Michael Abrash's Graphics Programming Black Book Michael Abrash, 1997 No one has done more to conquer the performance limitations of the PC than Michael Abrash, a software engineer for Microsoft. His complete works are contained in this massive volume, including everything he has written about performance coding and real-time graphics. The CD-ROM contains the entire text in Adobe Acrobat 3.0 format, allowing fast searches for specific facts.

SIDS Sudden Infant and Early Childhood Death Roger W. Byard, Jhodie R Duncan, 2018-04 This volume covers aspects of sudden infant and early childhood death, ranging from issues with parental grief, to the most recent theories of brainstem neurotransmitters. It also deals with the changes that have occurred over time with the definitions of SIDS (sudden infant death syndrome), SUDI (sudden unexpected death in infancy) and SUDIC (sudden unexpected death in childhood). The text will be indispensable for SIDS researchers, SIDS organisations, paediatric pathologists, forensic pathologists, paediatricians and families, in addition to residents in training programs that involve paediatrics. It will also be of use to other physicians, lawyers and law enforcement officials who deal with these cases, and should be a useful addition to all medical examiner/forensic, paediatric and pathology departments, hospital and university libraries on a global scale. Given the marked changes that have occurred in the epidemiology and understanding of SIDS and sudden death in the very young over the past decade, a text such as this is very timely and is also urgently needed.

In the Wake of the Crisis Olivier Blanchard, David Romer, Michael Spence, Joseph E. Stiglitz, 2012-02-24 Prominent economists reconsider the fundamentals of economic policy for a post-crisis world. In 2011, the International Monetary Fund invited prominent economists and economic policymakers to consider the brave new world of the post-crisis global economy. The result is a book that captures the state of macroeconomic thinking at a transformational moment. The crisis and the weak recovery that has followed raise fundamental questions concerning macroeconomics and economic policy. These top economists discuss future directions for monetary policy, fiscal policy, financial regulation, capital-account management, growth strategies, the international monetary system, and the economic models that should underpin thinking about critical policy choices. Contributors Olivier Blanchard, Ricardo Caballero, Charles Collyns, Arminio Fraga, Már Guðmundsson, Sri Mulyani Indrawati, Otmar

Passenger Train Emergency Preparedness (Us Federal Railroad Administration Regulation) (Fra) (2018 Edition) The Law The Law Library,2018-09-21 Passenger Train Emergency Preparedness (US Federal Railroad Administration Regulation) (FRA) (2018 Edition) The Law Library presents the complete text of the Passenger Train Emergency Preparedness (US Federal Railroad Administration Regulation) (FRA) (2018 Edition). Updated as of May 29, 2018 FRA is amending its existing regulation entitled Passenger Train Emergency Preparedness by revising or clarifying various provisions. The final rule clarifies that railroad personnel who communicate or coordinate with first responders during emergency situations must receive certain initial and periodic training and be subject to operational tests and inspections related to the railroad's emergency preparedness plan. The final rule also clarifies that railroads must develop procedures in their emergency preparedness plans that specifically address the safety of passengers with disabilities during actual and simulated emergency situations, such as during train evacuations. The rule also limits the need for FRA to formally approve certain purely administrative changes to approved emergency preparedness plans. In addition, the final rule requires that operational tests and inspections be conducted in accordance with a program that meets certain minimum requirements. Finally, the rule removes as unnecessary the provision discussing the preemptive effect of the regulations. This book contains: - The complete text of the Passenger Train Emergency Preparedness (US Federal Railroad Administration Regulation) (FRA) (2018 Edition) - A table of contents with the page number of each section

Services in Global Value Chains Patrick Low,Gloria O Pasadilla,2016-06-21 This compilation of 22 firm-specific case studies is an important contribution to the discussion of 'servicification' trends in manufacturing. 'Services have increased in importance and value in many manufacturing value chains, making companies that produce physical products look more like service enterprises. What services do global value chains use in their operations, how important are they and how do economic policies shape firms' configurations, operations, and location of global value chains? This book addresses these questions and more. The interviewed firms, based in 12 APEC economies, come from different sectors ranging from multinational automotive, construction equipment, and electrical appliance manufacturers to small and medium manufacturers of watches or chemical for water treatment. The book analyses what specific services are important in different stages of the value chain, and whether they are typically provided in-house or outsourced. Contents:Manufacturing-Related Services (Patrick Low and Gloria O Pasadilla)Manufacturing of Aircraft Control Systems in the Philippines (Andre Wirjo and Gloria O Pasadilla)Industrial Welding Services in Thailand (William Haines)Manufacturing of Mining and Construction Equipment (David Sit and Patrick Low)Manufacturing of Computer Servers (Yuhua Zhang)Wastewater Treatment Services (Arian Hassani and Andre Wirjo)Manufacturing of Automotive Components in the ASEAN Region (Denise

Deadline John Sandford,2014-10-09 From the Pulitzer Prize-winning author comes a brand new Virgil Flowers thriller that will keep you gripped until the very last page. Barns, the chairman, looked around the room and said, 'Okay. We can do this. Let's see a show of hands. It's unanimous, or it's prison. Do we kill Clancy Conley?' They all looked around at each other, each of them reluctant to go first. Then the fat man raised his hand, and then Kerns, and then the rest of them. 'It's unanimous,' Barns said. In southeast Minnesota, down on the Mississippi, a school board meeting is coming to an end. The board chairman announces that the rest of the meeting will be closed, due to personnel issues. Issues is correct. The proposal up for a vote before them is whether to authorize the killing of a local reporter. There are no votes against. Meanwhile, not far away, Virgil Flowers is helping out a friend by looking into a dognapping, which seems to be turning into something much bigger and uglier -- a team of dognappers supplying medical labs -- when he gets a call from Lucas Davenport. A murdered body has

been found -- and the victim is a local reporter...

1001 Photographs You Must See Before You Die Paul Lowe, 2018-04-10 Is photography art, documentary or both? Should images simply reveal the world we live in, or provoke us to think, act and react? 1001 Photographs You Must See Before You Die is a visually arresting and invaluable guide to the history and practice of photography. Sweeping through the arts, fashion, society, war, peace, science and nature, the images in this enticing book are as eye-catching as the commentary is engaging. Some you have seen, others will be unfamiliar, but what all the photographs have in common is their ability to move you, shock you and open up the notion of what it is to be human. Organized chronologically by the date that each image was made, and featuring a reproduction of each photograph, the selection provides some fascinating and unexpected juxtapositions. Insightful text uncovers the creative process behind each image, revealing its visual, aesthetic and historic significance. Why was the photograph taken? Was it set up? What was the intention? How did the world react? From Roger Fenton to William Eggleston, from Henry Fox Talbot to Nick Knight, and from Henri Cartier-Bresson to Dorothea Lange, all the photographers featured in this book transgressed the boundaries of the camera with a skill and spirit that helped to develop their field into a highly evocative art form. Packed with information that will entertain, inform, educate and surprise you, 1001 Photographs You Must See Before You Die is an essential reference for all lovers of photography.
