Standard Christmas Program Book, Number 12 ,1953

Goldmine Standard Catalog of American Records Tim Neely,2002 Record expert Neely profiles nearly 175,000 45s, LPs, extended play singles, and 12-inch singles by artists whose first record was issued in 1975 or earlier. 200 photos. 8-page color section.

Revoked Allison Frankel,2020 [The report] finds that supervision -- probation and parole -- drives high numbers of people, disproportionately those who are Black and brown, right back to jail or prison, while in large part failing to help them get needed services and resources. In states examined in the report, people are often incarcerated for violating the rules of their supervision or for low-level crimes, and receive disproportionate punishment following proceedings that fail to adequately protect their fair trial rights.--Publisher website.

**Historical Thinking and Other Unnatural Acts** Samuel S. Wineburg,2001 Whether he is comparing how students and historians interpret documentary evidence or analyzing children's drawings, Wineburg's essays offer rough maps of how ordinary people think about the past and use it to understand the present. These essays acknowledge the role of collective memory in filtering what we learn in school and shaping our historical thinking.

**Wind from an Enemy Sky** D'Arcy McNickle,1988 A novel about a fictional Northwestern tribe.

Arrow Over the Door Joseph Bruchac,2002-07-08 For young Samuel Russell, the summer of 1777 is a time of fear. The British Army is approaching, and the Indians in the area seem ready to attack. To Stands Straight, a young Abenaki Indian scouting for King George, Americans are dangerous enemies who threaten his family and home. When Stands Straight's party enters the Quaker Meetinghouse where Samuel worships, the two boys share an encounter that neither will ever forget. Told in alternating viewpoints, The Arrow over the Door is based on a true story. Illustrated by James Watling. Thoughtful and eminently readable. (School Library Journal)

**Investing in the Health and Well-Being of Young Adults** National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on Improving the Health, Safety, and Well-Being of Young Adults,2015-01-27 Young adulthood - ages approximately 18 to 26 - is a critical period of development with long-lasting implications for a person's economic security, health and well-being. Young adults are key contributors to the nation's workforce and military services and, since many are parents, to the healthy development of the next generation. Although 'millennials' have received attention in the popular media in recent years, young adults are too rarely treated as a distinct population in policy, programs, and research. Instead, they are often grouped with adolescents or, more often, with all adults. Currently, the nation is experiencing economic restructuring, widening inequality, a rapidly rising ratio of older adults, and an increasingly diverse population. The possible transformative effects of these features make focus on young adults especially important. A systematic approach to understanding and responding to the unique circumstances and needs of today's young adults can help to pave the way to a more productive and equitable tomorrow for young adults in particular and our society at large. Investing in The Health and Well-Being of Young Adults describes what is meant by the term young adulthood, who young adults are, what they are doing, and what they need. This study recommends actions that nonprofit programs and federal, state, and local agencies can take to help young adults make a successful transition from adolescence to adulthood. According to this report, young adults should be considered as a separate group from adolescents and older adults. Investing in The Health and Well-Being of Young Adults makes the case that increased efforts to improve high school and college graduate rates and education and workforce development systems that are more closely tied to high-demand economic sectors will help this age group achieve greater opportunity and success. The report also discusses the health status of young adults and makes recommendations to develop evidence-based practices for young adults for medical and behavioral health, including preventions. What happens during the young adult years has profound implications for the rest of the life course, and the stability and progress of society at large depends on how any cohort of young adults fares as a whole. Investing in The Health and Well-Being of Young Adults will provide a roadmap to improving outcomes for this age group as they transition from adolescence to adulthood.

*Dialogical Networks* Ivan Leudar,Jiří Nekvapil,2022-03-27 This book brings together two decades of work by the authors on dialogical networks, showing how the concept of the dialogical network developed through series of connected case studies and clarifying the concept through historical analysis. Identifying the key characteristics of dialogical networks and showing that knowledge of them, though formulated in the abstract, is affected by historical contingencies, it demonstrates that work on dialogical networks required the work of a practical historian, connecting contemporary work to foregoing studies. As such, this volume represents an original study of how doing history is a part of research and sheds light on the ways in which people use the past in their social activities.

This new book, created for use in teaching Montana history, offers a panorama of the past beginning with Montana's first people and ending with life in the twenty-first century. Incorporating Indian perspectives, Montana: Stories of the Land is the first truly multicultural history of the state. It features hundreds of historical photographs, unique artifacts, maps, and paintings largely drawn from the Society's extensive collections. Sidebar quotations bring the stories of ordinary people to life while providing diverse

perspectives on important historical events. Published by the Montana Historical Society Press with production management by Farcountry Press. Features 463 photos, maps, and artifacts primarily drawn from the Montana Historical Society's collections Fully integrates the history of Montana's Indians into the state's story Uses quotations from everyday people to bring Montana's past to life

**Pro Processing for Images and Computer Vision with OpenCV** Bryan WC Chung,2017-08-26 Apply the Processing language to tasks involved in computer vision--tasks such as edge and corner detection, recognition of motion between frames in a video, recognition of objects, matching of feature points and shapes in different frames for tracking purposes, and more. You will manipulate images through creative effects, geometric transformation, blending of multiple images, and so forth. Examples are provided. Pro Processing for Images and Computer Vision with OpenCV is a step-by-step training tool that guides you through a series of worked examples in linear order. Each chapter begins with a basic demonstration, including the code to recreate it on your own system. Then comes a creative challenge by which to engage and develop mastery of the chapter's topic. The book also includes hints and tips relating to visual arts, interaction design, and industrial best practices. This book is intended for any developer of artistic and otherwise visual applications, such as in augmented reality and digital effects, with a need to manipulate images, and to recognize and manipulate objects within those images. The book is specifically targeted at those making use of the Processing language that is common in artistic fields, and to Java programmers because of Processing's easy integration into the Java programming environment. What You'll Learn Make use of OpenCV, the open source library for computer vision in the Processing environment Capture live video streams and examine them frame-by-frame for objects in motion Recognize shapes and objects through techniques of detecting lines, edges, corners, and more Transform images by scaling, translating, rotating, and additionally through various distortion effects Apply techniques such as background subtraction to isolate motion of objects in live video streams Detect and track human faces and other objects by matching feature points in different images or video frames Who This Book Is For Media artists, designers, and creative coders

The Great Depression: A Diary Benjamin Roth,2009-07-22 When the stock market crashed in 1929, Benjamin Roth was a young lawyer in Youngstown, Ohio. After he began to grasp the magnitude of what had happened to American economic life, he decided to set down his impressions in his diary. This collection of those entries reveals another side of the Great Depression—one lived through by ordinary, middle-class Americans, who on a daily basis grappled with a swiftly changing economy coupled with anxiety about the unknown future. Roth's depiction of life in time of widespread foreclosures, a schizophrenic stock market, political unrest and mass unemployment seem to speak directly to readers today.

**Mistrust** Florian Mühlfried,2018-03-31 Scholars have long seen trust as a foundational social good. We therefore have ample studies on building trust in free markets, on cultivating trust in the state, and on rebuilding trust through civil society. The contributors to this volume, instead, take a step back. They ask: Can mistrust ever be more than the flip side of trust, more than the sign of an absence or failure? By looking ethnographically at what a variety of actors actually do when they express mistrust, this volume offers a richly empirical trove of the social life of mistrust across a range of settings.
