Bible as Notepad Liv Ingeborg Lied,Marilena Maniaci,2018-09-10 The present volume provides a comparative look at the contents and layout features of secondary annotations in biblical manuscripts across linguistic traditions. Due to the privileged focus on the text in the columns, these annotations and the practices that produced them have not received the scholarly attention they deserve. The vast richness of extant verbal and figurative notes accompanying the biblical texts in the intercolumns and margins of the manuscript pages have thus been largely overlooked. The case studies gathered in this volume explore Jewish and Christian biblical manuscripts through the lens of their annotations, addressing the various relationships between the primary layer of text and the secondary notes, and exploring the roles and functions of annotated manuscripts as cultural artifacts. By approaching biblical manuscripts as potential notepads, the volume offers theoretical reflection and empirical analyses of the ways in which secondary notes may shed new light on the development and transmission of text traditions, the shifting engagement with biblical manuscripts over time, as well as the change of use and interpretation that may result from the addition of the notes themselves.

Talk to Me Paola Antonelli,2011 Published in conjunction with an exhibition at The Museum of Modern Art, Talk to Me thrives on an important late 20th-

century cultural development in design: a shift from the centrality of function to that of meaning. From this new perspective, objects contain information that goes well beyond their immediate use or appearance, providing access to complex systems and networks and acting as gateways and interpreters. Whether openly and actively, or in subtle, subliminal ways, things talk to us, and designers write the initial script that lets us develop and improvise the dialogue. *Talk to Me* focuses on objects that involve direct interaction, such as interfaces, information systems, communication devices, and projects that establish a practical, emotional or even sensual connection between their users and entities such as cities, companies, governmental institutions, as well as other people. The featured objects range in date from the early 1980s - beginning with the first Graphic User Interface, developed by Xerox Parc in 1981 - with particular attention given to projects from the last five years and to several ones currently in development. Included are a diverse array of examples, from computer and machine interfaces to websites, video games, devices and tools, and installations. Organized thematically, *Talk to Me* features essays by Paola Antonelli, Jamer Hunt, Alexandra Midel, Kevin Slavin, and Koi Vinh. By introducing design practices that are becoming increasingly crucial to our world, the book presents a highly distilled sample of today's best design production that uses technology in creative and unexpected ways, showing how rich and deep design's influence will be on our future.

Rites in the Spirit Daniel E. Albrecht, 1999-12-01 *Rites in the Spirit* is a book about spirituality, ritual, and Pentecostal experience. The volume presents a careful and innovative study of Pentecostal practices and experiences. Focusing on the very important, but often intriguing worship rites that express the spirituality of Pentecostals, Albrecht discovers that these Pentecostal/charismatic rites and their attending sensibilities also function to shape, nurture, authenticate and even transform the spiritual lives of these Christians. *Rites in the Spirit* seeks to guide Pentecostals, and the charismatically-inclined, toward self-interpretation and a more nuanced conception of, and a deeper appreciation for, their Pentecostal experience. The volume also aims to make a sometimes exotic spirituality more accessible and understandable to those who have had limited contact with Pentecostal/charismatic forms and expressions.

The General and the Politician John W. Malsberger, 2014-03-27 As historian and author John W. Malsberger writes in *The General and the Politician*: Dwight Eisenhower, Richard Nixon and American Politics, no two political figures could have taken more different routes to the Presidency than did America's 34th and 37th Commanders in Chief. Thrown together largely for political convenience by a Republican party struggling to reinvent itself through years of post-Depression, Democratic dominance, Dwight Eisenhower and Richard Nixon came to embody two radically different styles of leadership, simultaneously defining – for the American electorate – where American politics had been, and where they were headed. While debate has raged amongst historians over the level of hostility the two men were rumored to harbor for one another, there is – as Malsberger points out – a more accurate reading of their relationship available to us if we examine all the facts. Taken in a broader context, their relationship was much less a momentary collision of dissident styles and values than a genuine watershed moment in American politics, from which our current political spectrum and electorate can trace their roots. *The General and the Politician* thoroughly and accessibly details the intersection of two of 20th-Century America's most powerful figures, and examines their tenuous but transformative relationship to reveal the origins of political discussions and debates that we're still having today.

