Tijd is Jenny Odell,2023-10-05 Jenny Odell, een van de favoriete auteurs van Obama, biedt een bevrijdend perspectief op tijd. Odell helpt ons los te komen van het allesverslindende kapitalisme en de aandachtseconomie. ‘Tijd is is urgent en zet de persoonlijke preoccupatie met tijd in een breder perspectief.’ – NRC ‘Zoals een goed boek dat kan, greep het me bij vlagen zo dat mijn gevoel van tijd veranderde.’ – De Correspondent In Tijd is biedt New York Times-bestsellerauteur Jenny Odell een radicaal nieuw perspectief op wat tijd voor ons betekent. Vaak lijkt het alsof we de slaaf zijn van onze agenda, dat we tijd te kort komen om alle taken te volbrengen. Volgens Odell komt dit omdat we het slachtoffer zijn van een verkeerd begrip van tijd. Zij duikt in filosofie en geschiedenis, maar kijkt ook naar ervaringen van tijd in de wereld om haar heen. Daarnaast bespreekt ze hoe oorspronkelijke Amerikanen tijd ervaren en gaat daarbij terug naar haar eigen roots. Tijd is biedt een caleidoscopisch perspectief op een beter leven. Een bevrijdend boek, dat hard nodig is.

Future of Jobs IntroBooks Team, Times are changing and the labor markets are under immense burden from the collective effects of various megatrends. Technological growth and grander incorporation of economies along with global supply chains have been an advantage for several workers armed with high skills and in growing occupations. However, it is a challenge for workers with low or obsolete skills in diminishing zones of employment. Business models that are digitalized hire workers as self-employed instead of standard employees. People seem to be working and living longer, but they experience many job changes and the peril of skills desuetude. Inequalities in both

quality of job and earnings have increased in several countries. The depth and pace of digital transformation will probably be shocking. Industrial robots have already stepped in and artificial intelligence is making its advance too. Globalization and technological change predict the great potential for additional developments in labor market performance. But people should be ready for change. A progression of creative annihilation is probably under way, where some chores are either offshored or given to robots. A better world of for jobs cannot be warranted – a lot will be contingent on devising the right policies and institutes in place.

Environmental Education in Indonesia Lyn Parker,Kelsie Prabawa-Sear,2019-08-08 Indonesia's wealth of natural resources is being exploited at breakneck speed, and environmental awareness and knowledge among the populace is limited. This book examines how young people learn about the environment to see how education can help to develop environmental awareness and avert vast environmental destruction, not only in Indonesia, but also in the Global South more generally. Based on in-depth studies conducted in the cities of Yogyakarta and Surabaya, complemented with surveys of students in secondary schools, *Environmental Education in Indonesia* examines educational curricula, pedagogy and green activities to reveal what is currently being done in schools to educate children about the environment. The book investigates the shortcomings in environment education, including underqualified teachers, the civil service mentality, the still-pervasive chalk-and-talk pedagogy and the effect of the examination system. It also analyses the role of local government in supporting (or not) environmental education, and the contribution of environmental NGOs. The book establishes that young people are not currently being exposed to effective environmental education, and the authors propose that the best and most culturally appropriate way forward in Indonesia is to frame pro-environment behaviour and responsibility as a form of citizenship, and specifically that environmental education should be taught as a separate subject. This book will be of great interest to students and scholars of contemporary Indonesia and Southeast Asia, education for sustainability and environmental education, as well as sustainability and sustainable development more generally. Quality Work in Higher Education Mari Elken,Peter Maassen,Monika Nerland,Tine S. Prøitz,Bjørn Stensaker,Agnete Vabø,2020-07-01 This book focuses on quality work in higher education, and examines the relationship between the organizational and pedagogical dimensions of quality work in higher education. Bringing together different disciplinary traditions, including educational science, sociology, and organisational studies, it addresses the following principal research question: How is quality work carried out in higher education? The book addresses a wide variety of academic, administrative and leadership practices that are involved in quality work in higher education institutions. The chapters in this book examine core issues crucial in the design and content of study programs, such as modes of teaching, learning and curricula design, as well as institutional practices regarding assessment and quality enhancement. The introductory and concluding chapter present an overarching focus on quality work as a lens to analyse intentional activities within higher education institutions directed at how study programmes and courses are designed, governed, and operated.

Police Leadership Pauline Ramshaw,Marisa Silvestri,Mark Simpson,2019-09-26 This book draws upon a range of theoretical and empirical research to explore contemporary debates about police

leadership. Focusing upon leadership styles, ethics, integrity and professionalism, workforce diversity, legitimacy and accountability, it reviews the changing context and nature of leadership over time and explores the gains, losses, tensions and challenges that different leadership models bring to policing. Leadership is present at various levels within the police service and this collection reflects upon appropriate leadership qualities and requirements for different roles and at different ranks. The book also considers the difference between leadership and management in an attempt to capture fuller debates within police leadership. Part one surmises the contextual backdrop to current thinking and the primary challenges facing leadership in the police service. Part two highlights the changing face of leadership through an exploration of the call for greater diversity within the ranks of police leadership, and the final section examines police leadership beyond England and Wales. Through this, *Police Leadership* explores how the challenges facing police leadership in England and Wales share similarities with those in Scotland, Northern Ireland, Greece, North America, and Australia in the face of the pressures of political and economic uncertainty.

Data Protection Law in Singapore Simon Chesterman, 2014-01-15 The adoption of the Personal Data Protection Act has transformed the legal regime for data protection in Singapore. This book explains the history and evolution of data protection in Singapore, highlights issues that will need to be worked out in practice as the new law is implemented and derives lessons that may be taken from other countries in the region and beyond. Bringing together leading scholars and practitioners in the field, the book will be of interest to the academic, legal and business communities. Key questions considered in the book include how to reconcile notions of privacy in an information age, and how national laws can regulate an increasingly interconnected world.
