**A Dictionary of Sexual Language and Imagery in Shakespearean and Stuart Literature** Gordon Williams, 2001-09-13 Providing an alphabetical listing of sexual language and locution in 16th and 17th-century English, this book draws especially on the more immediate literary modes: the theatre, broadside ballads, newsbooks and pamphlets. The aim is to assist the reader of Shakespearean and Stuart literature to identify metaphors and elucidate meanings; and more broadly, to chart, through illustrative quotation, shifting and recurrent linguistic patterns. Linguistic habit is closely bound up with the ideas and assumptions of a period, and the figurative language of sexuality across this period is highly illuminating of socio-cultural change as well as linguistic development. Thus the entries offer as much to those concerned with social history and the history of ideas as to the reader of Shakespeare or Dryden.

**Representation Type of Commutative Noetherian Rings III: Global Wildness and Tameness** Lee Klingler, Lawrence S. Levy, 2005 This memoir completes the series of papers beginning with [KL1, KL2], showing that, for a commutative noetherian ring  $\Lambda$ , either the category of  $\Lambda$ -modules of finite length has wild representation type or else we can describe the category of finitely generated  $\Lambda$ -modules, including their direct-sum relations and local-global relations. (There is a possible exception to our results, involving characteristic 2.)

Head First Java Kathy Sierra, Bert Bates, 2005-02-09 Learning a complex new language is no easy task especially when it's an object-oriented computer programming language like Java. You might think the problem is your brain. It seems to have a mind of its own, a mind that doesn't always want to take in the dry, technical stuff you're forced to study. The fact is your brain craves novelty. It's constantly searching, scanning, waiting for something unusual to happen. After all, that's the way it was built to help you stay alive. It takes all the routine, ordinary, dull stuff and filters it to the background so it won't interfere with your brain's real work--recording things that matter. How does your brain know what matters? It's like the creators of the Head First approach say, suppose you're out for a hike and a tiger jumps in front of you, what happens in your brain? Neurons fire. Emotions crank up. Chemicals surge. That's how your brain knows. And that's how your brain will learn Java.

Head First Java combines puzzles, strong visuals, mysteries, and soul-searching interviews with famous Java objects to engage you in many different ways. It's fast, it's fun, and it's effective. And, despite its playful appearance, Head First Java is serious stuff: a complete introduction to object-oriented programming and Java. You'll learn everything from the fundamentals to advanced topics, including threads, network sockets, and distributed programming with RMI. And the new, second edition focuses on Java 5.0, the latest version of the Java language and development platform. Because Java 5.0 is a major update to the platform, with deep, code-level changes, even more careful study and implementation is required. So learning the Head First way is more important than ever. If you've read a Head First book, you know what to expect--a visually rich format designed for the way your brain works. If you haven't, you're in for a treat. You'll see why people say it's unlike any other Java book you've ever read. By exploiting how your brain works, Head First Java compresses the time it takes to learn and retain--complex information. Its unique approach not only shows you what you need to know about Java syntax, it teaches you to think like a Java programmer. If you want to be bored, buy some other book. But if you want to understand Java, this book's for you.

*Ethnicity, Class, and Nationalism* Anton L. Allahar, 2005-06-28 In the interest of locating race and ethnicity as sociological and political categories that are inimical to contemporary conceptions of the nation state, editor Anton L. Allahar explores the geopolitics of the Caribbean through a comparative focus. The result is a study that is unique in scope and also in its level of scholarly reflection. This book is the first of its kind. It is essential reading for anyone interested in advancing their analysis of political, economic, social, and cultural thought in the Caribbean and other former colonial modern nations.

The Other Journal: Health Andrew Shutes-David, 2019-10-04 The Other Journal is a space for Christian interdisciplinary theological reflection that tackles the cultural crises of our time with verve and peculiar slant, advancing a progressive, provocative, and charitable response in sync with the peacefully contrarian Christ. In this issue, we address the theme of health by reading of a spouse who is emptied into the relentless repetition of caring for a dying husband. We meet parents who wrestle with what it means to birth children and watch them grow. And we learn that physical, mental, and spiritual health requires lending a hand to our fellow travelers just as Jesus extended his hands to us. Our health issue features prose by Lucy Bryan, Jason Byassee, Michael Dean Clark, Dave de la Fuente, Lauren Frances Evans, Elizabeth Felicetti, Jonathan Hiskes, Rachel Pieh Jones, Jennifer Lamson-Scribner, Daniel Rempel, Kate Roberts, Jonathan Tran, Mark C. Watney, and Rita Willett; poetry by Susan Carlson, Judith H. Montgomery, and Angela Alaimo O'Donnell; linocut prints by Kate Roberts; and mixed media by Lauren Frances Evans.

