Truth Like the Sun Jim Lynch, 2012-04-10 A classic and hugely entertaining political novel, the cat-and-mouse story of urban intrigue in Seattle

both in 1962, when Seattle hosted the World's Fair, and in 2001, after its transformation in the Microsoft gold rush. Larger than life, Roger Morgan was the mastermind behind the fair that made the city famous and is still a backstage power forty years later, when at the age of seventy he runs for mayor in hopes of restoring all of Seattle's former glory. Helen Gulanos, a reporter every bit as eager to make her mark, sees her assignment to investigate the events of 1962 become front-page news with Morgan's candidacy, and resolves to find out who he really is and where his power comes from: in 1962, a brash and excitable young promoter, greeting everyone from Elvis Presley to Lyndon Johnson, smooth-talking himself out of difficult situations, dipping in and out of secret card games; now, a beloved public figure with, it turns out, still-plentiful secrets. Wonderfully interwoven into this tale of the city of dreams are backroom deals, idealism and pragmatism, the best and worst ambitions, and all the aspirations that shape our communities and our lives.

*Twelve Years a Slave* Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Gas Phase Nanoparticle Synthesis** Claes Granqvist, Laszlo Kish, William Marlow, 2004-12-10 This book deals with gas-phase nanoparticle synthesis and is intended for researchers and research students in nanomaterials science and engineering, condensed matter physics and chemistry, and aerosol science. Gas-phase nanoparticle synthesis is instrumental to nanotechnology—a field in current focus that raises hopes for environmentally benign, resource-lean manufacturing. Nanoparticles can be produced by many physical, chemical, and even biological routes. Gas-phase synthesis is particularly interesting since one can achieve accurate manufacturing control and hence industrial viability. Nanotechnology is popular today. However, basic scientific aspects of the relevant, underlying processes have not received sufficient attention. This book fills the gap in the current literature by addressing certain fundamentals of gas-phase nanoparticle synthesis. Chapters cover topics such as forces within and dynamics of nanoparticle systems, gas evaporation and deposition, laser assisted nanoparticle synthesis, and nanoparticle fabrication via flame processes. A chapter on in-situ structural studies of nanoparticles undergoing growth complements the exposition.
