The Outpost Jake Tapper,2012-11-13 The basis of the film starring Orlando Bloom and Scott Eastwood, The Outpost is the heartbreaking and inspiring story of one of America's deadliest battles during the war in Afghanistan, acclaimed by critics everywhere as a classic. At 5:58 AM on October 3rd, 2009, Combat Outpost Keating, located in frighteningly vulnerable terrain in Afghanistan just 14 miles from the Pakistani border, was viciously attacked. Though the 53 Americans there prevailed against nearly 400 Taliban fighters, their casualties made it the deadliest fight of the war for the U.S. that year. Four months after the battle, a Pentagon review revealed that there was no reason for the troops at Keating to have been there in the first place. In The Outpost, Jake Tapper gives us the powerful saga of COP Keating, from its establishment to eventual destruction, introducing us to an unforgettable cast of soldiers and their families, and to a place and war that has remained profoundly distant to most Americans. A runaway bestseller, it makes a savage war real, and American courage manifest. The Outpost is a mind-boggling, all-too-true story of heroism, hubris, failed strategy, and heartbreaking sacrifice. If you want to understand how the war in Afghanistan went off the rails, you need to read this book. -- Jon Krakauer

If I Had Your Face Frances Cha,2020-04-21 A riveting debut novel set in contemporary Seoul, Korea, about four young women making their way in a world defined by impossible standards of beauty, after-hours room salons catering to wealthy men, ruthless social hierarchies, and K-pop mania "Powerful and provocative . . . a novel about female strength, spirit, resilience—and the solace that friendship can sometimes provide."—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time • NPR • Esquire • Bustle • BBC • New York Post • InStyle Kyuri is an achingly beautiful woman with a hard-won job at a Seoul "room salon," an exclusive underground bar where she entertains businessmen while they drink. Though she prides herself on her cold, clear-eyed approach to life, an impulsive mistake threatens her livelihood. Kyuri's roommate, Miho, is a talented artist who grew up in an orphanage but won a scholarship to study art in New York. Returning to Korea after college, she finds herself in a precarious relationship with the heir to one of the country's biggest conglomerates. Down the hall in their building lives Ara, a hairstylist whose two preoccupations sustain her: an obsession with a boy-band pop star, and a best friend who is saving up for the extreme plastic surgery that she hopes will change her life. And Wonna, one floor below, is a newlywed trying to have a baby that she and her husband have no idea how they can afford to raise in Korea's brutal economy. Together, their stories tell a gripping tale at once unfamiliar and unmistakably universal, in which their tentative friendships may turn out to be the thing that ultimately saves them.

The SAGE Handbook of Contemporary China Weiping Wu,Mark Frazier,2018-07-09 Contemporary China is dynamic and complex. Recent dramatic changes in the Chinese economy, society, and environment pose numerous challenges for scholars of China. This Handbook will define contemporary China Studies for the social sciences: investigating how we can best study China; exploring the transformations of contemporary China that inform how we study China; presenting the breadth and depth of the China Studies field; and identify future directions for China Studies. In

two volumes, the Handbook situates China Studies in history and context. Each chapter in Part One provides an overview and historiography of how scholars have conceptualized the Chinese state, nation, economy and environment, and analyzes trends in terms of different research approaches, types of sources, and trends in the study of these broad concepts. The next five parts cover substantive themes in China Studies, including economic transformations; politics and government; China as a global actor; urbanization and urban development; and Chinese society. In conclusion, the Handbook draws together critical discussions of emerging issues of transdisciplinary approaches to China Studies, the future of Chinese historical Studies, and the future of China in comparative contexts.

The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice,1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Fan Culture Katherine Larsen,Lynn Zubernis,2012-03-15 Fan Culture: Theory/Practice brings together the most current scholarship on fan studies, in a way that makes it accessible and usable for both students and teachers. The essays in this collection explore the relative influence of academic and fan perspectives in the current group of scholar-fans and the ethical dilemmas that sometimes emerge from this interplay of identities, the impact of the increasingly reciprocal relationship between textual producers and consumers, and gender differences in fannish meaning-making and interaction. Fan Studies addresses these current issues through some of the most popular fannish texts, including Doctor Who, Torchwood, Star Wars, Star Trek, Supernatural, Smallville and

Twilight. Fan Culture: Theory/Practice is thus designed to challenge some accepted notions, while asking relevant questions about pedagogy. How do we understand the state of the field, and teach fan studies both effectively and responsibly? The essays contained in this volume explore the dominant themes in the field, and seek to situate fan studies as a discipline with a pedagogy of its own.

How Asia Works Joe Studwell,2013-07-02 "A good read for anyone who wants to understand what actually determines whether a developing economy will succeed." —Bill Gates, "Top 5 Books of the Year" An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who the Financial Times said "should be named chief myth-buster for Asian business." In How Asia Works, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell's in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need "export discipline," a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron's stifling of reform to the explosive growth at a Korean steel mill. "Provocative . . . How Asia Works is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic." —The Economist
