One Year on a Bike Martijn Doolaard,2017 Martijn Doolaard traded in the convenience of a car and the distractions of daily life for a cross-continental cycling journey: a biped adventure from Amsterdam to Singapore. Leaving behind repetitive routines, *One Year on a Bike* indulges in slow travel, the subtlety of a gradually changing landscape, and the lessons learned through travelling. Venturing through Eastern European fields of yellow rapeseed to the intimate hosting culture in Iran, *One Year on a Bike* is a vivid chronicle of what can happen when the norm is pointedly replaced by exceptional self-discoveries and beautiful sceneries. Doolaard shares the gear and knowledge that made his trip possible. -- Provided by publisher.

Bicycling with Butterflies Sara Dykman,2021-04-13 "What a wonderful idea for an adventure! Absolutely inspired, timely, and important." —Alistair Humphreys, National Geographic Adventurer of the Year and author of *The Doorstep Mile* and *Around the World by Bike* Outdoor educator and field researcher Sara Dykman made history when she became the first person to bicycle alongside monarch butterflies on their storied annual migration—a round-trip adventure that included three countries and more than 10,000 miles. Equally remarkable, she did it solo, on a bike cobbled together from used parts. Her panniers were recycled buckets. In *Bicycling with Butterflies*, Dykman recounts her incredible journey and the dramatic ups and downs of the nearly nine-month odyssey. We're beside her as she navigates unmapped roads in foreign countries, checks roadside milkweed for monarch eggs, and shares her passion with eager schoolchildren, skeptical bar patrons, and unimpressed border officials. We also meet some of the ardent monarch stewards who supported her efforts, from citizen scientists and researchers to farmers and high-rise city dwellers. With both humor and humility, Dykman offers a compelling story, confirming the urgency of saving the threatened monarch migration—and the other threatened systems of nature that affect the survival of us all.

It's Not About the Bike Lance Armstrong,2001 The champion cyclist recounts his diagnosis with cancer, the grueling treatments during which he was given a less than twenty percent chance for survival, his surprising victory in the 1999 Tour de France, and the birth of his son.

The Mechanical Horse Margaret Guroff,2016-04-05 With cities across the country adding miles of bike lanes and building bike-share stations, bicycling is enjoying a new surge of popularity in America. It seems that every generation or two, Americans rediscover the freedom of movement, convenience, and relative affordability of the bicycle. The earliest two-wheeler, the draisine, arrived in Philadelphia in 1819 and astonished onlookers with the possibility of propelling themselves "like

lightning." Two centuries later, the bicycle is still the fastest way to cover ground on gridlocked city streets. Filled with lively stories, *The Mechanical Horse* reveals how the bicycle transformed American life. As bicycling caught on in the nineteenth century, many of the country's rough, rutted roads were paved for the first time, laying a foundation for the interstate highway system. Cyclists were among the first to see the possibilities of self-directed, long-distance travel, and some of them (including a fellow named Henry Ford) went on to develop the automobile. Women shed their cumbersome Victorian dresses—as well as their restricted gender roles—so they could ride. And doctors recognized that aerobic exercise actually benefits the body, which helped to modernize medicine. Margaret Guroff demonstrates that the bicycle's story is really the story of a more mobile America—one in which physical mobility has opened wider horizons of thought and new opportunities for people in all avenues of life.
