Star Destroyers Tony Daniel, Christopher Ruocchio, 2018-03-06 BIG SHIPS BLOWING THINGS UP GO BIG OR GO HOME! Boomers. Ships of the Line. Star Destroyers. The bigger the ship, the better the bang. From the dawn of history onward, commanding the most powerful ship around has been a dream of admirals, sultans, emperors, kings, generalissimos, and sea captains everywhere. For what the intimidation factor alone doesn't achieve, a massive barrage from super-weapons probably will. Thus it was, and ever shall be, even into the distant future. From the oceans of Earth, to beneath the ice of Europa, to the distant reaches of galactic empires, it is the great warships and their crews that sometimes keep civilization safe for the rest of us—but sometimes become an extinction-level event in and of themselves. In "Superweapon" by David Drake, a fight for possession of an ancient alien warship will determine the fate of two vast interstellar powers. Then in "Hate in the Darkness" by Michael Z. Williamson, a team of libertarian Freeholders must think outside the box to do battle with the might of the United Nations and its powerful navy. And in "A Helping Hand," Jody Lynn Nye posits an interstellar submarine on a rescue mission behind enemy lines—with the fate of an entire species hanging in the balance. Big, bold, and edge-of-your-seat space opera and military science fiction from David Drake, Sharon Lee & Steve Miller, Michael Z. Williamson, Steve White, Robert Buettner, Susan R. Matthews, Dave Bara, and many more! Contributors: David Drake Michael Z. Williamson Mark L. Van Name Steve White Jody Lynn Nye Brendan DuBois Sharon Lee & Steve Miller Susan R. Warship Joshua Dalzelle, 2015 In the 25th century humans have conquered space. The advent of faster-than-light travel has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship--and one captain--will soon be faced with this very choice--Back cover.

Warrior to Dreadnought David K Brown, 2010-09-22 In the 50 years that separated Warrior from Dreadnought there occurred a revolution in warship design quite unparalleled in naval history; a period that began with the fully-rigged broadside ironclads and ended with the emergence of the great battleships and battlecruisers that were to fight in the First World War. The author explains how nineteenth-century designers responded to developments in engine technology, armour protection and armament in their attempts to develop the best possible fighting ships. He details the development of more efficient engines that brought about the demise of the sailing warship, and the competition between armour and armament, with every increase in the power of guns stimulating the development of ever more sophisticated methods of protection. Importantly, he explains that the Victorian Royal Navy, far from being the reactionary body it is so often depicted as, was, in fact, at the forefront of technological change, for example in the employment of torpedoes and the development of countermeasures to them. Full accounts are given of the significant naval events and battles of the period, making the book a

fine narrative history as well as a brilliant work of warship reference. D K BROWN was a distinguished naval architect who retired in 1988 as Deputy Chief Naval Architect of the Royal Corps of Naval Constructors. He published widely on the subject of warship design and built a reputation as a clear and brilliant commentator on the development of the ships of the Royal Navy. He died in 2008.

First Rate Rif Winfield, 2010-09-13 In the sailing era First Rates were the largest, most powerful and most costly ships to construct, maintain and operate. Built to the highest standards, they were lavishly decorated and given carefully considered names that reflected the pride and prestige of their country. They were the very embodiment of national power, and as such drew the attention of artists, engravers and printmakers. This means that virtually every British First Rate from the Prince Royal of 1610 to the end of sail is represented by an array of paintings, drawings, models or plans. This book is a celebration of these magnificent ships, combining an authoritative history of their development with reproductions of many of the best (and least familiar) images of the ships, chosen for their accuracy, detail and sheer visual power in an extra-large format that does full justice to the images themselves. It also includes comparative data on similar vessels in other navies, so it is a book that everyone with an interest in wooden warships will find both enlightening and a pleasure to peruse.

Warships of the Ancient World Adrian K. Wood, 2013-01-20 The world's first war machines were ships built two millennia before the dawn of the Classical world. Their influence on the course of history cannot be overstated. A wide variety of galleys and other types of warships were built by successive civilisations, each with their own distinctive appearance, capability and utility. The earliest of these were the Punt ships and the war galleys of Egypt which defeated the Sea People in the first known naval battle. Following the fall of these civilisations, the Phoenicians built biremes and other vessels, while in Greece the ships described in detail in the 'Trojan' epics established a tradition of warship building culminating in the pentekonters and triaconters. The warships of the period are abundantly illustrated on pottery and carved seals, and depicted in inscriptions and on bas-reliefs. The subject has been intensively studied for two and a half

millennia, culminating in the contemporary works of authoritative scholars such as Morrison, Wallinga, Rodgers and Casson. To date there are no works covering the subject which are accessible and available to non-academics.

Light of Impossible Stars: An Embers of War Novel Gareth L.

Powell, 2020-02-18 BSFA Award-winning author Gareth L. Powell delivers an explosive conclusion to his epic Embers of War trilogy. Low on fuel and hunted by the Fleet of Knives, the sentient warship Trouble Dog follows a series of clues that lead her to the Intrusion--an area of space where reality itself becomes unstable. But with human civilisation crumbling, what difference can one battered old ship have against an invincible armada? Meanwhile, Cordelia Pa and her step-brother eke out their existence salvaging artefacts from an alien city. But when Cordelia starts hearing the city's song in her head, strange things start happening around her. What extraordinary affinity does she have for this abandoned technology, and how can it possibly help the Trouble Dog? Award-winning author Gareth L. Powell delivers an explosive conclusion to his epic Embers of War trilogy.

