Edge Computing – EDGE 2018 Shijun Liu,Bedir Tekinerdogan,Mikio Aoyama,Liang-Jie Zhang,2018-06-18 This book constitutes the proceedings of the International Conference on Edge Computing, EDGE 2018, held in Seattle, WA, USA, in June 2018. The 9 full papers and 3 short paper presented in this volume were carefully reviewed and selected from 29 submissions. The contributions are organized in topical sections named: Research Track; Application and Industry Track; and Short Paper Track. They deal with the latest fundamental advances in the state of the art and practice of edge computing.

ARTS for Retail Richard Halter,2014-01-14 The Association of Retail Technology Standards is an organization of retailers and vendors who have come together to create an extensive set of standards to reduce the cost and time for upgrading existing applications or adding new capabilities. To understand the depth of support that ARTS offers, consider that the granddaddy of ARTS standards, the ARTS Data Model, has more than seven hundred tables and seven thousand attributes. In this new guide, author Richard Halter reveals how ARTS standards can help your business turn more consumers into customers and maximize profits. You can learn how to ? communicate better with potential customers; ? harness the power of social retailing; ? boost the success of promotions and discounts; and ? organize your store to maximize sales. Written in a language that everyone can understand, this guidebook explains how ARTS works together to help retailers and vendors. Take your business to a higher performing level and put more money in your pocket with ARTS for Retail.

Artificial Intelligence for Risk Management Archie Addo,Srini Centhala,Muthu Shanmugam,2020-03-13 Artificial Intelligence (AI) for Risk Management is about using AI to manage risk in the corporate environment. The content of this work focuses on concepts, principles, and practical applications that are relevant to the corporate and technology environments. The authors introduce AI and discuss the different types, capabilities, and purposes-including challenges. With AI also comes risk. This book defines risk, provides examples, and includes information on the risk-management process. Having a solid knowledge base for an AI project is key and this book will help readers define the knowledge base needed for an AI project by developing and identifying objectives of the risk-knowledge base and knowledge acquisition for risk. This book will help you become a contributor on an AI team and learn how to tell a compelling story with AI to drive business action on risk.

Retail Information Systems Based on SAP Products Jörg Becker,Wolfgang Uhr,Oliver Vering,2013-03-09 Concentration tendencies, globalization, increasing cost pressure and well-informed customers all make up the hard competition faced by today's businesses. The right products, a successful market image, a strong positioning between suppliers and customers, efficient logistics and optimum organization structures contribute to a company's survival. Achieving this goal requires flexible information and communication systems that are fully adaptable to the specific situation. Modern retail information systems are not bound by organization borders but support both business partner cooperation and electronic commerce. This book presents the architecture of retail information systems, as well as the functions of SAP Retail, and in so doing links modern retail management with the implementation strategies based on innovative software systems.

Vital Signs 2012 The The Worldwatch Institute,2012-03-28 Just as people schedule regular check-ups with physicians, our planet needs regular check-ups to catch issues as early as possible, before they become more serious and harder to heal. That is the much-needed service provided on a global scale by the Worldwatch Institute in this new book, Vital Signs 2012. By taking stock of global consumption, Vital Signs 2012 offers the facts that need to guide our stewardship of the Earth's resources-and some of these facts are shocking. The report covers topics from obesity to ecosystem services, from grain production to nuclear power. Taken as a whole, it paints a picture of skyrocketing population, disappearing forests, and increasing consumption peppered with bright spots like growing investment in high-speed trains and other efficient transportation systems. Vital Signs 2012 is based on Worldwatch's online project of the same name, which provides up-to-date figures on important global concerns, as well as the Institute's own additional research. The book compiles the most important of these into an accessible, informative resource for policymakers and anyone who wants a realistic look at the state of our planet.

Franchising and Licensing Andrew Sherman,2011-04-13 Comprehensive and applicable to domestic and international franchising initiatives alike, this go-to guide remains the industry standard for insights on expanding your business. As an experienced corporate and transaction lawyer, author Andrew Sherman offers insider insights into unique opportunities for business growth--specifically, leveraging your intellectual capital through franchising and licensing. By helping you understand what intellectual capital is, what revenue your company is entitled to, and how to manage these intangible assets, he provides knowledge and tools to keep your business not only operating, but growing in any economy. Filled with examples, stories from the field, and forms for drafting franchising agreements and licensing programs, Franchising & Licensing simplifies the strategic, legal, financial, and operational aspects of these complex but highly profitable business strategies. You will learn how to: raise capital, structure agreements, and protect intellectual property; create market-responsive sales, marketing, and globalization strategies; establish quality control and compliance measures; and assess opportunities for mergers and acquisitions, joint ventures, and other alternatives to franchising This book also incorporates up-to-the-minute information on regulations, best practices, web strategies, branding techniques and global trademark laws, the new FDD disclosure format, and the latest franchising trends.
