The Presence of the Past in a Spanish Village Ruth

Behar, 2014-07-14 This study of a northern Spanish community shows how the residents of Santa MarÁa del Monte have acted together at critical times to ensure the survival of their traditional forms of social organization. The survival of these forms has allowed the villagers, in turn, to weather demographic, political, and economic crises over the centuries. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Chet: Whispers From the Past Larry Murray, 2014-01-25 30

years ago Charles Tucker lost everything that made life worth living. A brutal car accident killed his son. A short time later painful cancer took his wife. The arrival of the Saunders family casts Charles' life into turmoil, tearing open unhealed wounds. Without his help the Saunders' financial troubles threaten to destroy them, but helping them risks destroying everything Charles spent a lifetime building. Over all the turmoil looms Chet, the battered old '64 Chevy pickup that carried Charles' son to his death. For 29 years Charles blamed the old pickup for his devastating losses, locking Chet away in an old barn. The most intriguing mysteries refuse to stay locked up. Solving this one promises an enchanting adventure for the whole family. Publisher's note: Whispers From the Past is the first in the Chet series of inspirational fiction books. This heart warming story shares Christian values in a coming of age setting that is suitable for adult and young adult readers alike. Larry Murray is a successful author who prides himself on writing

values based novels that timelessly connect with people across generations. The Chet series is published by Sandy Cedars Publishing and is available as eBook and print editions.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

20 Years since the Fall of the Berlin Wall Elisabeth Bakke,Ingo Peters,2011-01-01 HauptbeschreibungOn 9 November 1989, the Berlin Wall was opened, signalling the beginning of the end of the communist regimes in Central and Eastern Europe. By 1990, free elections had been held in most countries in the region. Forty - in some cases fifty - years of communism had come to an end. However, the 'revolutions' of 1989 were not uniform processes: the starting points were different, the trajectories were different - and outside Central Europe even the outcomes of the transitions from communism were different. The fall of communism also caused the Soviet empire to crumble, and the Soviet Union itself fell apart in December 1991 - as did Czechoslovakia in 1993, and Yugoslavia in a gradual process that was to last from 1991 to 2008. This book originated in a conference held in Oslo 11-13 November 2009, arranged by the E.ON Ruhrgas scholarship programme for political science, and commemorating the 20th anniversary of the 'revolutions' in Central and Eastern Europe. The 16 chapters take stock of developments after 1989, with special

emphasis on the causes and effects of the transitions, including the processes of state unification and separation that followed in the wake of the 'revolutions'. The book is divided into four main parts: regime transitions from communism; state unification and separation; party system continuity and change since 1989 (in Germany, the Czech Republic, Hungary, and Poland); and on the effects of German unification on external and internal German relations. The geographical scope thus varies from chapter to chapter, but the main emphasis is on Germany and its closest Central European neighbours. Elisabeth Bakke is Associate Professor at Department of Political Science, University of Oslo. Ingo Peters is Associate Professor at Department of Political and Social Sciences, Otto Suhr Institute of Political Science, Freie Universität Berlin.

From The Past To The Future: The Legacy Of Lev Lipatov Joachim Bartels,Victor Fadin,Eugene Levin,Aharon Levy,Victor Kim,Agustin Sabio-vera,2021-11-10 This book has been designed to honor Lev Nikolaevich Lipatov, as a person and as one of the leading scientists in theoretical high energy physics.The book begins with three articles on Lev as a person, written endearingly by family members, a very close friend and Physics professor, Eugene Levin, and another outstanding scientist, Alfred Mueller. The book further collects 18 articles by several scientists who closely knew and/or collaborated with Lev.With an overarching range over various subfields, the book summarizes parts of Lev's achievements, presents new results which are based upon Lev's work, and paints an outlook on possible future developments. Lev's theoretical work has had an influential impact on phenomenology and experimental high energy physics; befittingly, this collection also includes several articles on these experimental

aspects.

Financial Concerns and the Marginal Propensity to Consume in COVID Times: Evidence from UK Survey Data

Bruno Albuquerque, Georgina Green, 2022-03-04 We study how household concerns about their future financial situation may affect the marginal propensity to consume (MPC) during the COVID-19 pandemic. We use a representative survey of UK households to compute the MPC from a hypothetical transfer of £500. We find that household expectations play a key role in determining differences in MPCs across households: households concerned about not being able to make ends meet have a 20% higher MPC than other households. Our findings suggest that policies targeted to vulnerable and financially distressed households may prove more effective in stimulating demand than providing stimulus payments to all households.