Star Warch Mark Wayne McGinnis, 2015-07-15 Join the Star Watch crew on their first mission to the planet of Trom, where hostile Pharlom invaders have appropriated high altitude cloud-ports as prisoner of war camps. As a fierce battle in space ensues, fragmented warships fall into Trom's atmosphere and head right for a populated cloud-port. From best-selling author Mark Wayne McGinnis comes the highly anticipated Scrapyard Ship spin-off series, *Star Watch*. The Craing War is now over ... the enemy defeated. As planetary systems around the galaxy try to bring normalcy back to their existence, one thing becomes crystal clear ... without the Craing around to keep everyone in line, space has become a far more dangerous place. With tens of thousands of warships idle, along with hundreds of thousands of Allied crew personnel sitting on their hands, it's up to Admiral Perry Reynolds whether or not to send the combatants home, and mothball most of the ships. But as more and more requests for prompt Allied assistance come in from the farthest reaches of outer space (i.e. for minor incursions into sovereign territory; or others, more serious--including barbaric planetary invasions), Admiral Reynolds is compelled to introduce a new stellar over-watch program. With his own career winding down, one of his final directives will be in the formation of a special intergalactic marshaling service ... *Star Watch*. The admiral has the perfect ship lined up for the task--the most advanced warship in the known galaxy: the mile-long Caldurian vessel--the Minian. Next ... he needs to outfit the ship with a captain and crew he can trust to get this far-range venture initiated properly. Across the galaxy, young Boomer, daughter of Captain Jason Reynolds, begins her training in the ancient fighting methods of the Kahill Callan, and prepares to battle against Lord Vikor Shakrim--leader of the dreaded Sahhrain warriors.

The Hunt for Hitler's Warship Patrick Bishop, 2013-04-08 Winston Churchill called it the Beast. It was said to be unsinkable. More than thirty military operations failed to destroy it. Eliminating the Tirpitz, Hitler's mightiest warship, a 52,000-ton behemoth, became an Allied obsession. In *The Hunt for Hitler's Warship*, Patrick Bishop tells the epic story of the men who would not rest until the Tirpitz lay at the bottom of the sea. In November of 1944, with the threat to Russian supply lines increasing and Allied forces needing reinforcements in the Pacific, a raid as audacious as any Royal Air Force operation of the war was launched, under the command of one of Britain's

greatest but least-known war heroes, Wing Commander Willie Tait. Patrick Bishop draws on decades of experience as a foreign war correspondent to paint a vivid picture of this historic clash of the Royal Air Force's Davids versus Hitler's Goliath of naval engineering. Readers will not be able to put down this account of one of World War II's most dramatic showdowns.

Warships of the Napoleonic Era Robert Gardiner, 2011-08-15 Between 1793 and 1815 two decades of unrelenting naval warfare raised the sailing man of war to the zenith of its effectiveness as a weapon of war. Every significant sea power was involved in this conflict, and at some point virtually all of them were arrayed against Great Britain. A large number of enemy warships were captured in battle and the Admiralty ordered accurate drafts to be made of many of these prizes. Consequently, ships from the navies of France, Spain, the United States, the Netherlands, Denmark, Sweden, as well as from Britain, were illustrated by an unprecedented variety of paintings, drawings, models or plans.

4-Point Star Linda Mooney, 2021-03-26 Being called to become part of a Gaspiel is an honor, a chance to serve in the war against the Fol'Minites and to protect the K'Stollians' world. Four men are required to form the four-point star, each one controlling a different element of their warship—navigation, weapons, engine, and the captain. But the most important element and hardest to find is their fifth, their Visl—their strength. When Ensign Sienna Pratt finds out she is called to be a Gaspiel, she sees it as an opportunity to learn about a system no one knows anything about, and she agrees. She knows the K'Stollian ships are different. They don't run on fuel, have no material for weapons, they are completely bio-dispensing organisms. Basically, the ships convert the endorphins released during sex into power to run their systems, and that's where Sienna would come into play. Not knowing exactly what she's signing up for, she's willing to take the risk to help the people and the planet. But when it comes time to fulfill her obligations, can she give herself over? The crew quickly learns that Sienna is not your average Visl, and she will not take things lying down. She is not merely there to service the men, she's determined to prove her worth. The war has been raging for centuries, but now it's a battle for the K'Stollians' existence. Someone is sabotaging them and wants to wipe out their entire species, but who? The Gaspiel know there is strength in numbers, but whom can they trust? To make matters worse, rule number one is not to let your emotions become involved, but when it comes to the four males who've claimed her body, that quickly proves impossible.

The Warship Mary Rose David Childs, 2014-04-30 This new paperback edition brings the history of Henry VIII's famous warship right up to date with new chapters on the stunning presentation of the hull and the 19,000 salvaged artefacts in the new museum in Portsmouth. Mary Rose has, along with HMS Victory, become an instantly recognisable symbol of Britain's maritime past, while the extraordinary richness of the massive collection of artefacts gleaned from the wreck has meant that the ship has acquired the status of some sort of 'time capsule', as if it were a Tudor burial site. But she is much more than an archaeological relic; she was a warship, and a revolutionary one, that served in the King's navy for thirty-four years, almost the entire length of his reign. This book tells the story of her eventful career, placing it firmly within the colourful context of Tudor politics, court life and the developing administration of a permanent navy.

And though the author also brings the story right down to the present day, with chapters on the recovery, the fresh ideas and information thrown up by the massive programme of archaeological work since undertaken, and the new display just recently opened at Portsmouth Historic Dockyard, it is at heart a vivid retelling of her career and, at the end, her dramatic sinking. With this fine narrative and the beautiful illustrations the book will appeal to the historian and enthusiast, and also to the general reader and museum visitor.

Battleship Peter Allen David, 2012 YOU SANK THE WRONG BATTLESHIP During a routine naval drill at Pearl Harbor, American forces detect a ship of unknown origins that's crashed in the Pacific Ocean.
