*The Trial of a Nazi Doctor* Andrew Wisely,2024-05-01 The Trial of a Nazi Doctor examines the life of Franz Bernhard Lucas (1911-1994), an SS camp doctor with assignments in Auschwitz, Mauthausen, Stutthof, Ravensbrück, and Sachsenhausen. Covering his career during the Third Reich and then his prosecution after 1945, especially in the Frankfurt Auschwitz trial, Andrew Wisely explores the lies, obfuscations, misrepresentation, and confusions that Lucas himself created to deny, distract from or excuse his participation in the Nazi's genocidal projects. By juxtaposing Lucas's own testimonies and those of a wide range of witnesses: former camp inmates and Holocaust survivors; friends, colleagues, and relatives; and media observers, Wisely provides a nuanced study of witness testimonies and the moral identity of Holocaust perpetrators.

The sources for the unit labor cost data are the OECD Analytical Database (quarterly unit labor cost in manufacturing) and IMF staff (annual data interpolated into higher frequencies). Euro

area unit labor cost is used as a proxy for a number of economies for which data are unavailable: Cyprus, Czech Republic, Estonia, Latvia, Lithuania, Malta, and Slovak Republic. For manufactured goods, trade by type of good and market is distinguished in the database. For primary products, the weights assigned depend principally on a country's role as a global supplier or buyer of the product. Trade in crude petroleum, petroleum, and other energy products are excluded. For some countries that heavily depend on tourism, bilateral exports of tourism services averaged over 2004–2006 are also included in calculating the competitiveness weights.

*Destiny in the Desert* Jonathan Dimbleby,2021-11-15 The definitive history of the battle of El Alamein?The end of the beginning, as Churchill said?the bloody conflict that would change the course of World War II. It was the Allied victory at the Battle of El Alamein in November 1942 that inspired one of Churchill's most famous aphorisms: “This is not the end, it is not even the beginning of the end, but it is, perhaps, the end of the beginning.” In this thrilling historical account, Jonathan Dimbleby describes the political and strategic realities that lay behind the battle, charting the nail-biting months that led to the victory at El Alamein in November 1942. Drawing on official records and the personal insights of those involved, Dimbleby creates a vivid portrait of a struggle which for Churchill marked the turn of the tide?and which for the soldiers on the ground involved fighting and dying in a foreign land. 16 pages of B&W photographs

Imagination, Illness and Injury Melanie Starr Costello,2013-10-31 How does the body influence the way we see the world? Imagination, Illness and Injury examines the psychological factors behind perceptual limitations and distortions and links a broad range of somatic manifestations with their resolution. Melanie Starr Costello applies Jungian theory to a variety of cases, attributing psychosomatic phenomena to cognitive processes that are common to us all. She analyses the role of illness in several life narratives, and interprets the appearance of somatic phenomena during important phases of analytic treatment. Together these case narratives present a significant challenge to established views of psychosomatics. Subjects covered

include: archetypal constrictions of identity somatic elements of perception the psyche-soma split. Imagination, Illness and Injury brings a fresh perspective to the understanding and treatment of the psychotherapy client as a psycho-somatic unity. Jungian analysts, psychoanalysts, and psychotherapists will greatly benefit from the clinical applications of archetypal theory presented here.
