with one or both of his daughters. As his eldest daughter, Akilah, finished her final semester at Harvard Business School, she told Rogers that she would like to create with him a Chicago-based real estate venture that included buying, rehabbing and renting homes in the Englewood and South Shore neighborhoods of Chicago. Rogers quickly realized that his biggest challenge was how to equitably structure the ownership of the business. He gathered advice from family business experts and slowly began to build a plan that would benefit each member of his family. Meanwhile, Akilah assumed responsibilities associated with the business as she finished her final semester at HBS. The case ends with Rogers Family Enterprises owning its first three houses. 1. Students learn how to construct an equitable business ownership plan for a family business. 2. Students learn the agreements that family businesses should have in place. 3. Students learn why successful entrepreneurs tend to be those who control the growth of their company while envisioning an empire.

Survival to Thrival Bob Tinker,Tae Hea Nahm,Fernando Pizarro,2018 This first book is about the company journey. Building enterprise startups is different. Products take longer. Go-To-Market strategies are more complex. Common wisdom on product-market-fit is not enough to unlock growth. There is a missing link that we call Go-To-Market Fit. Then, growth happens, and everything changes. The startup suddenly shifts from Survival mode to Thrival mode. Maddeningly, what used to work no longer works for the company and for the people. Becoming a market leader depends on everyone, including the CEO, unlearning the very things that made them successful. Survival to Thrival is a mind-meld of a three-time entrepreneur, a longtime venture capitalist, and other enterprise entrepreneurs that demystifies building enterprise startups. Our mission is to help you succeed, to anticipate what is next, and most importantly, to know that you are not alone.--Amazon.com
