Flaco's Legacy Erin E. Bauer,2023-05-23 A combination of button accordion and bajo sexto, conjunto originated in the Texas-Mexico borderlands as a popular dance music and became a powerful form of regional identity. Today, listeners and musicians around the world have embraced the genre and the work of conjunto masters like Flaco Jiménez and Mingo Saldívar. Erin E. Bauer follows conjunto from its local origins through three processes of globalization-- migration via media, hybridization, and

appropriation--that boosted the music's reach. As Bauer shows, conjunto's encounter with globalizing forces raises fundamental questions. What is conjunto stylistically and socioculturally? Does context change how we categorize it? Do we consider the music to be conjunto based on its musical characteristics or due to its performance by Jiménez and other regional players? How do similar local genres like Tejano and norteño relate to ideas of categorization? A rare look at a fascinating musical phenomenon, Flaco's Legacy reveals how conjunto came to encompass new people, places, and styles.

Becoming Bridges Gary Commins,2007 Pastor of a bilingual, multicultural church for more than a decade, Gary Commins knows that diversity is a spiritual exercise that can be as charged with anxiety as it is laced with hope. In *Becoming Bridges*, Commins lays the groundwork for diversity as an intrinsic part of the life of faith and calls us to become bridge people people who are willing to traverse gaps of ignorance and bridge the things that separate us--religion, race, culture, class, gender, and sexual orientation.

Early Puerto Rican Cinema and Nation Building Naida García-Crespo,2019-06-07 *Early Puerto Rican Cinema and Nation Building* focuses on the processes of Puerto Rican national identity formation as seen through the historical development of cinema on the island between 1897 and 1940. Anchoring her work in archival sources in film technology, economy, and education, Naida

García-Crespo argues that Puerto Rico's position as a stateless nation allows for a fresh understanding of national cinema based on perceptions of productive cultural contributions rather than on citizenship or state structures. This book aims to contribute to recently expanding discussions of cultural networks by analyzing how Puerto Rican cinema navigates the problems arising from the connection and/or disjunction between nation and state. The author argues that Puerto Rico's position as a stateless nation puts pressure on traditional conceptions of national cinema, which tend to rely on assumptions of state support or a bounded nation-state. She also contends that the cultural and business practices associated with early cinema reveal that transnationalism is an integral part of national identities and their development. García-Crespo shows throughout this book that the development and circulation of cinema in Puerto Rico illustrate how the "national" is built from transnational connections. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.

Pioneer of Mexican-American Civil Rights Cynthia E. Orozco, 2020-04-30 In this wide-ranging biography, historian Cynthia Orozco examines the life and work of one of the most influential Mexican Americans of the twentieth century. Alonso S. Perales was born in Alice, Texas, in 1898; he became an attorney, leading civil rights activist, author and US diplomat. Perales was active in promoting and seeking equality for "La Raza" in numerous arenas. In 1929, he co-founded the League of United Latin American Citizens (LULAC), the most important Latino civil rights organization in the United States. He encouraged the empowerment of Latinos at the voting box and sought to pass state and federal legislation banning racial discrimination. He fought for school desegregation in Texas and initiated a movement for more and better public schools for Mexican-descent people in San Antonio. A complex and controversial figure, Alonso S. Perales is now largely forgotten, and this first-ever comprehensive biography reveals his work and accomplishments to a new generation of scholars of Mexican-American history and Hispanic civil rights. This volume is divided into four parts: the first is organized chronologically and examines his childhood to his role in World War I, the beginnings of his activism in the 1920s and the founding of LULAC. The second section explores his impact as an attorney, politico, public intellectual, Pan-American ideologue and US diplomat. Perales' private life is examined in the third part and

scholars' interpretations of his legacy in the fourth.

Conservation Fallout John Wills, 2012-08-15 One of the most controversial atomic projects of the US nuclear industry during the 1960s and 1970s was the construction of a nuclear power plant at Diablo Canyon, a relatively unsettled and biologically rich part of the central California coast. Conservation Fallout traces the course of opposition that tore apart local communities, almost destroyed the Sierra Club, and attracted massive demonstrations in San Francisco and at the

plant itself. The result is a balanced examination of nuclear politics in California and of the evolution and strategies of little-studied grassroots protest groups determined to resist the spread of nuclear technology.
