How To Profit From Creating Your Hot Online Selling Digital Product Kristy Jenkins, 2015-06-11 How to Get Started Selling Your Own Digital products Selling digital products is a great source of income for entrepreneurs—it's a semi passive income source because efforts are required for marketing your created products to attract traffic to your online Moneysites and provide customer support for them, unless such supporting services are being outsourced. It may seem like a pretty intimidating idea if you have never created your own product, but it really doesn't have to be that complicated, and in this ebook, we'll take a look at what is involved with creating your very own hot selling digital product. While there are endless possibilities when it comes to creating and selling digital products, there are a few types of products that tend to be the most common. This ebook will offer various in depth understanding to various options. If it's possible to make money by promoting other people's products as an affiliate, why would you want to go to the trouble of creating your own product? Well, there are several reasons to this , one of the most significant is the unlimited income potential and you will have full control over all the details of the product and its pricing, which is not the case if you are promoting a product as an affiliate. Many of the most successful technopreneurs have made it Big online and usually are with their own digital products. Having your own exclusive product is great for branding yourself as an authority on a particular subject. Think about it, which other businesses will allow you to work where, when and how you want? In case if you are wondering that this journey might involve thousands of dollars to invest and risk? Well, that has never crossed my mind as digital product business has little to NO RISK. There will be some expenses

involved to register some domain names, get web hosting and perhaps outsource some content. But all in all, it will not exceed the price of an iPhone or a digital tablet as long you start with small steps. Another reason why you should start a digital product business is that it's a completely automated business. You set everything up once and simply drive traffic, all repeated sales income automatically will be deposited into your payment gateway account on 24/7 365 days, all at its own operation.

Rise of the Videogame Zinesters Anna

Anthropy, 2012-03-20 Anna Anthropy is a key personality in the ongoing paradigm shift that is slowly changing the way videogames are understood, by creators and players, and by the wider culture. —Patrick Alexander, Eeagra.com Equal parts autobiography, ethnography, and how-to manual, this book concisely makes the case for the unique power of 'zinester' games. —Adam Parrish, NYU's Interactive Telecommunication Program (Tisch School of the Arts), and author of the ZZT game Winter These days, everybody can make and distribute a photograph, or a video, or a book. Rise of the Videogame Zinesters shows you that everyone can make a videogame, too. But why should they? For Anna Anthropy, it's not for fame or for profit, but for the strange, aimless beauty of personal creativity." —Ian Bogost, Director, Graduate Program in Digital Media, Georgia Institute of Technology Rise is a great guidebook to understanding—and more importantly, participating in—this dynamically evolving culture. —Jim Munroe, co-founder of the Hand Eye Society and the Difference Engine Initiative "Here, Anna Anthropy demonstrates how people from every background and walk of life are breaking free of the commercial cowardice of major publishers, and bringing their individual visions of the game to life. . . . If game design is to be an art, as those of us who love games fervently hope, it must

be rescued from its crushing commercial pressures. You can be a part of its future.” —Greg Costikyan, author of *I Have No Mouth and I Must Scream* Anna gives the world of video games a crucial perspective from her seat of authority within outsider culture, and illustrates how essential it is for the space to empower voices of all kinds if it is to evolve. —Leigh Alexander, editor-at-large of *Gamasutra*