**Abraham Lincoln, Public Speaker** Waldo W. Braden, 1993-07-01 In *Abraham Lincoln, Public Speaker*, Waldo W. Braden presents a thought-provoking study of the sixteenth president's rhetorical style. In his discussion of Lincoln's speaking practices from 1854 through 1865, Braden draws extensively on Lincoln's papers and the reports of those who knew him and heard him speak. He portrays Lincoln in his various shows how Lincoln adapted to the public's growing recognition of his political abilities. In separate chapters devoted to Lincoln's three most famous speeches—the First Inaugural Address, the Gettysburg Address, and the Second Inaugural Address—Braden analyzes the ways in which each demonstrated Lincoln's persuasive abilities during the difficult years of the Civil War. Braden does not claim that Lincoln was an orator in the grand, classical style of Daniel Webster, Edward Everett, and Charles Sumner. But he shows that Lincoln was a gifted speaker in his own right, able to win support by demonstrating that he was a man of common sense and good moral character.

Words in Time and Place David Crystal, 2014-09-18 Did you know that the English language has over 150 words for the adjective 'drunk' developed over 1,000 years? Be prepared to learn words you have never heard before, find out fascinating facts behind everyday words, and be surprised at how lively and varied the English language can be. Published to critical acclaim in 2009, the

Historical Thesaurus of the Oxford English Dictionary is the first comprehensive thesaurus in the world to arrange words by meaning in order of first recorded use. Using its unique perspective on how the English language has developed, *Words in Time and Place* takes 15 themes and explores the language in these areas over time - explaining when new words appeared, where they came from, and what such changes say about times in which they emerged. The themes chosen are varied, universal topics and show the semantic range of the thesaurus and what it can tell us about the words used in areas of everyday life. Learn about the different words for dying and money, or types of pop music, as well as words for a privy, oaths, and words for being drunk. Written by the world's leading expert on the English language, David Crystal, the book carries his trademark style of engaging yet authoritative writing. Each chapter features an introduction to the language of that topic, followed by a timeline of vocabulary taken from the historical thesaurus showing all the synonyms arranged in chronological order. The timelines are annotated with additional quotations, facts, and social and historical context to give a clear sense of how words entered the English language, when, and in which context they were used. *Words in Time and Place* showcases the unique and excellent resource that is the Historical Thesaurus and reveals the linguistic treasures to be found within. This fascinating book will appeal to anyone with an interest in words and in the development of the English language.

**A New Variorum Edition of Shakespeare: The tempest. 11th ed. 1892** William Shakespeare, 1892

**11C1p** James M. Mallen, 2012-09-21 This is the report of an American Paratrooper, Infantry, boots on the ground, in Viet Nam in the mid 1960s. It is not a romanticized, sanitized, fantasized Hollywood version of ground combat. It is a description of life on the ground for your military grandfathers, fathers, uncles and brothers. When they returned from Viet Nam, this is not what they talked about. It was too painful, too raw, too uncivilized and too inhuman. The accumulated fear and pain of a full year's tour of duty was over-whelming, physically and as modern research shows, psychically. They didn't want to talk about it, they didn't want to think about it. This is a description of what they endured. Your grandfathers, fathers, sons, uncles and friends were pushed beyond any reasonable limits of human physical and mental endurance and it ultimately had a lifelong bad effect on their bodies and mind. They were called by their Country, as volunteers or as draftees, to be on the front lines in a war of ideas, in the middle of political debates wherein the good citizens had no idea of what was required of their young citizens and their families. This is my story but it is also the story of thousands of young citizens who answered their Country's call. May God bless every one of you and your families who suffered along with you. All the Way.
