How the Shopping Cart Explains Global Consumerism Andrew Warnes, 2019-01-29 Picture a familiar scene: long lines of shoppers waiting to check out at the grocery store, carts filled to the brim with the week's food. While many might wonder what is in each cart, Andrew Warnes implores us to consider the symbolism of the cart itself. In his inventive new book, Warnes examines how the everyday shopping cart is connected to a complex web of food production and consumption that has spread from the United States throughout the world. Today, shopping carts represent choice and autonomy for consumers, a recognizable American way of life that has become a global phenomenon. This succinct and accessible book provides an excellent overview of consumerism and the globalization of American culture.

Store Manager Organizer / Planner Dianne Miethner,2020-08-24 DMSRetail recognizes Store Managers as professional career people who need an organizer – planner that works to assist them in their professional lives. The DMSRetailer™ includes sections that correspond to actual activities that take place in a retail store and other sections that allow you to customize in an organized fashion. All of these sections are invaluable as reminders and become an integral part of the Store Manager’s planning process. Retail Managers organize their work day and work week on the fly. That is not easy at the best of times. Sometimes it’s done in the backroom, sometimes in the food court or the lunch room and very often it is done at the cash desk just before store opening or during closing procedures.
