Sporting Oregon Brian S. Campf, 2019 For more than twenty-five years, Brian Campf collected vintage photographs and ephemera related to Oregon sports. Sporting Oregon includes approximately 350 images from Campf's extensive collection that offer an overview of the first fifty years of organized sports in Oregon, primarily baseball, football, and basketball, but also such pastimes as horse racing, track, hockey, tennis, and cricket. In his introduction, Campf traces the origins of team sports in Oregon, using period newspaper accounts to chronicle the increasing participation in and popularity of organized sports in the state. Detailed captions provide additional information on how and where the sports developed, on team histories, and on records of games and seasons. The book features a number of images from early Oregon Agricultural College (now OSU) and University of Oregon teams. The book's images range from historically significant (the earliest original photo of Oregon sports) and diverse (women's basketball, African American baseball) to athletes representing towns, schools, and organizations across Oregon. It is a book about sports but the images also reflect the people, places, and society of their time. Sporting Oregon is intended for readers interested in sports history, Oregon history, vintage photography, Americana, and local history. A foreword by historian Carl Abbott and an afterword by special collections librarian John Hawk provide additional context for the visual treasure trove. Packed with images from the past that provide a fascinating lens through which to view Oregon history, Sporting Oregon's pages will be savored and lingered over by people of all ages, by scholars and casual readers alike.

San Francisco Bay Area Sports Rita Liberti, Maureen Smith, 2017-03-15 San Francisco Bay Area Sports brings together fifteen essays covering the issues, controversies, and personalities that have emerged as northern Californians recreated and competed over the last 150 years. The area's diversity, anti-establishment leanings, and unique and beautiful natural surroundings are explored in the context of a dynamic sporting past that includes events broadcast to millions or activities engaged in by just a few. Professional and college events are covered along with lesser-known entities such as Oakland's public parks, tennis player and Bay Area native Rosie Casals, environmentalism and hiking in Marin County, and the origins of the Gay Games. Taken as a whole, this book clarifies how sport is connected to identities based on sexuality, gender, race, and ethnicity. Just as crucial, the stories here illuminate how sport and recreation can potentially create transgressive spaces, particularity in a place known for its nonconformity.

The Upstander Jori Epstein, 2021-03-23 The stench of decay pierced the air aboard the boxcar of trapped Jews. "Why me?" fifteen-year-old Max asked himself, as a convoy rumbled from the Warsaw Ghetto to Majdanek death camp in May 1943. The Nazis had destroyed the Glauken family's business, upended their rights, and ultimately decimated their neighborhood. The deluge of questions would only intensify after the Nazis murdered Max's mother, father, and brother. Max channeled grit, determination, and a fortuitous knack for manufacturing airplane parts to outlast six horrific concentration camps in his quest to survive. This memoir explores Max's mischievous childhood and teen years as a go-to ghetto smuggler. Max journeys from displaced person to American immigrant and Korean veteran. He reveals how he ached as he dared to court love and rear children. For decades, he bottled up his trauma. Then he realized: He could transform his pain into purpose. Infused with raw emotion and vivid detail, historical records and Max's poignant voice, this memoir relays the true story of the harrowing violence and dehumanization Max endured. It relays Max's

powerful lifetime commitment to actively thwarting hate and galvanizing resilience. Max insists you, too, can transform your adversity into your greatest strength. In the seventy-five years since his liberation, Max has ceased to ask himself, "Why me?" Instead, he reframes his focus, eager to partner with you and ask: "What can we do next?"

Sport, Recreation and Green Space in the European City Peter Clark,Marjaana Niemi,Jari Niemelä,2009-12-31 Green space has become a major issue in European cities in recent years as a result of enhanced environmental awareness, urban marketing, planning policy and growing population densities. Up to now, however, the subject of sports areas and grounds has attracted little research, despite the fact that since the First World War such public and private areas – from football pitches and running tracks to golf courses and tennis courts – have often comprised one of the most important and extensive types of green space in the European city. This book presents a pioneering comparative and multidisciplinary analysis of the development, use and impact of sports areas in the European city from the start of the 20th century up to the present time. Employing a range of historical, spatial and ecological approaches it examines when and why sports areas evolved, the contribution of municipalities and the private sector, the role of gender and class, and the impact on the urban landscape and ecology. Chapters cover urban sports areas in Finland, Britain, the Netherlands, Germany and Italy, illustrating the contrasts in the provision of green space across Europe.