Asian Canadian Writing Beyond Autoethnography Christl Verduyn, 2008-08-14 *Asian Canadian Writing Beyond Autoethnography* explores some of the latest developments in the literary and cultural practices of Canadians of Asian heritage. While earlier work by ethnic, multicultural, or minority writers in Canada was often concerned with immigration, the moment of arrival, issues of assimilation, and conflicts between generations, literary and cultural production in the new millennium no longer focuses solely on the conflict between the Old World and the New or the clashes between culture of origin and adopted culture. No longer are minority authors identifying simply with their ethnic or racial cultural background in opposition to dominant culture. The essays in this collection explore ways in which Asian Canadian authors (such as Larissa Lai, Shani Mootoo, Fred Wah, Hiromi Goto, Suniti Namjoshi, and Ying Chen) and artists (such as Ken Lum, Paul Wong, and Laiwan) have gone beyond what Françoise Lionnet calls autoethnography, or ethnographic autobiography. They demonstrate the ways representations of race and ethnicity, particularly in works by Asian Canadians in the last decade, have changed have become more playful, untraditional, aesthetically and ideologically transgressive, and exciting.

Ma William and Her Circle of Friends Giftus John, 2011-06-03 Giftus Johns *Ma William and her Circle of Friends* recreates the idyllic life in the village of Senjo with a shopkeeper, Ma William, at its center. Her shop is a mecca of sorts; one where the villagers assemble to discuss the issues that impact their lives. John constructs an edenic landscape where communal activities such as playing mas, helping the local fishermen, attending mass, or going to a religious wake occupy center stage in the lives of the villagers. However, the impression of a settled and close-knit village is illusory. Politics fragments the community. Migration takes a toll as young and old seek supposedly greener pastures. The village is slowly changing as a result of these external forces. The reader is left to wonder whether or not these changes are indeed for the better. Written with great sensitivity and attention to local speech rhythms, Giftus Johns most recent work recreates a life which is slowly witnessing its demise. This book confirms Johns reputation as one of Dominica's finest writers. Justice Irving W. Andr

Student Voice in Mathematics Classrooms around the World Berinderjeet Kaur,Glenda Anthony,Minoru Ohtani,David Clarke,2013-09-06 The Learner's Perspective Study ascribes to the premise that the investigation of social practice within the mathematics classrooms must attend to the learners' practice with at least the same priority as that accorded to the teachers' practice. In focusing on student voice within this partnership, as enacted in many different guises across different cultures and socio-political learning environments, we hope that we will be better informed to understand the relationship between pedagogy and learning mathematics, and between pedagogy and the empowerment of diverse learners. Research findings from the Learner's Perspective Study reported in this book and its companion volumes affirm just how culturally-situated are the practices of classrooms around the world and the extent to which students are collaborators with the teacher, complicit in the development and enactment of patterns of participation that reflect individual, societal and cultural priorities and associated value systems. In this book, we attend closely to this collaboration with our focus on the voice of the student. Collectively, the authors consider how the deliberate inclusion of student voice can be used to enhance our understandings of mathematics classrooms, of mathematics learning, and of mathematics outcomes for students in classrooms around the world. The Learner's Perspective Study aims to juxtapose the observable practices of the classroom and the meanings attributed to those practices by classroom participants. The LPS research design documents sequences of at least ten lessons, using three video cameras, supplemented by the reconstructive accounts of classroom participants obtained in post-lesson video-stimulated interviews, and by test and questionnaire data, and copies of student written material. In each participating country, data generation focuses on the classrooms of three teachers, identified by the local mathematics education community as competent, and situated in demographically different school communities within the one major city. The large body of complex data supports both the characterization of practice in the classrooms of competent teachers and the development of theory.
