Relax and Enjoy Your Food: Save Your Money, Your Health, and Your Sanity by Separating Fact from Flapdoodle. Craig Good,2020-08-22 A lot of people worry about eating the wrong food. Well-funded campaigns have spent years convincing you that some foods are good, some are bad, and some are downright evil. It doesn't have to be that way. Relax and Enjoy Your Food uses science and a little common sense to take away all that anxiety, and save you some money to boot. Once you let go of some ideas, it all gets simpler. There are no superfoods, no junk foods, and there aren't even any health foods. There is just food, all of which provides some combination of the same seven basic things that all food does. That's why the most specific advice you can get is to eat a variety of foods, mostly plants, not too much or too little. That's it. The diet and wellness industries, along with the supplement industry, have deep pockets and ill intent. Their primary victims are women, but everybody gets caught up in their web. After reading this book you'll be able to leave all that behind, eat a healthy diet, even reach and maintain a healthy weight. In short, you'll be able to relax and enjoy your food.

Simply Genius! Ervin Laszlo, Ph.D.,2011-06-15 An autobiography usually recounts the life of a person who has achieved wide acclaim in one field. But this extraordinary book describes the life of someone who has achieved international acclaim in three fields! Ervin Laszlo was a child prodigy on the piano and grew up to become an internationally celebrated virtuoso. By the time he reached his 40s, however, he had become a famous scientist and philosopher, and had written a dozen books and more than a hundred articles. He also taught at major universities in Europe, the U.S., and the Far East. Shortly thereafter, he gained world renown as a global visionary, heading research programs at the United Nations and founding an international think tank (the Club of Budapest). But this book is not an autobiography in the traditional sense. In Laszlo's own words: I don't like talking about myself, about what makes me tick and why. Writing about all the things that have happened to me is different. This is storytelling--the telling of a real, lived story: my story, as it unfolded over the years. Join the author on his remarkable journey from his days as an internationally acclaimed concert pianist . . . to his profoundly personal quest to effect positive global transformation!
