**Fifty** Jon Driscoll,2020-11-02 Football's Fifty Most Influential Players tells the story of football through its best and most influential players, from the 19th century to the modern day. Most of the 50 are household names-Pele, Charlton, Maradona, Jimmy Hill, Matthews, Best, Zidane, and Messi-and those who aren't certainly deserve to be. You'll read about football's first black superstar Jose Andrade, a 1930 World Cup winner with Uruguay who died in poverty. There's Lily Parr, a Woodbine-smoking behemoth of the women's game who is more famous now than when she died. Then there's Robbie Rogers, the second male footballer in Britain to come out as gay. Though Rogers wasn't a great player, his story will restore some faith after Justin Fashanu's appalling experiences as a gay footballer in the 1980s. Similarly, Jean-Marc Bosman made an indelible mark, not on the pitch but through the courts, changing the way footballers are treated forever. It's not about the stats, tactics, or managers-this is the players' story, from war heroes and match-fixers to superstars and an African president.

**Greatest Sports Heroes of All Times** Paul J. Christopher,Alicia Marie Smith,2006-08 Hold it! You really think we can come up with 50 greatest sports heroes? Well, we can and we have. Our heroes are not simply limited to the most popular spectator sports. On occasion our heroes go back several generations, not just to the names in the papers or the sports talk shows. Who are they? Well, certainly Jordan, Woods and Ming...but are you old enough to remember Max Schmeling or George Best? There are a lot more where they come from...skiers, cyclists, golfers and runners-all the best and more. What did they do and why are they great? The book offers: a quick, personal biography of each of our famous athletes; summary statistics of some of the most important successes; the good, the bad and the ugly of their sports careers; why these individuals went on to influence their sport; and trivia questions to challenge your knowledge and more.

**The Sports Hall of Fame Encyclopedia** David Blevins,2012 Provides a comprehensive listing, including biographical information and statistics, of each athlete inducted into one of the major sports halls of fame.

**Explorations in Automatic Thesaurus Discovery** Gregory Grefenstette,2012-12-06 Explorations in Automatic Thesaurus Discovery presents an automated method for creating a first-draft thesaurus from raw text. It describes natural processing steps of tokenization, surface syntactic analysis, and syntactic attribute extraction. From these attributes, word and term similarity is calculated and a thesaurus is created showing important common terms and their relation to each other, common verb--noun pairings, common expressions, and word family members. The techniques are tested on twenty different corpora ranging from baseball newsgroups, assassination archives, medical X-ray reports, abstracts on AIDS, to encyclopedia articles on animals, even on the text of the book itself. The corpora range from 40,000 to 6 million characters of text, and results are presented for each in the Appendix. The methods described in the book have undergone extensive evaluation. Their time and space complexity are shown to be modest. The results are shown to converge to a stable state as the corpus grows. The similarities calculated are compared to those produced by psychological testing. A method of evaluation using Artificial Synonyms is tested. Gold Standards evaluation show that techniques significantly outperform non-linguistic-based techniques for the most important words in corpora. Explorations in Automatic Thesaurus Discovery includes applications to the fields of information retrieval using established testbeds, existing thesaural enrichment, semantic analysis. Also included are applications showing how to create, implement, and test a first-draft thesaurus.

*No Curveballs* Bill Werndl,Joe Vallee,2016-09-21 When you've amassed a career in sports spanning 50 years, you're bound to have some great stories, and Bill Werndl has plenty. From his humble upbringing in Sharon Hill, Pennsylvania, to becoming the first full-time sports producer in Philadelphia news, to his ascension as one of San Diego's most popular sports talk radio hosts, Bill shares some of his most memorable and previously untold stories from a remarkable journey that was half a century in the making in No Curveballs: My Greatest Sports Stories Never Told. Bill's very first book covers it all: From his summers spent in Akron, Ohio as a youngster, when he answered sports trivia questions for root beer, to his very first professional interview with NBA legend Wilt Chamberlain, his time spent with the 1970s Philadelphia Flyers (aka the Broad Street Bullies), his work with Ourlad's Guide to the NFL Draft, an infamous encounter with broadcaster Howard Cosell, his impressions of a young M.C. Hammer, a run in with an angry Dan Dierdorf, his friendships with baseball greats Ted Williams, Tony Gwynn, Mike Piazza and Dick Allen, how he gave Major League Baseball Hall of Famer and Philadelphia Phillies great Mike Schmidt his first break in television, as well as the day he got body slammed by Eagles Hall of Famer Chuck Bednarik. Bill also discusses his relationship with legendary Super Bowl-winning coach Dick Vermeil, his spotting career for the Philadelphia Eagles, ESPN and various other networks, including his shortest day ever spent in Japan. Never one to shy away from giving an opinion, Bill also discusses the use of steroids in baseball, and his controversial take on baseball's handling of Pete Rose, the lack of passion in today's athletes, the night that ABC Monday Night Baseball missed an opportunity to break racial boundaries, and more! No Curveballs also features insights from the late, iconic Philadelphia Daily News sportswriter, Stan Hochman, Bill's fellow Loose Cannon radio co-host, Steve Hartman, and more! Writer Joe Vallee (A Snowballs Chance: Philly Fires Back Against the National Media) was assigned the task of putting into words the no-holds-barred look at the life and times of one of the most diverse and accomplished personalities in the world of sports. Vallee, a former Philadelphia Phillies bat boy and one of the founders of the website Philly2Philly.com, is considered an authority on the history and inner workings of Philadelphia's often-maligned

but beloved sports teams. No Curveballs: My Greatest Sports Stories Never Told is a biographical, controversial, informative and always entertaining read. Bill wouldn't have it any other way.

Butterworth, 2021-02-02 Communication and Sport: Surveying the Field provides students with an understanding of sports media, rhetoric, culture, and organizations through an examination of a wide range of topics. Authors Andrew C. Billings and Michael L. Butterworth address everything from youth to amateur to professional sports through varied lenses, including mythology, community, and identity. The Fourth Edition includes new interviews with prominent figures in the field and new discussions on current events like the Black Lives Matter movement and the COVID-19 pandemic.

*Golf Balls, Boomerangs and Asteroids* Brian H. Kaye, 2008-07-11 Exciting reading for anyone with a curious mind! 'Walking one day by a golf course in Wisconsin, I was startled to hear a sharp bang as a golf ball narrowly missed my head and hit a tree. My companion cheerfully remarked, 'That could have killed you, you know.' I picked up the innocent looking little white ball and looked at it with new respect.' Prompted by this perilous experience, Brian Kaye has written a delightful and informative book on the design and behavior of different kinds of missiles from golf balls, arrows, and slingshots to comets and rockets to outer space. You'll learn about the science of tennis and find the answer to questions like why a golf ball has dimples or why a boomerang comes back. Don't miss Brian Kaye's latest, you'll be amused and amazed - and learn some physics to boot.
