Tables of IGC Cosmic Ray Data J. A. Simpson,2013-10-22 Annals of the International Geophysical Year, Volume 28: Tables of IGC Cosmic Ray Data, Part III contains tabulations of International Geophysical Cooperation's cosmic ray activity data. This book includes lists of stations and investigators from whom further information on the cosmic ray apparatus can be obtained. In order to prepare the data on the following pages for publication, the data are first put on punched cards and then checked for correctness essentially by repunching, thus minimizing errors of transcription and also facilitate some computations which have been made with some of the data. Tabulating machines are then used to print the data on standard forms and the data are photographed for reproduction. As a further insurance against errors, carbon copies of the data sheets are sent to all investigators to be

checked. The data marked as verified in the table of contents have been returned to the data center and the corrections made. This book will prove useful to geophysical researchers.

Mission, Science, and Race in South Africa Keith Snedegar, 2015-09-17 This book examines the cultures of colonial science, missionary education, and racial politics in South Africa through the life of A. W. Robert, a key participant in all three fields. This study gives insight into the porous nature of categories such as missionary evangelism, research in the physical sciences, and racial politics, which

are traditionally segregated from one another in historical discourse.
