Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of

independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book – used as a textbook by Panzer officers in the war – has an introduction and extensive background notes by the modern English historian Paul Harris.

Sometimes You See It Coming Kevin Baker,2009-10-13 Based in part on the life of baseball legend Ty Cobb, this book belongs in the pantheon of great baseball novels. John Barr is the kind of player who isn't supposed to exist anymore. An all-around superstar, he plays the game with a single-minded ferocity that makes his New York Mets team all but invincible. Yet Barr himself is a mystery with no past, no friends, no women, and no interests outside hitting a baseball as hard and as far as he can. Not even Ellie Jay, the jaded sportswriter who can out-think, out-drink, and out-write any man in the press box. She wants to think she admires Barr's skill on a ballfield, but suspects she might be in love with a man who isn't really there. Barr

leads the Mets to one championship after another. Then chaos arrives in the person of new manager Charli Stanzi, well-known psychopath. Under Stanzi's tutelage, the team simply falls apart. Then Barr himself inexplicably starts to unravel. For the first time in his life, his formidable skills fail him, and only Ellie Jay and another can help – if he will let them. Hanging in the balance are his sanity, the World Series, and true love.

how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path.
