Thinking, Fast and Slow Daniel Kahneman, 2011-10-25 Major New York Times bestseller Winner of the National Academy of Sciences Best Book Award in 2012 Selected by the New York Times Book Review as one of the ten best books of 2011 A Globe and Mail Best Books of the Year 2011 Title One of The Economist's 2011 Books of the Year One of The Wall Street Journal's Best Nonfiction Books of the Year 2011 2013 Presidential Medal of Freedom Recipient Kahneman's work with Amos Tversky is the subject of Michael Lewis's The Undoing Project: A Friendship That Changed Our Minds In his mega bestseller, Thinking, Fast and Slow, Daniel Kahneman, the renowned psychologist and winner of the Nobel Prize in Economics, takes us on a groundbreaking tour of the mind and explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how the two systems shape our judgments and decisions. Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by The New York Times Book Review as one of the ten best books of 2011, Thinking, Fast and Slow is destined to be a classic.

*The Happiness of Enjoying and Making a True and Speedy Use of Christ* Alexander Grosse, 2015-09-13 Alexander Grosse (1596–1654) was an able Puritan minister of presbyterian persuasion who wrote eight influential books from 1632 to 1656, none of which have been reprinted until now. This book, with its intriguing title about making a speedy use of Christ in every situation, is based on Colossians 2:9–10, “For in him dwelleth all the fullness of the Godhead bodily. And ye are complete in him, which is the head of all principality and power.” Grosse first sets forth Christ’s fullness as above all created fullness and shows us the emptiness of everything compared to Christ. He contrasts the folly of not cleaving to and contenting ourselves with Christ to the wisdom of valuing Christ above all else. He then expounds how sinners come to Christ and obtain a saving interest in Him. Next, Grosse stresses how to make use of Christ and how to constantly submit to Him. He stresses the joy of those who are partakers of Christ and shows how believers mature spiritually by communion with Him. Their fullness flows out of apprehending the fullness of Christ. Finally, he expounds four marks that evidence the fullness of believers and provides four motives to labor for more mature fullness in personal spiritual life in and through Christ. Two appendices are added to this excellent, experiential Christ-exalting book—the first on the danger of neglecting Christ and the opportunity of grace and the second on the Lord Jesus as the soul’s sure and last refuge.

**Corporate Wildlife** Thejendra Sreenivas, 2003-07 Management and Business sections of all bookstores are usually filled with hundred and hundreds of serious business books. An employee of today's modern, high-pressure corporate life will find very few books written on the lighter and satirical side of things we normally (or abnormally) do in today's workplace. This book attempts to fill that gap, and is a book about HUMOR in Office & Corporate life. The contents of the book are totally imaginative and are meant to be taken with a pinch of salt, though the paper used may not be edible. A copy of this good for nothing book on every employee's desk will ensure that people switch off doing their work in a serious manner, and start doing the same work in a joyful manner. After all, everyone loves their jobs, but hates the work. Isn't it true?
