*Arctic and Alpine Environments* Jack D. Ives,Roger G. Barry,2019-10-08 Originally published in 1974, *Arctic and Alpine Environments* examines, the relatively simple ecosystems of arctic and alpine lands that still occupy extensive areas little disturbed by modern technology. The book argues that there is a necessity for carefully controlled development of the resources of these regions and suggests that there is a risk of irreversible disturbance without full understanding of these regions. This book provides a detailed documentation of cold-stressed arctic and alpine terrestrial environments and systematically deals with the present and past physical environment – climate, hydrology and glaciology; biota – treeline, vegetation, vertebrate zoology, and historical biogeography; abiotic processes – geomorphological and pedological and the role of man – bioclimatology, archaeology and technological impact, including radioecology. The book will appeal to academics and students of environmental and biological science, as well as providing a significant source for conservationists', government agencies and industrial organizations.

Woods on Road Traffic Offences Oisín Clarke,Matthew Kenny,Mark O'Sullivan,2018-11-16 Road Traffic Offences are by far the most prosecuted type of criminal offence in the Courts of Ireland. *Woods on Road Traffic Offences* provides a single point of reference for road traffic law, covering the investigation, prosecution and the hearing of offence cases. These are set out in a straightforward and helpful manner. The statutory provision is set out along with the potential penalties and possible defences. This new edition has been extensively revised and rewritten. In particular this new edition has been updated to include: - The enactment of Road Traffic act 2010 which substantially overhauls the landscape on driving offences. - New EU rules for maximum daily and fortnightly driving times, as well as daily and weekly minimum rest periods for all drivers of road haulage and passenger transport vehicles. - Legislative changes in the area of Public Service Vehicles - Considerable amendments to the Finance Acts as they relate to Road Traffic Offences The relevant cases, legislation and Acts covered include: - European Union (Road Transport) (Working Conditions and Road Safety) Regulations 2017 - Road Traffic Act 2014 - Taxi Regulation Act 2013 - Road Traffic Act 2010 - Public Transport Regulation Act 2009 - Roads Act 2007 - Waste Management (Amendment) Act 2001 Oisín Clarke BL is a practising barrister specialising in criminal law

*Climate of Sacramento, California* Tony Martini, 1988 Sacramento and the lower Sacramento Valley are blessed with a mild climate and an abundance of sunshine the year-round. The summers are virtually cloudless with warm, dry days and mild, pleasant nights. During the winter rainy season (November through February), over half the total annual precipitation falls, yet rain in measurable amounts occurs only about 10 days monthly during the winter. Mountains surround the Sacramento Valley to the west, north and east. The Sierra Nevada snowfields are only 70 miles east of Sacramento and usually provide a plentiful supply of water to the valley streams during the dry season. Because of the shielding influence of the high mountains, winter storms reach the valley in a modified form. However, torrential rain and heavy snow frequently fall on the western Sierra slopes, the southern Cascades, and to a lesser extent, the Coastal Range. As a result, flood conditions occasionally occur along the Sacramento River and its tributaries. Excessive rainfall and damaging wind storms are rare in the valley--Page 1
