- 2 [ANIMAL WELFARE IN AUSTRALIA](#) PETER JOHN CHEN,2016-10-10 The issue of animal welfare has attracted much attention in Australia in recent decades. Activists and welfare organisations have become increasingly vigorous in promoting a new ethical relationship between humans and animals, and in challenging practices they identify as inhumane. In 2011 this agitation culminated in the temporary suspension of cattle live exports, with significant economic and political implications for Australia. Similar campaigns have focused on domestic food production systems and the use of animals in entertainment. Yet despite this increased interest, the policy process remains poorly understood. Animal Welfare in Australia is the first Australian book to examine the topic in a systematic manner. Without taking a specific ethical position, Chen draws on a wide range of sources – including activists, industry representatives and policy makers – to explain how policy is made and implemented. He explores the history of animal welfare in Australia, examines public opinion and media coverage of key issues, and comprehensively maps the policy domain. He shows how diverse social, ethical and economic interests interact to produce a complex and unpredictable climate. Animal Welfare in Australia will be of interest to scholars and practitioners of public policy, those interested in issues of animal welfare, and anyone wishing to understand how competing interests interact in the contemporary Australian policy landscape.
- 2 [BLACK BOX](#) MARTIN GANTMAN,2018-01-16 In her foreword to the book, Black Box: Decoding the Art Work of Martin Gantman, the noted art historian and artist, Dr. Lise Patt, writes the following: Martin Gantman grew his artistic bones during the last throes of modernism, when art's autonomy had already been undermined and all that remained of this enduring style were the simple, clean lines of formalism. He cut his intellectual teeth on conceptualism, a short-lived art movement with long-ranging impact on art's raison d'être; and developed his visual muscle in the warren of 'posts-' that were coined during the 1980s to lessen history's stranglehold on art's discourses, institutions, and practices. Yet, by the time Gantman hit his stride as a visual artist he had already severed many of the ties that tethered him to these varied movements. If, in 1913, Duchamp drew a line in modernism's sandbox, then by the 1990s Martin Gantman had crossed that line to become a contemporary artist, a practitioner who disavows history and any long-standing art historical style with work that analyses the status of art and the state of the world as they both exist in the here and now. This book describes the theoretical bases, process, and development of the artist, Martin Gantman, through an almost 40-year span of art production. It details the evolution of his practice through 10 individual books, each based on a theoretical or practical interest that compelled him during his years of production.
