CARSON-DELLOSA PUBLISHING.

*Sekabo* Richard Woolley,2014-09-30 'Sekabo' is a thriller set in England in the future (2097) and recent past (1990). An egalitarian enclave with a hi-tech infrastructure that allows everyone to live in prosperity, Sekabo is an idyllic city-state on England's Yorkshire coast ruled by China as part of a debt repayment deal. But can a secret from 1990 that may affect the Royal Family past and present upset this settled world? A recent Cryonics graduate, Samantha (Su-yin) is given the task of rehabilitating a young man deep-frozen in 1990, who is being resuscitated at the request of the English and Chinese governments. An accessible thriller by an award-winning film director, 'Sekabo' is packed with fast-paced action and imaginative descriptions of the social, technological and psychological developments of the future.

*Developing Food Products for Consumers with Specific Dietary Needs* Steve Osborn, Wayne Morley,2016-05-17 *Developing Food Products for Customers with Specific Dietary Needs* explains the process for developing foods for customers who have specific dietary needs, further shining a light on the number of increasing medical conditions related to food intake that have emerged in the past few decades. From increased fat and sugar intake leading to higher levels of obesity, to greater levels of coeliac disease,

the ingredients and nutritional content of food is becoming more and more important. Additionally, consumers are following particular diets for many different reasons, be it health related, or for religious or moral reasons. The first part of the book looks, in detail, at the organizational structure required within a company to allow for the development of food products which meet the needs of these customers, while the second part presents a number of case studies highlighting the development of food products for various dietary requirements. Precise coverage includes section on the development of low-sodium, low-sugar, low-fat, and low-carbohydrate products with the aim of producing healthier foods, as well as the development of organic and vegetarian products for consumers who are following diets for personal reasons. The potential solutions for developing foods for customers who have specific dietary needs are likely to include both ingredients and technology developments. The ingredients area includes simple reductions as well as replacement strategies, whilst technology will be applied to both the ingredient itself and the host food product. All are aimed at maintaining the product quality as perceived by the customer. Provides an overview of the organizational structure required within a company to develop foods for specific customer needs Includes section on the development of low-sodium, low-sugar, low-fat, and low-carbohydrate products with the aim of producing healthier foods Presents case studies that deliver a best practice view on developing foods for customers with specific dietary needs Written by industry professionals, this book offers in-depth coverage of this topic of ever increasing importance to the food industry
