver and organizing supplies and equipment. In the early 1950s Nica heard "'Round Midnight" by the jazz pianist and composer Thelonious Monk and, as if under a powerful spell, abandoned her marriage and moved to New York to find him. She devoted herself to helping Monk and

other musicians: she bailed them out of jail, paid their bills, took them to the hospital, even drove them to their gigs, and her convertible Bentley could always be seen parked outside downtown clubs or up in Harlem. Charlie Parker would notoriously die in her apartment in the Stanhope Hotel. But it was Monk who was the love of her life and whom she cared for until his death in 1982. Hannah Rothschild has drawn on archival material and her own interviews in this quest to find out who her great-aunt really was and how she fit into a family that, although passionate about music and entomology, was reactionary in always favoring men over women. Part musical odyssey, part love story, *The Baroness* is a fascinating portrait of a modern figure ahead of her time who dared to live as she wanted, finally, at the very center of New York's jazz scene.

**The Banqueting Club** George Fairbrother, 2019-04-25

Norman Armstrong and Alf Burton are an unlikely pair of political friends. One is a left-wing journalist who grew up in poverty, a man with a national reputation and a sharp tongue. The other is the Tory Chief Whip and the latest in a long family line of distinguished politicians. A violent argument between the two proves to be the beginning of a lasting bond. When Alf tells Norman that he has been lucky enough to secure access to a revelatory manuscript written by Charlotte Morris - an Edwardian popular novelist who made herself unpopular with the Establishment by campaigning against Kitchener's concentration camps - both men immediately understand the potentially explosive significance of the event. But neither could have predicted the extraordinary way in which, against the background of 1980s Britain and the imminent miners' strike, this political thriller would unfold.

**Feedback** David Joselit, 2007 In a world where politics is conducted through images, the tools of art history can be used to challenge the privatized antidemocratic sphere of American television. American television embodies a paradox: it is a privately owned and operated public communications network that most citizens are unable to participate in except as passive speculators. Television creates an image of community while preventing the formation of actual social ties because behind its simulated exchange of opinions lies a highly centralized corporate structure that is profoundly antidemocratic. In *Feedback*, David Joselit describes the privatized public sphere of television and recounts the tactics developed by artists and media activists in the 1960s and 1970s to break open its closed circuit. The figures whose work Joselit examines--among them Nam June Paik, Dan Graham, Joan Jonas, Abbie Hoffman, Andy Warhol, and Melvin Van Peebles--staged political interventions within television's closed circuit. Joselit identifies three kinds of image-events: feedback, which can be both disabling noise and rational

response--as when Abbie Hoffman hijacked television time for the Yippies with flamboyant stunts directed to the media; the image-virus, which proliferates parasitically, invading, transforming, and even blocking systems--as in Nam June Paik's synthesized videotapes and installations; and the avatar, a quasi-fictional form of identity available to anyone, which can function as a political actor--as in Melvin Van Peebles's invention of Sweet Sweetback, an African-American hero who appealed to a broad audience and influenced styles of Black Power activism. These strategies, writes Joselit, remain valuable today in a world where the overlapping information circuits of television and the Internet offer different opportunities for democratic participation. In *Feedback*, Joselit analyzes such midcentury image-events using the procedures and categories of art history. The trope of figure/ground reversal, for instance, is used to assess acts of representation in a variety of media--including the medium of politics. In a televisual world, Joselit argues, where democracy is conducted through images, art history has the capacity to become a political science.

**Inner City Sound** Clinton Walker, 2005 The classic documentary account of the 1970s punk explosion in Australia. **Blacklist** Sara Paretsky, 2004-08-31 V. I. Warshawski explores secrets and betrayals that stretch across four generations in this New York Times bestselling novel from one of the most compelling writers in American crime fiction... "A thoughtful, high-tension mystery."—The Washington Post Book World "A genuinely exciting and disturbing thriller."—Chicago Tribune As a favor to her most important client, V. I. agrees to check up on an empty mansion. But instead of a mysterious

intruder she discovers a dead man in the ornamental pond—a reporter for an African-American publication whom the suburban cops are quick to dismiss as a suicide. When the man's shattered family hires V. I. to investigate, she is sucked into a Gothic tale of sex, money, and power, leading her back to McCarthy-era blacklists and forward to some of the darker aspects of the Patriot Act. As V. I. finds herself penned in to a smaller and smaller space by an array of people trying to silence her, and before she can untangled the sordid truth, two more people will die—and V.I.'s own life will hang in the balance.

When Scotland Was Jewish Elizabeth Caldwell

Hirschman,Donald N. Yates,2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Armstrong's Army George Fairbrother, 2020-01-30 The summer of 1984 is eventful, to say the least, in British politics. Riots, bombings and the murder of a police officer have all occurred. Besides, the miners' strike is in progress, policed (or aggravated) by the special unit dubbed 'Armstrong's Army'. The strike affects the whole nation. The murder of a taxi driver and an undercover Special Branch agent; police informants infiltrating the miners' pickets. Numerous claims are being made of police corruption and crime. Home Secretary, Sir Norman Armstrong and his old friend; outspoken, left wing commentator Alf Burton, find themselves entrenched on opposite sides of this increasingly bitter and deadly fight. Can their decades-old friendship survive? Meanwhile, what of the papers lost years ago, with the sinking of the Lady Georgiana? Alf Burton uncovers increasingly disturbing links to the current day, and finds Sir Norman's own family heavily implicated. What was the secret they concealed?
